NACIE Scholarship Field Guide, 1991 Scholarship, Commerce, Religion Ian Maclean, 2012-03-20 A decade ago in the Times Literary Supplement Roderick Conway Morris claimed that almost everything that was going to happen in book publishing from pocket books instant books and pirated books to the concept of author's copyright company mergers and remainders occurred during the early days of printing Ian Maclean's colorful survey of the flourishing learned book trade of the late Renaissance brings this assertion to life The story he tells covers most of Europe with Frankfurt and its Fair as the hub of intellectual exchanges among scholars and of commercial dealings among publishers The three major religious confessions jostled for position there and this rivalry affected nearly all aspects of learning Few scholars were exempt from religious or financial pressures Maclean's chosen example is the literary agent and representative of international Calvinism Melchior Goldast von Haiminsfeld whose activities included opportunistic involvement in the political disputes of the day Maclean surveys the predicament of underfunded authors the activities of greedy publishing entrepreneurs the fitful interventions of regimes of censorship and licensing and the struggles faced by sellers and buyers to achieve their ends in an increasingly overheated market The story ends with an account of the dramatic decline of the scholarly book trade in the 1620s and the connivance of humanist scholars in the values of the commercial world through which they aspired to international recognition Their fate invites comparison with today's writers of learned books as they too come to terms with new technologies and changing academic environments

during the 1920s and competition between them reached its peak but by 1930 Nanyang weakened bringing an end to serious commercial rivalry Though less competitive both companies continued to trade in China until their Sino foreign rivalry ended altogether with the founding of the People s Republic in 1949 Debate over international commercial rivalries has often been conducted broadly in terms of imperialist exploitation and economic nationalism This study shows the usefulness and limitations of these terms for historical purposes and contributes to the separate but related debate over the significance of entrepreneurial innovation in Chinese economic history By analyzing the foreign Chinese companies business practices and by describing their involvement in diplomatic incidents boycotts strikes student protests relations with peasant tobacco growers dealings with the Kuomintang and Chinese Communist Party and a host of other activities the author brings to light the roles that big businesses played not only in China s economy but also in its politics society and foreign affairs The Best 384 Colleges, 2019 Edition The Princeton Review,Robert Franek,2018-09-18 Make sure you re preparing with the most up to date materials Look for The Princeton Review s newest edition of this book The Best 385 Colleges 2020 Edition ISBN 9780525568421 on sale August 2019 Publisher s Note Products purchased from third party sellers are not guaranteed by the publisher for quality or authenticity and may not include access to online tests or materials included with the original product
