Dance in US Popular Culture Jennifer Atkins, 2023-07-21 This innovative textbook applies basic dance history and theory to contemporary popular culture examples in order to examine our own ways of moving in and through culture. By drawing on material relevant to students, *Dance in US Popular Culture* successfully introduces students to critical thinking around the most personal of terrain: our bodies and our identities. The book asks readers to think about what embodied knowledge we carry with us and how we can understand history and society through that lens: what stereotypes and accompanying expectations are embedded in performance related to gender and/or race; for instance, how such expectations are reinforced, negotiated, challenged, embraced, or rescripted by performers and audiences; how readers articulate their own sense of complex identity within the constantly shifting landscape of popular culture; how this shapes an active sense of their everyday lives; and how this can act as a springboard towards dismantling systems of oppression. Through readings, questions, movement analyses, and assignment prompts that take students from computer to nightclub and beyond, *Dance in US Popular Culture* readers develop their own cultural sense of dance and the moving body's sociopolitical importance while also determining how dance is fundamentally applicable to their own identity. This is the ideal textbook for high school and undergraduate students of dance and dance studies in BA and BFA courses as well as those studying popular culture from interdisciplinary perspectives including cultural studies, media studies, communication studies, theater, and performance studies. Viral World Long T. Bui, 2024-06-07 This book argues that the catastrophe of COVID-19 provided a momentous time for groups, institutions, and states to reassess their worldviews and relationship to the entire world. Following multiple case studies across dozens of countries throughout the course of the pandemic, this book is a timely contribution to cultural knowledge about the pandemic and the viral politics at the heart of it. Mapping the various forms of global consciousness and connectivity engendered by the crisis, the book offers the framework of viral worlding defined as viral forms of relationality becoming and communication. It demonstrates how worlding or world-making processes accelerated with the novel coronavirus. New emergent forms of being global went viral to address conditions of inequality as well as forge possibilities for societal transformation. Considering the tumult wrought by the pandemic, Bui analyzes progressive movements for democracy, abolition, feminism, environmentalism, and socialism against the world-shattering forces of capitalism, authoritarianism, racism, and militarism. Focusing on ways the pandemic disproportionately impacted marginalized communities, particularly in the Global South, this book juxtaposes the closing of their lifeworlds and social worlds by hegemonic global actors with increased collective demands for freedom, mobility, and justice by vulnerable people. The breadth and depth of the book thus provides students, scholars, and general readers with

critical insights to understanding the world's of COVID 19 and collective efforts to build better new ones *The Economics of the Popular Music Industry* Christie Byun, 2024-04-29 This book uses economic theory to explain how consumers and producers have responded to major changes in the music industry Byun examines the important role of technology in changing its structure particularly as new methods of creating and accessing music prove to be a double edged sword for creators and producers This second edition includes new information about concert attendance and live performance in the COVID era and what followed as well as the resultant economic impacts on the industry Throughout the book Byun questions how the business of music affects creativity and the extent to which this impacts the creative output of the individual artist Chapters also address copyright enforcement and online piracy This is an approachable resource for economists interested in the music industry as well as business and music majors studying the ways in which technology can impact a creative process

Fast Politics Laura Pérez Rastrilla, Pablo Sapag M., Armando Recio García, 2023-10-17 The goal of this book is to show the role of TikTok as a tool for political purposes To this end the authors analyse the messages posted on this social medium by political figures and institutions such as politicians and

political parties their impact on political landscapes as well as the transformation of political communication techniques in order to suit the platform's features. In the last two years the exponential growth of TikTok has led an increasing number of politicians and institutions to incorporate it into their communication strategies. The platform displays some very different features from other social media that determine the way in which the content is presented. In addition, it manages to reach an audience that normally does not access or share political messages. Within this context, the volume pursues two main objectives. First, to examine how the communication techniques and the peculiarities of this social medium where short videos with actors in informal attitudes prevail affect the political message. A second objective is to analyse the influence of the messages distributed through TikTok that redefine political scenarios and of the relationships of politicians and parties with voters. The core of the book comprises case studies that are organised into three parts with nine chapters in all. The authors are scholars and practitioners of political communication with diverse geographical representation who approach the topics from a range of methodological perspectives. The first part addresses the state of the art and the influence of TikTok features on the way political communication is performed. The second part discusses the influence of TikTok on electoral scenarios and political culture in India, Bangladesh, the United States and Ecuador. Finally, in the third part, TikTok is analysed as an instrument for promoting far right politicians and parties in Europe as in the case of Matteo Salvini in Italy and AfD in Germany and Vox in Spain. The volume is oriented to both scholars and communication professionals such as journalists, communication consultants and speechwriters who want to become familiar with the platform, learn about its political impact or wish to deepen their understanding of transformations in communication techniques and their adaptation to this growing social medium.

