Going Online Robert Ubell, 2016-12-08
In *Going Online* one of our most respected online learning leaders offers insights into virtual education: what it is, how it works, where it came from and where it may be headed
Robert Ubell reaches back to the days when distance learning was practiced by mail in correspondence schools and then leads us on a tour behind the screen touching on a wide array of topics along the way including what it takes to teach online and the virtual student experience
You'll learn about how to build a sustainable online program, how to create an active learning online course, why so many faculty resist teaching online, how virtual teamwork enhances digital instruction, how to manage online course ownership, how learning analytics improves online instruction
Ubell says that it is not technology alone but rather unconventional pedagogies supported by technological innovations that truly activate today's classrooms
He argues that innovations introduced online principally peer to peer and collaborative learning offer significantly increased creative learning options across all age groups and educational sectors
This impressive collection drawn from Ubell's decades of experience as a digital education pioneer presents a powerful case for embracing online learning for its transformational potential
