The Goat Strategy

Peter Radley, 2025-08-16 There's that moment when an email lands in your inbox and the subject line alone tells you someone is after your money your time and your patience Most people would hit delete Peter Radley however replied To every single one This is how The Goat Strategy was born a satirical literary and at times brutally honest collection of exchanges from the shadowy world of book marketing Unexpected punchlines replies written in the styles of classic authors including Oscar Wilde Mark Twain Franz Kafka Gabriel Garcia Marquez and Ernest Hemingway And an author who dissects his own profession with surgical precision while making sure the goats get their share of the spotlight If I'd known what would come out of that very first reply I'd have written it much sooner Kate Marlowe editor This book is both humorous and revealing a funhouse mirror for anyone who's ever believed the big promises and a lifeline for those who still believe in literature

Decision and Decision-maker in an Industrial Environment Lamia Berrah, Vincent Clivillé, 2023-08-29 Decision and Decision maker in an Industrial Environment developed around the observation that two different decision makers faced with the same problem may not make the same decision The book proposes explanations for this ranging from the wholly rational to the irrational and analyzes different factors in decision making such as the intention of the decision maker the environment in which their decision is made or the process leading to decision making While the common belief is that everything in an industrial environment stems from reasoned decisions analysis of common practice shows that this is not always the case This book offers an original perspective by presenting the decision making mechanism from the point of view of the decision maker and their handling of a specific decision making problem To learn more about the decision maker's motivations when faced with these situations the authors provide a review of the history of decision making and the major trends in decision making theory The concepts and methods are presented with illustrations based on the use of an MES an industrial management software package

The Model of Everything Ralph Brown, 2021-01-06 When humanity questions the purpose of existence they often turn to science or religion for answers Unfortunately both science and religion contain inconsistencies These inconsistencies touch the human spirit in the most profound ways resulting in an uneasiness about life Do I really have a purpose Seeking to address the spiritual unease the history of humanity documents the development and pursuit of religion with a concept of a divine creator with a plan for humanity However in more recent history with an increasing emphasis on scientific knowledge the concept of a divine creator is increasingly discounted as inconsistent with the material world revealed by scientific discovery Via the scientific method humanity is turning its focus to the material world creating new gods of science and the purveyors of scientific knowledge But rather than provide definitive answers as science continues to advance the theories of creation point increasingly to inconclusive and inconsistent results These shortcomings of science are often veiled in the expression Someday we will know but many in the scientific community are beginning to question that hope With science and religion each plagued with inconsistency perhaps appropriately integrating them will lead us to the real answers we seek The Model of Everything A Divine Universe relies on both scientific and biblical knowledge to fully integrate science and religion in a consistent complementary and interdependent fashion This confluence and synergy of knowledge reveal a comprehensive model that accounts for the totality of human existence the physical and spiritual The reader via personal and straightforward experiments participates in developing the model Biblical knowledge is the pointer for a unique application of scientific knowledge Then the incredible and sometimes bizarre world of science reveals how God teaches us about our existence and spirituality The integration of scientific and biblical knowledge results in several new mental constructs providing an account for the totality of creation the material and immaterial and a genuine hope and understanding of personal existence The model presents some eye popping implications and applications as well as predictions on future scientific progress and outcomes Each reader is invited and encouraged to become a scientist a scientist prepared to chart a life changing personal discovery *How to Successfully Self-Publish & Promote Your Independent Book* Aaron
