While the Web is an invaluable source of information, students do not always know how to extract the information that they seek. This guide can offer assistance. This book expertly handles common reference sources, search engines, meta subject guides, the humanities and social science disciplines, which are arranged in an alphabetized sequence of chapters featuring each individual discipline. An innovative and timely answer to the student's quest for information, this book opens the broadest purview the Web offers on a specific discipline while simultaneously limiting the number of featured sites.
