Guide to Psychological Assessment with Hispanics Lorraine T. Benuto, 2012-09-19

This book focuses on diversity culture and ethnicity as they relate to psychological assessment of Hispanics It is a how to guide for clinicians researchers and instructors working with Hispanic clients Each chapter contains an overview of cultural considerations needed for assessing the Hispanic client followed by a specific exploration of the assessment measures available and the research that has been conducted on these measures with Hispanic participants An exploration of the strengths and limitations of each assessment measure is included Considering that ethnocultural minority individuals who are of Hispanic Latino origin make up the largest ethnocultural minority group in the United States guidelines for working

with this population are a must. Given that a large subset of this percentage is composed of immigrants many of whom do not speak English or who have learned English as a second language special considerations for effective psychological assessment are necessary. This book fills a gap in the scientific literature by consolidating the research on psychological assessment with Hispanic samples into one comprehensive volume and providing simple recommendations for the psychological assessment of Hispanic clients. An exploration of the general psychological assessment domains e.g. personality intelligence is included with references to research on the major assessment measures used in the field. A more specific exploration of psychodiagnostic assessment measures follows including the assessment of mood disorders anxiety disorders sexual dysfunction psychosis etc. Several chapters are dedicated to specialized assessment including neuropsychological assessment forensic assessment and school based assessment overall creating the most comprehensive up to date research based compendium of psychological assessment measures for use with Hispanic clients.

Clinical Guide to the Treatment of the Mentally Ill Homeless Person American Association of Community Psychiatrists, 2007-05-03. A case based clinical guide applicable to a variety of settings this book offers evidence based expert advice on the difficult challenges inherent in working with underserved homeless populations. The American Association of Community Psychiatrists Clinical Guide to the Treatment of the Mentally Ill Homeless Person is a concise practical work that gives busy clinicians the information they need. It not only is more up to date than existing publications but also offers case and site based content that provides more hands on practical advice. Written by clinicians for clinicians it offers approaches to therapy and rehabilitation from the vantage point of the treatment environment from street to housing and everything in between. The book reflects approaches to the clinical care of homeless people refined over two decades building not only on the work of academic research but more importantly on the firsthand experience of clinicians. Its organization by treatment setting or specific subpopulation allows readers quick access to the chapters most relevant to their work. The first five chapters follow a sequence of naturalistic settings such as shelters and the work of Assertive Community Treatment Teams that demonstrate a model of engagement intensive care and ongoing rehabilitation. Subsequent chapters define specific scenarios that depict patients at various points on the engagement rehabilitation continuum. Each chapter contains a clinical case example guides to differential diagnosis treatment planning and accessing entitlements and a flow chart for rehabilitation including opportunities for student resident or community involvement. The book emphasizes a real world orientation that provides a nuts and bolts approach to such cases as families homeless children veterans even individuals in rural settings. Cases that enable readers to follow the progress of individuals as they progress through the network of care. The importance of Assertive Community Treatment and housing first models of rehabilitation. Data supporting the importance of Critical Time Intervention particularly with regard to homeless families. Examples of clinical interviewing techniques for engagement and treatment of challenging individuals who are being seen in community settings. Clinician's Guide To Neuropsychological Assessment Rodney D. Vanderploeg, 2014-04-04 Neuropsychological assessment is a difficult and complicated process Often experienced clinicians as well as trainees and students gloss over fundamental problems or fail to consider potential sources of error Since formal test data on the surface appear unambiguous and objective they may fall into the habit of overemphasizing tests and their scores and underemphasizing all the factors that affect the validity reliability and interpretability of test data But interpretation is far from straightforward

and a pragmatic application of assessment results requires attention to a multitude of issues This long awaited updated and greatly expanded second edition of the Clinician s Guide to Neuropsychological Assessment like the first focuses on the clinical practice of neuropsychology Orienting readers to the entire multitude of issues it guides them step by step through evaluation and helps them avoid common misconceptions mistakes and methodological pitfalls It is divided into three sections fundamental elements of the assessment process special issues settings and populations and new approaches and methodologies The authors all of whom are actively engaged in the clinical practice of neuropsychological assessment as well as in teaching and research do an outstanding job of integrating the academic and the practical The Clinician s Guide to Neuropsychological Assessment Second Edition will be welcomed as a text for graduate courses but also as an invaluable hands on handbook for interns postdoctoral fellows and experienced neuropsychologists alike No other book offers its combination of breadth across batteries and approaches depth and practicality
