through three generations of family intrigue embezzlement bribery corruption prostitution and other bad behavior The Wall Street Journal LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD Based on years of reporting on Samsung for The Economist The Wall Street Journal and Time from his base in South Korea and his countless sources inside and outside the company Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows Seen for decades in tech circles as a fast follower rather than an innovation leader Samsung today has grown to become a market leader in the United States and around the globe They have captured one quarter of the smartphone market and have been pushing the envelope on every front Forty years ago Samsung was a rickety Korean agricultural conglomerate that produced sugar paper and fertilizer located in a backward country with a third world economy With the rise of the PC revolution though Chairman Lee Byung chul began a bold experiment to make Samsung a major supplier of computer chips The multimillion dollar plan was incredibly risky But Lee wowed by a young Steve Jobs who sat down with the chairman to offer his advice became obsessed with creating a tech empire And in Samsung Rising we follow Samsung behind the scenes as the company fights its way to the top of tech It is one of Apple s chief suppliers of technology critical to the iPhone and its own Galaxy phone outsells the iPhone Today Samsung employs over 300 000 people compared to Apple s 80 000 and Google s 48 000 The company s revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea s exports Yet their disastrous recall of the Galaxy Note 7 with numerous reports of phones spontaneously bursting into flames reveals the dangers of the company s headlong attempt to overtake Apple at any cost A sweeping insider account Samsung Rising shows how a determined and fearless Asian competitor has become a force to be reckoned with

Android Mobile Computing Using Samsung Tablets and Smartphones Running Android 2.3 René Djurup, 2013 An Android smartphone or tablet makes it possible for you to stay online and do your offices and business work wherever you are going With Android you can do almost any computing task you can imagine There are more than 400 000 Android applications apps to choose from The majority of the apps are games and leisure programs However today there are also apps for practically any type of office work and business tasks that you can imagine Many office tasks which until recently could only be performed using a powerful PC or laptop can today easily be done using an Android tablet or smartphone There are several excellent Android apps for word processing and spreadsheet calculations so that these and many other types of office work easily can be done on handheld Android device This has led to a new way of working which is often called mobile computing There are many excellent brands of Android tablets and smartphones on the market Samsung is today seen as the leading manufacturer of Android smartphones and tablets In 2010 Samsung launched the Galaxy Tab 7 1 tablet The Galaxy Tab 7 1 quickly became highly popular and a benchmark for other Android tablets Later more powerful and larger Galaxy tabs have been marketed including the Galaxy Tab 7 7 8 9 and 10 1 This book focuses on the Galaxy Tab 7 1 You will benefit most from the book if you have a Samsung Galaxy Tab 7 1 If you own another tablet or smartphone running on Android 2 2 Froyo or 2 3 Gingerbread you will also benefit from reading the book as the different brands of Android 2 2 3 tablets and smartphones work much in the same way The Samsung Galaxy Tab 7 1 tablet is ideal for Android mobile office computing due to its excellent communication capabilities and size It has highly effective and versatile built in chipsets and tools for mobile cellular data communication Wi Fi network connections and Bluetooth communication In addition its GPS antenna and tools make accurate location determination and navigation possible It fits easily into any briefcase and even into a large pocket making it very easy carry around The main challenge of mobile computing is possibly to get online in different situations in a way that is inexpensive secure and effective While both mobile cellular broadband and public Wi Fi networks are rapidly being expanded and improved it may still now and then be difficult or expensive to connect when you are outside

your carrier's coverage If you can find a fast and inexpensive connection it may not be secure In this book you get the needed technical background to make it easier for you to get online in an affordable and secure way wherever you are You get detailed information about mobile computing using mobile broadband cellular networks and Wi-Fi connections You are introduced to the mobile connection standards 2G 3G and 4G You learn how to set up your Galaxy Tab for different types of mobile communication in your home country and abroad You get detailed instructions on how to use email apps effectively on your Android smartphone and tablet Last you are introduced to some of the most popular and valuable Android apps for office work and other business tasks The Samsung Galaxy Tab 7 1 exists in two different models as regards mobile communication a CDMA EVDO model primarily intended for the US market and a GSM UMTS model primarily intended for the non-US market The book describes both major models

