Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson,2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you ve ever kept your leftovers from dinner to take with you for lunch then you ve already meal prepped Granted though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like keeping your lunches for the week all at once instead of keeping your lunch for the week You can use this same technique for breakfast lunch dinner and snacks Meal prepping not only saves time and reduces waste and reduces the time to get outside your home whether the plan is a diet or a budget When keeping your meal plan for a week the question is how long will you be able to eat the same meals without having to do it every day Meal prepping is not for everyone It is good for those who value convenience and for those who have more time With meal prepping you can eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping is not for you If having more control over what you eat maximizing your time your budget is more valuable than saving something different every day meal prepping is not for you Generally not seen as meal prep for those who are busy or maybe one other person due to a whole lot of factors Meal prep for a whole family would be quite difficult but the more people the more it would be a challenge if food is stored in the refrigerator for a long time In addition to the way food is packed the individual nuances of your refrigerator can impact the quality of your refrigerated meal So find the length of time that is acceptable for the food's texture and flavor will be a big factor Always begin with the refrigerator's guidelines to be the FDA and then evaluate them against your own preferences In general I don't think it's more than a few days worth of time but I find that better than the food you would eat if you didn't meal prep
