The Best Business Writing 2012 Dean Starkman, Martha M. Hamilton, Ryan Chittum, Felix Salmon, 2012-06-19 An anthology Malcolm Gladwell has called riveting and indispensable *The Best Business Writing* is a far ranging survey of business's dynamic relationship with politics culture and life This year's selections include John Markoff New York Times on innovations in robot technology and the decline of the factory worker Evgeny Morozov New Republic on the questionable value of the popular TED conference series and the idea industry behind it Paul Kiel ProPublica on the ripple effects of the ongoing foreclosure crisis and the infamous op ed by Greg Smith published in the New York Times announcing his break with Goldman Sachs over its trading practices and corrupt corporate ethos Jessica Pressler New York delves into the personal and professional rivalry between former spouses and fashion competitors Tory and Christopher Burch Peter Whoriskey Washington Post exposes the human cost of promoting pharmaceuticals for off label uses Charles DuHigg and David Barboza New York Times investigate Apple's unethical labor practices in China Max Abelson Bloomberg reports on Wall Street's amusing reaction to the diminishing annual bonus Mina Kimes Fortune recounts the grisly story of a company's illegal testing and misuse of a medical device for profit and Jeff Tietz Rolling Stone composes one of the most poignant and comprehensive portraits of the financial crisis's dissolution of the American middle class

Fair Not Flat Edward J. McCaffery, 2008-09-15 Everyone knows that the current tax system is unfair Some of the richest people in America pay no tax while a huge share of the tax burden falls on the rest of us A mere glance at the tax code confirms that it is far too complex with volumes of rules that no ordinary person could possibly comprehend What is to be done Some conservatives have called for a so called flat tax But a flat tax is not necessarily a simple tax and flat means more for most taxpayers a rise in middle class taxes to finance tax cuts for the rich Is there another choice In clear easy to understand language Edward J McCaffery proposes a straightforward and fair alternative A fair not flat tax that is consistent and progressive would tax spending not income and savings And if it were collected at its lower levels through a national sales tax most people would not have to file a return A supplemental tax on spending for the wealthiest individuals would make the national sales tax progressive Under McCaffery's system a family of four would pay no tax on their first 20 000 in spending and 15 percent on the next 60 000 Only the few families who spend more than 80 000 a year would be subject to the supplemental tax Necessities would be taxed less than ordinary and luxury items No one would be taxed directly on savings The estate and gift or so called death tax would be abolished for the simple reason that dead people don't spend The fair not flat tax would fall on heirs when and as they spend their good fortune Perhaps best of all most Americans would not have to fill out tax returns Simpler more efficient fairer and more reflective of America's current social values McCaffery's fair not flat tax could help get us out of the tax mess that politicians and special interests have gotten us into improving the whole country in the process Read *Fair Not Flat* to find out how In *Fair Not Flat* Mr McCaffery lays out the case for a consumption tax He does so in a reader friendly way presenting his

argument with very few footnotes equations or technical terms The consumption of the book so to speak is not at all taxing And its argument is well worth pondering Bruce Bartlett Wall Street Journal **Assets and the Poor** Michael Sherraden,2016-09-16 This work proposes a new approach to welfare a social policy that goes beyond simple income maintenance to foster individual initiative and self sufficiency It argues for an asset based policy that would create a system of saving incentives through individual development accounts IDAs for specific purposes such as college education homeownership self employment and retirement security In this way low income Americans could gain the same opportunities that middle and upper income citizens have to plan ahead set aside savings and invest in a more secure future

The Great War and the Transformation of Habsburg Central Europe Pieter M. Judson,Tara Zahra,2025-08-28 The world's eyes were on Austria Hungary on June 28 1914 But both inside and outside of Austria few could imagine the dramatic consequences of the events in Sarajevo The popular shock and anger that greeted the assassination did not mean war was a likely or necessary outcome or moreover that the Monarchy itself was destined to disintegrate *The Great War and the Transformation of Habsburg Central Europe* examines how the First World War transformed the multinational Austro-Hungarian Monarchy into a fractured landscape of mistrust scarcity and dissolution and laid the foundation for the new postwar world The outcome of the war is not it argues evidence of the inherent fragility of multinational polities and Austria Hungary was not inevitably doomed to collapse on the eve of the war Instead it contends that the Habsburg state laid the groundwork for its own dissolution by turning on its citizens By imposing military rule suspending civil rights fostering suspicions among its citizens based on the languages they spoke and failing to secure enough food to feed the population the Habsburg state both created new and exacerbated existing regional local religious and national antagonisms Over time severe hardships on the home front in occupied territories and in refugee and prisoner of war camps spurred widespread resentment and eroded loyalty to the monarchy But even as the empire frayed the war inspired innovative institutions social welfare measures and new understandings of citizenship that continued to influence postwar Europe By analyzing these experiences at multiple scales local imperial and international award winning historians Pieter Judson and Tara Zahra here reframe the history of the late Habsburg Monarchy Taking a deliberately broad chronology they demonstrate that the war can no longer be treated as a mere postscript to Austria Hungary's biography Instead the war was a constitutive factor in the Empire's dissolution in the domestic relations that structured society in the successor states and in the birth of the new world order institutionalized by the Paris Peace Conferences Both the experience and outcome of the First World War in the Habsburg Monarchy held implications that extended far beyond its borders and beyond the lives of its forty-eight million citizens Congressional Record United States.
