By the time my wife Susan and I opened our own restaurant and bakery in 1986 I weighed 155 pounds and had become stocky. When we sold the business seven years later I was up to 165 pounds and would have been heavier were it not for the daily physically intense work of baking thousands of loaves of bread which helped me burn off a lot of calories. As soon as I stepped out of daily production and transitioned into teaching at culinary schools and writing books I started gaining more weight and quickly. The accumulated effects of tasting glorious white flour breads of all types along with access to the handiwork of fabulous chefs and restaurants to which I lost all ability to say no caused my weight to balloon to over 200 pounds. Searching for the perfect pizza as I researched my book *American Pie* didn't help either but I sure was having fun. Fortunately I never stopped working out so even though I was to put it bluntly fat it was firm fat marbled with muscle. Nonetheless it was cause for concern especially that most pernicious of fats belly fat. So recently with Susan's encouragement I decided it was time to get serious about losing weight. I had already met Denene Wallace a few years earlier at a private tasting of some of her gluten free products and was impressed with how good they were. Gluten sensitivity is a subject I had been tracking since 1991 shortly after my first book *Brother Juniper's Bread Book* came out. Around that time Loree Starr Brown who had been a regular customer at Brother Juniper's Bakery came in one day with a box of homemade breads and muffins based on the recipes in my book but all made with rice flour instead of wheat flour. They were delicious. Loree proceeded to educate me about celiac disease a medical condition that nearly killed her before it was finally diagnosed and treated by removing all traces of gluten from her diet.
