Johnson, 2018-01-03 Even as the television industry experiences significant transformation and disruption in the face of streaming and online delivery the television channel itself persists If anything the television channel landscape has become more complex to navigate as viewers can now choose between broadcast cable streaming and premium services across a host of different platforms and devices *From Networks to Netflix* provides an authoritative answer to that navigational need helping students instructors and scholars understand these industrial changes through the lens of the channel Through examination of emerging services like Hulu and Amazon Prime Video investigation of YouTube channels and cable outlets like Freeform and Comedy Central and critiques of broadcast giants like ABC and PBS this book offers a concrete tangible means of exploring the foundations of a changing industry *Global Meets Digital* Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time *Global Meets Digital* captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C

and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School s Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India s 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta

Not for Free Saul J. Berman, 2011-02-17 Business model disruption affects not just entertainment media and retail companies but many other industries where supply chains production lines distribution channels and the products and services themselves are becoming more digital In INFORMATION RULES Hal Varian and Carl Shapiro discussed how traditional sources of revenues were being threatened as new ventures entered the market offering new business models innovating partnership approaches and changing the integral nature of the value chain This book moves beyond predictions of academics and maps out the practices that work Berman helps readers to analyze and distill their new revenue generating opportunities into the action plans lacking in most existing books By closely examining how the best companies are exploiting new revenue models Berman suggests seven key components of new strategy execution Discussing new products market segments pricing strategies indirect revenue streams through networked communities and other models this book provides lessons for Monday morning as well as a look at the bigger picture of how revenue innovation informs larger business model innovation and longer term corporate strategy
