Breaking Barriers Brian Cafarella, 2021-06-29 The fact college students often struggle in mathematics is not new They exhibit a great deal of anxiety dislike and overall disinterest Quantitative data displaying abysmal student success rates are widely available and shared This book explores the complexity surrounding the issue of student difficulties in community college math Though much quantitative research focuses on the faculty experiences and perspectives regarding methods and practices the author puts the focus on students experiences The book presents the results of a study focused on students who struggled in mathematics Though their experiences varied they all entered

community college with a great deal of disgust and anxiety toward mathematics courses and requirements. These impressions and attitudes create barriers to success. However, all the students eventually succeeded in fulfilling their college level mathematics requirement. The author presents these students' experiences prior to entering community college, what led to both success and failure in their math courses, and the common themes leading to success and failure. Through these student responses, the author assists readers in gaining a better understanding of the community college student who struggles in math and how to break students' community college math barriers to success.

The AIGA Guide to Careers in Graphic and Communication Design

Juliette Cezzar, 2018-03-08

What graphic design is, what designers need to know, and who becomes a designer have all evolved as the computer went from being a tool to also becoming our primary medium for communication. How jobs are advertised and how prospective candidates communicate with prospective employers have changed, as well as has the culture and context for many workplaces requiring new approaches for how to find your first and last position. Through clear prose, a broad survey of contexts where designers find themselves in the present day, and interviews with designers, *The AIGA Guide to Careers in Graphic and Communication Design* is an invaluable resource for finding your place in this quickly changing and growing field. The book includes interviews with over 40 designers at all levels working in-house and out of house in studios, consultancies, or alone, including Nicholas Blechman (The New Yorker), Rob Giampietro (Google), Njoki Gitahi (IDEO), Hilary Greenbaum (Whitney Museum), Holly Gressley (Vox Media), Cemre Gungor (Facebook), Natasha Jen (Pentagram), Renda Morton (The New York Times), and Alisa Wolfson (Leo Burnett Worldwide).
