For Facebook disconnection is an intense affective force It is a problem of how to keep users engaged with the platform but also one of keeping value attention and desires within the system Karppi uses Facebook s financial documents as a map to navigate how the platform sees its users Facebook s plans to connect the entire globe through satellites and drones illustrates the material webs woven to keep us connected Karppi analyzes how Facebook s interface limits the opportunity to opt out even continuing to engage users after their physical death Showing how users have fought to take back their digital lives Karppi chronicles responses like Web2 0 Suicide Machine an art project dedicated to committing digital suicide For Karppi understanding social media connectivity comes from unbinding the bonds that stop people from leaving these platforms Disconnection brings us to the limit of user policies algorithmic control and platform politics Ultimately Karppi s focus on the difficulty of disconnection rather than the ease of connection reveals how social media has come to dominate human relations
