The (Inter) National Basketball Association Joel Gunderson, 2020-11-03 For most of its existence the National Basketball Association was a league filled with almost all American born players. Players from overseas were looked at as less skilled and not worth the risk. Americans playing overseas were looked at as those who couldn't cut it in the NBA now playing in essentially the minor leagues of basketball. But that's no longer the case. Today a full one third of those in the league were born overseas. Out are the days of foreign born players from unknown countries sitting at the end of the bench. Now they're the face of the franchise. A lottery draft pick. They are carrying the game into the new millennium. So the question remains what brought about this change. How did the skillsets of players born overseas become comparable to those in the states. In *The Inter National Basketball Association* author Joel Gunderson explores how the international game has become so integral to the growth of the NBA. It's not as former commissioner David Stern described at the 1985 NBA Draft America's Game. No longer does Team USA expect to steamroll through the Olympics. With stars such as Giannis Antetokounmpo Greece, Luka Doncic Slovenia, Joel Embiid Cameroon, Kristaps Porzingis Latvia and many more, the game of basketball has become a universal language. With almost forty different countries represented in the National Basketball Association today, the evolution of the sport has transcended across international waters. Teams no longer shy away from players born abroad but instead welcome them with open arms. And for those who come over not knowing the language, unfamiliar with the American lifestyle, they are now arriving with fluency in the most important language: basketball.