Assessing the adoption of high-iron bean varieties and their impact on iron intakes and other livelihood outcomes in Rwanda: Main survey report Asare-Marfo, Dorene, Herrington, Caitlin, Birachi, Eliud, Birol, Ekin, Cook, Kristy, Diressie, Michael Tedla, Dusenge, Leonidas, Funes, José, Katsvairo, Lister, Katungi, Enid, Labarta, Ricardo, LaRochelle, Catherine, Lividini, Keith, Moursi, Mourad, Mulambu, Joseph, Murekezi, Abdoul, Musoni, Augustine, Nkundimana, Jean d'Amour, Vaiknoras, Kate, Zeller, Manfred, 2017-02-10 An impact assessment IA study was conducted in Season B 2015/2 to establish the reach of high iron bean HIB varieties to Rwandan bean farmers since these varieties were released in 2010 and to understand the adoption and diffusion patterns that have occurred so far The IA was carried out in two parts The first part was a listing survey which was conducted at the beginning of Season B 2015 during the planting period A total of 19 575 households were enlisted in 120 randomly selected villages throughout the country and 93 percent of those households were bean producing households The listing exercise revealed that 28 percent of bean farmers had grown at least one HIB variety in at least one season since 2010 the equivalent of approximately half a million households In Season B 2015 20 percent of bean farmers were reported to be growing an HIB the equivalent of approximately 350 000 households Detailed results of the listing exercise are available in a separate report³ The second part of the study was a more detailed household survey which was conducted among a subsample of nearly 1 400 bean farming households immediately after harvest had taken place Both the listing and main household survey are nationally representative of rural bean producing households in Rwanda This report presents key descriptive results from the main survey and sheds light on issues that may be investigated further in forthcoming publications Key takeaways from the report are summarized below

iTake-Over David Arditi, 2014-12-11 iTake Over The Recording Industry in the Digital Era sheds light on the way large corporations appropriate new technologies related to recording and distribution of audio material to maintain their market dominance in a capitalist system All too commonly scholars have asserted too confidently how the rise and reign of digital music has diminished the power of major record labels In iTake Over music scholar David Arditi argues otherwise adopting a broader perspective by examining how the recording industry has strengthened copyright

laws for their corporate ends at the expense of the broader public good which has traditionally depended on the safe harbor of fair use Arditi also challenges the dominant discourse over digital music distribution which has largely adopted the position that the recording industry has a legitimate claim to profitability at the detriment of a shared culture iTake Over more specifically surveys the actual material effects that digital distribution has had on the industry Most notable among these is how major record labels find themselves in a stronger financial position today in the music industry than they were before the launch of Napster Arditi contends that this is largely because of reduced production and distribution costs and the steady gain in digital music sales Moreover instead of merely trying to counteract the phenomenon of digital distribution the RIAA and the major record labels embraced and then altered the distribution system Throughout the 1990s and early 2000s the RIAA lobbied for legislation built technologies and waged war in the courts in order to shape the digital environment for music distribution From mp3s to the Digital Millennium Copyright Act DMCA from the Audio Home Recording Act AHRA to iTunes the major record labels and the RIAA instead of trying to torpedo the switch to digital distribution engineered it to their benefit often at the expense of the public interest Throughout Arditi boldly asserts that the sea change to digital music did not destroy the recording industry Rather it stands as a testament to the recording industry s successful management of this migration to digital production and distribution As such this work should appeal to musicians and music scholars political scientists and sociologists technologists and audio professionals seeking to grasp this remarkable change in music production and consumption

The Turn-On Steven Goldstein, 2019-10-22 How do Tiffany Haddish Tom Hanks Meryl Streep and Apple s Tim Cook turn us on and why do some other public figures drive us crazy and turn us off And who are the behind the scenes gurus who help public figures turn us on or off Steven Goldstein a civil rights leader who has worked in politics business and entertainment breaks down the industry of creating likeability and how public figures manufacture likeability and how they sometimes destroy it through scandals As a television producer Congressional lawyer leader of state and national civil rights organizations and communications advisor to corporate and political leaders Steven Goldstein has been a mover and shaker in every sector of American power He knows what makes public figures likeable Based on his twenty five years of experience and original teachings Goldstein tells us why we like certain people and dislike others in politics business and entertainment Why do we let some into our personal world and refuse to let others enter Goldstein has developed a paradigm that describes how we fall in like reminiscent of falling in love with the public figures who shape our lives And Goldstein names names Why do we like Ellen DeGeneres and Morgan Freeman yet find Gwyneth Paltrow sometimes maddening Why do we like Warren Buffett Microsoft s Satya Nadella and Google s Sundar Pichai aside from their products and profits And apart from our ideology why do some of us like Barack and Michelle Obama and others Donald Trump and what does Ben Franklin have to do with any of it Goldstein identifies eight traits of likeability that every public figure reveals to us in pairs with each pair deepening our relationship with that person The pairs are Captivation and Hope Authenticity and Relatability Protectiveness

and Reliability Perceptiveness and Compassion Goldstein not only tells us how we fall in love with public figures but he also reveals the behind the scenes players in politics business and entertainment who shape who we like Likeability isn't just something you have or you don't Likeability can be manufactured and it can be destroyed Public figures can be their own worst enemies in saying or doing things that turn us off Why do we forgive some but not others The Turn On will make you think twice about a celebrity reinvention a glamorous media appearance or a perfectly crafted speech and will give you tools to take control of your own likeability and become more like your favorite star
