How the online presence of a tourist destination affects the country brand. The Case of Lithuania Viktorija Širvinskytė, 2016-09-28 Master's Thesis from the year 2016 in the subject Tourism Miscellaneous grade 1.3 Stralsund University of Applied Sciences Faculty of Business Studies course Tourism Development Strategies language English

abstract This thesis is aimed to test a hypothesis of the country brand's reliance on the online presence. The created evaluation model used in the primary research of this paper determines whether there is enough evidence in the data gathered to indicate that the online presence of a tourist destination corresponds to its country brand's rank. The research is focused on the online presence of Lithuania as a weak ranking country brand. The online presence results of Lithuania as a tourist destination are compared to the examples of two stronger country brands. The conclusions derived from the comparison of the results determine the success of the online presence of Lithuania. Establish whether the hypothesis of the thesis is true or not while noting the limitations and possible errors of the research and provide the suggestions for the country brand and online presence improvements.

Blank Space W. David Marx, 2025-11-18 An NPR Most Anticipated Book of Fall 2025 A revealing exploration of a quarter century of cultural stagnation examining the commercial and technological forces that have come to dominate contemporary culture from music and fashion to art film TV and beyond. Over the past twenty five years pop culture has suffered from a perplexing lack of reinvention. We've entered a cultural blank space an era when reboots rehashes and fads flourish while bold artistic experimentation struggles to gain recognition. Why is risk no longer rewarded and how did playing it safe become the formula for success. Acclaimed cultural historian W. David Marx sets out to uncover the answers. In this ambitious cultural history Marx guides us through the blur of the twenty first century so far from the Obama era to the rise of K-pop from Paris Hilton to the Marvel cinematic universe from Beyoncé and Taylor Swift to Beyoncé and Taylor Swift whose enduring influence highlights both their adaptability and the broader shifts in pop culture. Combining sociological economic and political insights with a deep dive into art street culture fashion and technology Blank Space dissects the rise of profit driven formulaic trends and the shifting cultural norms that often prioritize going viral over innovation. He reveals how backlash against indie snobbery and nineties counterculture gave rise to a counter counterculture one marked by antiliberal sentiment the celebration of business heroes and the increasing influence of industry plants and the elite class. In a world of crypto bros nepo babies and AI driven art Marx offers readers a much needed dose of clarity and context. Vibrantly narrated and sharply argued Blank Space is an essential guide for anyone looking to understand the chaos of the twenty first century the trends tastemakers and icons who shaped it and how we might push our culture forward over

the next quarter century through renewed emphasis on creativity community and the values that transcend mere profit
