**Teaching a Child to Read and Write Well** Aunty Alice, 2014-04 In spite of the wide range of resources and innovative teaching methods schools have had and are using many students still fail to acquire literacy Many have specific problems with word and letter symbols They reverse and invert them their hearing cannot discriminate fine differences in letter sounds or they do not perceive patterns easily for their brain to make connections Their visual and auditory memory may fail them or their culture may use language that does not align with the standard accepted forms in the text These children are disadvantaged because their brains work differently and they think and respond differently This book embraces a different metaphor for teaching literacy that does not compartmentalize the curriculum into separate areas such as spelling reading writing listening speaking and presenting Instead the focus is on assessing their written language as a place to start in planning for success An unassisted sample of a learner s writing could

be said to be an example of what they understand of literacy whether it be a scribble at three or an essay at twelve I have proved conclusively that if teacher and student work collaboratively on improving their writing using their reading as a model their reading ability rises naturally This customized and individualized teaching method enables authentic teacher student interactions This not only allows the teacher to closely tailor their teaching to each student s unique learning needs but it also brings the student on board in assessing their progress Teaching a Child to Read and Write Well will clear a path towards mastering literacy that can engage all students and lead to success for all Give it a go [Book Buddies](#) Marcia Invernizzi, Donna Lewis-Wagner, Francine R. *Spelling Gr. 2 A Complete Strategy Based Program*, Intensifying Classroom Routines in Reading and Writing Programs Michael P. Ford, 2017-06-15

Three common routines are seen in almost every primary language arts program: morning messages, shared readings, and word walls. These routines should be integrated to support the total language arts program but are teachers of grades K-2 getting the most bang for their buck out of these activities. Morning messages can become very routinized and repeat the same experiences over and over again. Shared readings are sometimes conducted with little variation in spite of changing demands from the texts being used and changing needs in the learners with whom they are being used. Word walls might be put up with some attention early in the year and remain virtually unchanged as the year moves forward. Intensifying Classroom Routines in Reading and Writing Programs focuses on how teachers can get more instructional mileage out of these three common classroom routines. Author Michael P. Ford lays out step by step, day by day plans to put those three key routines on a cycle that changes as students move through developmental phases. This resource helps teachers plan for emergent and early readers and writers. It also looks at how teachers can assist students as they move through critical areas including concepts of print, alphabetic knowledge, phonological awareness, sound-symbol relationships, high frequency words, structural analysis, context clues, comprehension strategies, and composition strategies. With these intensified routines in place, students will clearly see connections between reading and writing.
