Resume Template 2025 Returns:

The Returned Claudia Masferrer, Erin R. Hamilton, Nicole Denier, 2024-03-21 In the first two decades of the 21st century more than two million Mexican migrants returned to Mexico from the United States Between 2010 and 2020 the number of people who returned to Mexico was so large that for the first time in at least fifty years more people entered Mexico from the United States than entered the United States from Mexico Many of these migrants were destined for urban areas and we know little about how they fare after they return to cities In *The Returned* sociologists Claudia Masferrer Erin R Hamilton and Nicole Denier examine the experiences of returned migrants in Mexico City one of the largest metropolitan areas in the world Masferrer Hamilton and Denier draw on interviews with former U S migrants living in Mexico City to better understand the experience of return migration to urban areas Each of the migrants they spoke with lived in the United States for long periods with noncitizen status during the last four decades During this time U S immigration policy became increasingly focused on restriction and enforcement which made it difficult for migrants to safely move back and forth across the border for work or to visit family without documentation The authors find that upon their return migrants in Mexico City felt disoriented and lost and had difficulty adapting to a massive urban environment where there is little support for returnees They struggled to translate their work experience from their time in the U S to find quality jobs Additionally many found their family lives upended as they reunited with or formed families in the U S Some found themselves separated from family members still in the U S with no ability to legally visit them Others brought their families back to Mexico some of whom were U S citizens and had never been to Mexico before They too struggled to adapt and integrate to life in Mexico City The authors use the experiences of return migrants to discuss policies and practices that would improve their lives and ease their reintegration To help with the disorientation they experience returnees proposed ongoing psychological support with mental health professionals who have knowledge and training in the social and legal issues that return migrants face Return migrants also advocated for policies to enhance skill matching job creation and entrepreneurship as many felt the occupational skills they developed in the U S were undervalued in Mexico To address family separation returnees argued for legal and policy reform to accommodate family reunification *The Returned* is an illuminating account of the difficulties faced by return migrants and their families in Mexico City *Correcting Erroneous Information Returns, Form #04.001*
