The Education of Slow Learning Children A. E. Tansley,R. Gulliford,2018-09-03 Originally published in 1960 The authors of this text examine ways in which both ordinary schools and special needs schools can further develop suitable education for pupils with special needs including improved post school guidance This title aims to provide a guide to teachers in deciding the aims of their teaching and to assist in the planning of their teaching methods Discipline and Learn Megan Watkins,2012-03-24 Discipline and Learn Bodies Pedagogy and Writing explores how discipline is typically construed as a form of subjection in contemporary educational thought and in critical and cultural theory more broadly It provides a critique of this emphasis on the repressive aspects of discipline highlighting its enabling potential and role in the development of dispositions to learning The book engages with the work of a range of theorists Foucault Bourdieu Merleau Ponty Mauss and Spinoza and considers their usefulness in theorizing embodiment and learning in the teaching of writing in the early years of school Emphasis however is placed on the work of Bourdieu and his notion of habitus melding theory and practice in an ethnography of contemporary classrooms This text is invaluable reading for students and academics across the social sciences and humanities interested in questions of embodiment affect and their relation to learning This is the most thought provoking book to be published on pedagogy in a long long time Conceptually elegant and empirically rich it undercuts conventional wisdom and potentially rearranges how we think about teaching learning and writing It argues that students bodies not just their minds matter in learning explaining how in practice the desire to learn is a mindful bodily disposition And it shows how through an enabling form of discipline teachers can produce a scholarly habitus in all students including the educationally disadvantaged and defiant Jane Kenway Professor of Education Monash University Discipline and Learn Bodies Pedagogy and Writing an excellent book which makes an important contribution to our understanding of both pedagogy and the body and which is sure to spark debate in both fields It is careful and judicious in its approach but still manages to be provocative and original Nick Crossley Professor of Sociology University of Manchester Reading Skills Check List and Activities, Third Level Walter Burke Barbe,1976 **Practical Ideas for Teaching Writing as a Process** Carol B. Olson,1996-02 Contains a collection of specific classroom strategies suggestions for teaching writing to elementary school students according to an eight stage process Specific techniques for teaching each stage of the writing process descriptions of proven approaches for using these techniques are also included A wonderful resource a labor of love from a large talented group of educators Had its beginnings in the California Writing Project at the Univ of California Irvine Best Seller Illustrated Routledge Library Editions: Special Educational Needs Various,2021-07-29 This set of 62 volumes

originally published between 1951 and 1999 amalgamates a wide breadth of literature on Special Educational Needs with a particular focus on inclusivity class management and curriculum theory This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject how it has evolved over time and will be of particular interest to students of Education and those undertaking teaching qualifications
