ihren Zuschauern auf durch die sie als Freunde in manchen Fällen auch als große Geschwister wahrgenommen werden. Doch die Bedeutung von YouTube nimmt nicht nur bei den Jugendlichen zu. Insgesamt haben auch Unternehmen das Potenzial der Videoplattform entdeckt und nutzen die enorme Kaufkraft des Millionenpublikums. Werbung wird vor Videos geschaltet oder ganz bewusst durch Produktplatzierung in die Videos eingebunden. Oft wird nicht einmal erwähnt, dass der YouTuber für die Präsentation eines Produktes in seinem Video ein Honorar oder Sachgeschenke erhalten hat. Das macht es gerade für Kinder und Jugendliche schwer zu unterscheiden, was echt und was Werbung ist. *Facebook Nation* Newton Lee, 2014-10-16

Facebook's psychological experiments and Edward Snowden's NSA leaks epitomize a world of increasing information awareness in the social media ecosystem. With over a billion monthly active users, Facebook as a nation is overtaking China as the largest country in the world. President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook. U.S. Chief Information Officer Steven VanRoekel opines that America has become a Facebook nation that demands increased transparency and interactivity from the federal government. Ubiquitous social networks such as Facebook, Google, Twitter, and YouTube are creating the technologies, infrastructures, and big data necessary for Total Information Awareness, a controversial surveillance program proposed by DARPA after the 9/11 attacks. NSA's secret PRISM program has reinvigorated WikiLeaks founder Julian Assange's accusation that Facebook is the most appalling spying machine that has ever been invented. Facebook CEO Mark Zuckerberg once said, "We exist at the intersection of technology and social issues." This book offers discourse and practical advice on the privacy issue in the age of big data, business intelligence in social media, e-government, and e-activism, as well as personal total information awareness. This expanded edition also includes insights from Wikipedian Emily Temple Wood and Facebook ROI experts Dennis Yu and Alex Hough.

"Crush on Obama." A Case Study on the Impact of YouTube-Videos on Political Campaigning Anna Poppen, 2014-06-06

Seminar paper from the year 2011 in the subject Didactics for the subject English Applied Geography, grade 1.0, Carl von Ossietzky University of Oldenburg, language English, abstract: The video sharing website YouTube has become a phenomenon that is part of an increasing number of people's lives and also a part of the usual presidential rhetoric. Before the launch of YouTube in 2005, the enormous effects of this online phenomenon on all aspects of society could hardly be foreseen. In 2011, however, it is obvious that YouTube and other online media affect every day life, including political decision making, in many ways. The 2004 US presidential election is often referred to as the first internet election, as the candidates Howard Dean, in particular, started to use blogs and websites to raise money and convince voters online. Zielmann R. 2009: 77. By 2008, the internet had become even more diverse and complex and offered a lot of new online functions like social networking sites Facebook and video sharing sites YouTube. These new opportunities were used by most of the candidates in the 2008 presidential election. The later US President Barack Obama, as well as his internal opponent Hillary Clinton, made use of the internet to spread their political messages and address especially the younger voters. A study that

was conducted by the Pew Internet American Life Project during the 2008 election campaign proved that 40% of all adults accessed information about politics on the internet It also showed that viewers of politically relevant YouTube videos had become a key part of at least some campaign events Rainie Smith 2008 In 2008 the online world was not new to most people but it was used as a major propaganda tool by most politicians and their campaign teams for the first time In the Democratic primary elections several candidates did not announce their candidacy in the traditional press but online On July 23 2007 the first ever political debate took place on YouTube