Lindsay Maple, 2025-06-17 We want to wrap this book up with a bow and leave it under everyone's tree this year. Lindsay Maple delivers a confection of holiday charm, small town quirk, tenderly sketched characters and scorching heat. Julie Murphy and Sierra Simone, USA TODAY bestselling authors of *A Merry Little Meet Cute*, it's the hottest Christmas on record. Like naughty and nice, Mariah and Ellie are complete opposites. Small time actress Ellie is thrilled to be back on set of a cozy holiday film while makeup artist Mariah only views the low budget project as a stepping stone on her way to more serious movies. The pair definitely don't hit it off when they're introduced, but if they want to survive the summer heat and Mariah's stifling Canadian hometown, they've got to keep it professional. Luckily, holiday cheer is Ellie's specialty and she's determined to win. Stubborn Mariah over Mariah finds one bright spot in her forced second Christmas: hot hookups with an edgy local bartender. The romance even has her opening up to Ellie who admits to crushing on her wholesome cottage rental host. But when Ellie and Mariah realize the guys are cheating on them, they band together to get revenge. It's fun planning their own *Home Alone* inspired pranks until Ellie and Mariah realize they're actually falling for each other. But the film shoot is too

short to get serious so they ll have to decide Was their romance simply a holiday fling or a real Christmas in July miracle Full of hilarious hijinks and tenderness in equal measure this holiday romance had me flipping the pages late into the cozy night Come for the revenge stay for the true love Ashley Herring Blake USA TODAY Bestselling Author of Delilah Green Doesn t Care

Connected Histories Eva Pfanzelter,Dirk Rupnow,Éva Kovács,Marianne Windsperger,2024-09-23 The World Wide Web WWW and digitisation have become important sites and tools for the history of the Holocaust and its commemoration Today some memory institutions use the Internet at a high professional level as a venue for self presentation and as a forum for the discussion of Holocaust related topics for potentially international transcultural and interdisciplinary user groups At the same time it is not always the established institutions that utilise the technical possibilities and potential of the Internet to the maximum Creative and sometimes controversial new forms of storytelling of the Holocaust or more traditional ways of remembering the genocide presented in a new way with digital media often come from people or groups who are not in the realm of influence of the large memorial sites museums and archives Such private stagings have experienced a particular upswing since the boom of social media This democratisation of Holocaust memory and history is crucial though it is as yet undecided how much it will ultimately reinforce old structures and cultural regional or other inequalities or reinvent them The Digital space as an arbitrary and limitless archive for the mediation of the Holocaust spanning from Russia to Brazil is at the centre of the essays collected in this volume This space is also considered as a forum for negotiation a meeting place and a battleground for generations and stories and as such offers the opportunity to reconsider the transgenerational transmission of trauma family histories and communication Here it becomes evident there are new societal intentions and decision making structures that exceed the capabilities of traditional

mass media and thrive on the participation of a broad public

Chinese Encounters with America Deborah Davis, Terry Lautz, 2025-05-27 Chinese Encounters with America tells the stories of twelve women and men whose American experiences transformed their lives and

influenced China's trajectory with a particular focus on the period after Beijing and Washington established full diplomatic relations in 1979. Each chapter recounts how these Chinese citizens interpreted America and adapted their understanding to bolster China's quest for modernization. Their professions range from diplomacy, business, and science to sports, education, and the arts, but their distinctive stories are united by shared questions: Why did they go to the United States and why did they return to China? What difference did their encounters with America make in their lives and careers? What do their experiences tell us about the complexities of Sino-American interactions? At a time when US-China relations are contentious, this book challenges the idea that American and Chinese interests and values are incompatible. It shows that personal encounters have been instrumental in finding common ground even when there are differences and disagreements. Through vivid and engaging profiles, **Chinese Encounters with America** offers a fresh, nuanced understanding of the world's most pivotal relationship.

Gender Madness Oli London, 2023-08-15 How one man's struggles with self-identity and detransition lay challenge to the very foundation of the gender ideology movement. While documenting his own personal identity struggles with gender and self-identity, British K-Pop singer Oli London explores the root cause of the issue of trans ideology and gender identity, tackling the pressures of social media, the education system, media, and other factors that are pushing a growing number of young people into transitioning. He takes a close look at real-world examples and examines laws, research, and data to help lift the lid on the multibillion-dollar gender-affirming care industry. **Gender Madness** gives an intimate look into what led Oli London to want to become a Korean woman and how he overcame his battle to become an advocate for the millions of young people who question their own identity. He recently publicly announced he had detransitioned and is living as a male again and has since become an outspoken activist for children and women's rights, appearing regularly on numerous news networks including Fox News, Newsmax, OAN, EWTN, Piers Morgan Uncensored, Tucker Carlson Tonight, and Talk TV to campaign against gender-affirming surgery in teenagers. This book shares his deeply personal life journey and his important message to others, all while encouraging readers to question the current societal trends and challenge their own way of thinking.

Current Trends in Caucasian, East European, and Inner Asian Linguistics Howard Isaac Aronson, Dee Ann Holisky, Kevin Tuite, 2003 This volume is a collection of seventeen papers on languages of all three indigenous Caucasian families as well as other languages spoken in the territory of the former Soviet Union. Several papers are concerned with diachronic questions, either within individual families or at deeper time depths. Some authors utilize their field data to address problems of general linguistic interest, such as reflexivization. A number of papers look at the evidence for contact-induced change in multilingual areas. Some of the most exciting contributions to the collection represent significant advances in the reconstruction of the prehistory of such understudied language families as Northeast Caucasian, Tungusic, and the baffling isolate Ket. This book will be of interest not only to specialists in the indigenous languages of the former USSR but also to historical and synchronic linguists seeking to familiarize themselves with the fascinating

typologically diverse languages from the interior of the Eurasian continent Dee Ann Holisky is Professor of English and Linguistics and Associate Dean for Academic Programs of the College of Arts Montreal Editions Fides 2003
