collections in related disciplines such as sociology and also points readers beyond media as the primary or only context for understanding the relationship between communication and sport Thus in addition to studies of media effects mediatization media framing and more readers will also engage with studies in interpersonal intercultural organizational and rhetorical communication Second the handbook presents an array of methods theories and topics in the effort to chart a comprehensive landscape of communication and sport scholarship Thus readers will benefit from empirical interpretive and critical work and they will also see studies drawing on varied texts and sites of inquiry Third the handbook of Communication and Sport includes a broad range of scholars from around the world It is therefore neither European nor North American in its primary focus In addition the book includes contributors from commonly under represented regions in Asia Africa and South America Fourth the handbook aims to account for both historical trajectories and contemporary areas of interest In this way it covers the central topics debates and perspectives from the past and also suggests continued and emerging pathways for the future Collectively the handbook of Communication and Sport aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available
