Assink, 2014-09-25 The role of social context in the various stages of learning to read and write is an important key to understanding literacy and is the chief organizing theme of this book This work presents a comprehensive and up to date overview of the research and theoretical work in the field *Introduction to Teaching: Making Teacher Training Work* Barnaby Lenon, Tracey Smith, 2025-09-26 Barnaby Lenon and Tracey Smith have teamed up to give new teachers a great introduction into training for their career Combining their expertise and years of experience together they explore the basics of teacher training in England how best to prep for training assessment behaviour management subject knowledge and structuring lessons while also covering topics such as trends and measuring success **Participation by 16-19 year olds in education and training** Great Britain: Parliament: House of Commons: Education Committee, 2011-07-19 The Education Committee accepts that changes to student support needed to be made but says that the delay in deciding on allocations and the guiding principles for distribution should not have been allowed to happen The report states that the Government should have done more to acknowledge the Educational Maintenance Allowance s EMA combined impact on participation attainment and retention before it decided how to restructure financial support The bursary scheme which is to replace the EMA will inevitably lead to inconsistencies which could distort young people s choices of where to study It is not persuaded that bursaries administered by schools and colleges will necessarily be fairer or more discriminating than a slimmed down more targeted entitlement such as the EMA The report also highlights the difficulty of transferring data between schools and colleges and encourages the Department for Education to do more to ensure that information about pupils needs can move easily between educational institutions The Committee supports the

Government's focus on Apprenticeships but urges it to protect quality at the same time as increasing numbers participating
It also urges the Department for Education to fund the National Careers Service to provide face to face careers advice for young people
