Dimond,2010-09-10 Return of the Light Prince Dear reader This novel contains some of the most profound and provocative ideas about a subject that many of us have already formed an opinion on This in itself is the reason why this novel was kept by me for some time in an unpublished state and yet I remained unsure what to do or the next step to take Id like to quickly explain the quandary I am experiencing but to understand you need to keep asking why and never stop Some questions of a factual nature could be Why does the planet Earth travel on an orbital path at about eighteen and a half miles per second or why does Mercury complete an orbit around our Sun in eighty eight days Yes it is true the answer to these questions above can partly be found in physics but this is clearly a statement of the obvious without any explanation as to why However the most immediate responses can be found from those whose mindset sits mainly in one of three camps That is the acceptance of creationism evolutionary theory or a growing body of pragmatists who believe in their mind of doubts that there maybe another equally more plausible answer Writing this book was not easy The harder part though is breaking through the mindset of hundreds of years of work and research including the special work completed by the naturalist Darwin There is no shortage of support for a range of advocates of religious history and equally for the continuing and developing theory of evolution and herein lies the problem This book does raise and explain another equally plausible reason We will all go home tonight to the rest of our lives But consider this have you ever had an experience so confronting in nature so rich in ideas that you have felt compelled to stop and listen and be measured by its effect This for me has been the most exciting life

experience of my time The real impact of this work will break through via the medium of moving images rather than just the mere words in the book I have written The reasons for this are the obvious ones The mass audience this work lends itself to will rationalize more on what they have seen given that most of us have a depth of interests that try to keep up with issues on a day to day basis I hope you enjoy reading this work as much as I had the enjoyment in writing it Howard Dimond Author
