✓ Traction performance. Top-tier or close to. Reportedly even handles dusty courts very well.

Cons

✗ Inflexible midsole. Fails to bend naturally at the toe joint even after considerable breaking-in. As a result, some users even reported heel-slippage.

✗ Overly thick insoles. Leads to a reduced sense of court-feel. Swapping out for more practical insoles may require choosing a different size.

Reddit Review:

Designing for Democracy Jennifer Forestal, 2022 How should we fix digital technologies to support democracy instead of undermining it In *Designing for Democracy* Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or whether they do so at all The result is a more nuanced analysis of the democratic communities that form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory *Designing for Democracy* provides blueprints for democracy in a digital age

Youth Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 *Youth Digital Health and Online Platforms* focuses on young people's use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth digital health research policy and service delivery Peer led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk This book argues that online peer led dialogues support young people's agency in health and that young people can benefit from dealing with health issues with peers The work is based on the digital ethnography of teenagers' subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit's pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young people

The Glass Cliff is a conversation about what happens when women break the rules and break through The Glass Ceiling. Every current and aspiring leader needs to read this book. Helen Tupper Sarah Ellis authors of The Squiggly Career and You Coach You Clever brilliantly researched and vitally important. Dawn O Porter bestselling author of The Cows and Cat Lady. Have you ever wondered why there are so few success stories of women in business leadership? Or maybe you've wondered what life is really like on the other side of The Glass Ceiling. The world of work is supposedly changing embracing diversity yet are the opportunities we're giving to women really equal to those of men? Drawing on almost twenty years of research from around the world, The Glass Cliff phenomenon whereby women are often only hired in leadership roles when a business is already underperforming meaning their chances of success are limited before they even start in the role is well established but little known. Until now. This is the story of The Glass Cliff, a story of a structural inequality disguising itself as the personal failures of women. When Sophie Williams gave her viral TED talk on the subject she was subsequently flooded with accounts of confident accomplished women who had taken what seemed like a dream leadership role only to quickly find themselves in a waking nightmare. Without the language to describe their experiences they had been left blaming themselves. But learning about The Glass Cliff enabled them to reframe and reexamine what they'd gone through. Once we understand The Glass Cliff once we can stand together and face it head first.

we can start to unravel so many other false narratives about women's leadership experiences that just don't make sense without it. By understanding the phenomenon and by telling one another about it we can affect the conversation, empower one another to overcome societal bias and ultimately change the world of work for women forever.

Environmental Policy Science's Exploration for Innovative Data Nicholas Guehlstorf, 2025-08-04. This edited volume discusses the use of nontraditional data sources in environmental political research and its implications for policymaking. Researchers involved in natural resource investigations and pollution control analysis must be entrepreneurial in finding and utilizing data sets to answer pressing policy questions. To remain relevant, successful researchers must increasingly seek data beyond routine federal program assessments, fragmented local surveys and limited stakeholder interactions. This volume surveys current environmental research that draws on emerging data sources such as social media and political discourse. It poses critical questions about the potential of creative and innovative analytical approaches, particularly in contexts where policymakers have disregarded objective evidence based social science on environmental challenges. By encouraging scholars to adopt new methods, research designs and data sources, this book offers valuable insights for researchers across the social and environmental sciences.

Online Community Therapy Will Henderson, Mary Jackson Pitts, 2022-09-28. This book explores how online therapy communities offer an accessible space that is not confined by economic abilities, geographical barriers or familial restraints. Will Henderson and Mary Jackson Pitts use mixed methodologies of self administered surveys and in depth interviews to explore how online therapy communities can be used as a tool in the overall care of individuals who are in crisis and dealing with self harming thoughts and behaviors. Faced with monetary constraints, lack of insurance coverage and close connections who have no experience in addressing self harming behaviors, this book highlights online therapy community members' experiences and insight into how online therapy communities have been helpful and may be helpful for others who choose to be a part of these communities. Scholars of communication, sociology and psychology will find this book of particular interest.
