

The United States of America

The United States of America is a country in North America. It is made up of 50 states. The capital of the United States is Washington D.C. The United States is a big country with many different types of landscapes, like mountains, forests, deserts, and beaches. The United States is also home to many different types of animals, like bears, eagles, and alligators.

The United States has a lot of history. The first people who lived in the United States were Native Americans. Later, people from Europe came to the United States and started colonies. The United States became an independent country in 1776. The first president of the United States was George Washington.

The United States is known for its culture, too. There are many different types of music that came from the United States, like jazz, blues, and rock and roll. The United States is also known for its food, like hamburgers, hot dogs, and apple pie. Every year, people from all over the world come to the United States to visit famous landmarks, like the Statue of Liberty, the Grand Canyon, and Disneyland.

Superintendent of Documents, 1983 **A Destiny of Choice?** David Blanke, David Steigerwald, 2013-02-21 In the twentieth century Americans thought of the United States as a land of opportunity and equality To what extent and for whom this was true was of course a matter of debate however especially during the Cold War many Americans clung to the patriotic conviction that America was the land of the free At the same time another national ideal emerged that was far less contentious that arguably came to subsume the ideals of freedom opportunity and equality and that eventually embodied an unspoken consensus about what

constitutes the good society in a postmodern setting This was the ideal of choice broadly understood as the proposition that the good society provides individuals with the power to shape the contours of their lives in ways that suit their personal interests idiosyncrasies and tastes By the closing decades of the century Americans were widely agreed that theirs was or at least should be the land of choice In *A Destiny of Choice* David Blanke and David Steigerwald bring together important scholarship on the tension between two leading interpretations of modern American consumer culture That modern consumerism reflects the social cultural economic and political changes that accompanied the country s transition from a local producer economy dominated by limited choices and restricted credit to a national consumer marketplace based on the individual selection of mass produced mass advertised and mass distributed goods This debate is central to the economic difficulties seen in the United States today **Official Gazette of the United States Patent and Trademark Office**
