Divine Programming Charlotte E. Howell,2020-03-02 From the mid 90s to the present television drama with religious content has come to reflect the growing cultural divide between white middle America and concentrated urban elites As author Charlotte E Howell argues in this book by 2016 television narratives of white Christianity had become entirely disconnected from the religion they were meant to represent Programming labeled family friendly became a euphemism for white middlebrow America and developing audience niches became increasingly significant to serial dramatic television Utilizing original case studies and interviews *Divine Programming* investigates the development writing producing marketing and positioning of key series including 7th Heaven Friday Night Lights Rectify Supernatural Jane the Virgin Daredevil and Preacher As this book shows there has historically been a deep ambivalence among television production cultures regarding religion and Christianity more specifically It illustrates how middle American television audiences lost significance within the Hollywood television industry and how this in turn has informed and continues to inform television programming on a larger scale In recent years upscale audience niches have aligned with the perceived tastes of affluent educated multicultural and importantly secular elites As a result the televised representation of white Christianity had to be othered and shifted into the unreality of fantastic genres to appeal to niche audiences To examine this effect Howell looks at religious representation through four approaches establishment distancing displacement

and use and looks at series across a variety of genres and outlets in order to provide varied analyses of each theme

Television Show Trends, 2016-2020 Yvonne D. Leach, Nicholas J. Natalicchio, 2023-11-20 What do Euphoria, Normal People, Atlanta, Ramy, Vida, I May Destroy You, Stranger Things, and Lovecraft Country have in common? In the 2016-2020 time period, they were created. These TV shows exemplified one or more of four noteworthy trends: authenticity, diversity, sexual candor, and retrospection. This is the first book to examine live-action fictional television shows produced within a five-year period through the lens of the trends that they epitomize. For each show, the following is discussed: the significance of the platform and the format, the intentions of the creators and showrunners, pertinent background information, similar shows and precedents, the storytelling approach, the cinematic form, and finally, how the show is emblematic of that particular trend. Since trends have the possibility of becoming part of the mainstream, they are important to identify as they emerge, especially for viewers who have a keen interest in narrative television shows.
