One Bite With A Stranger Christine Warren, 2010-04-01 A Tantalizing Vampire Fantasy That Will Leave You Breathless When Regina's friends insist on setting her up with a Fantasy Fix to help her get over her cheating ex she dreams up some kinky out of this world encounters that they could never possibly bring to life But the next thing Regina knows she's laced into a shiny black corset tight leather pants and a sexy pair of stilettos ready for a night of vampire fantasy fun at the Vampire Ball in Manhattan's East Village Dmitri Vid me a member of the Council that governs the Others is at the ball to keep an eye on the young vamps who prey on the pretenders But when he feasts his dark eyes on the fiery Regina at the bar he knows that he must have her For the first time Dmitri meets a woman who is more than a match for his indomitable will He may be the fantasy Regina hoped for until she and her feisty friends discover her sexy new lover's bloodsucking secret in

One Bite With A Stranger a tantalizing paranormal romance by Christine Warren The Real World, and the Other Real World Marcia Lewton, 2004 The feature these fifteen diverse stories have in common is the humor that comes of pushing the reality of ordinary life just a few inches over the edge In the first story Duke Drunk in the Driveway a family funeral turns into a double funeral seen through the eyes of a little girl Gwennie who also tells the story in Webs Family shames and secrets are observed by a sharp eyed child whose parents each try to win her allegiance against the other The Knitting Nancy and Pastures White with Clover are both told by women at the other end of life one celebrating her 80th birthday by imagining inviting people from all her old address books to a party the other wheeling out of the nursing home to go searching for her Own True Love The real world looks familiar enough in Ephesus New Jersey Here a young wife cowed by the moral correctness of her husband gets help from the ancient Greek philosopher Heraclitus as she takes her own stand In Gorgonzola Suns a painter is encouraged by her husband through a bad day at an art fair A letter carrier visits Alaska in The Frontier where his dream of eagles helps him break his attachment to a fickle woman A grieving father in Concordia awaits the arrival of his paranoid son trying desperately to stay in the present moment and not be overcome by memories of the past and worries of the future Reality begins to escape the envelope in When the Gift Fits when a young man finds himself the recipient of a mysterious gift that will teach him something he needs to know as he discovers its meaning The mother of an endless brood of children escapes her family in Amelioration to live in a mini warehouse The next two stories in this collection are written as though the world were perfectly ordinary but is it A young man in The Almost Perfect Flaw discovers that his attraction to the perfect woman who is frail and light enough to carry in his arms with her long dark hair swinging down over his elbow stricken down in youth by a death that did not leave marks Longing to be respectable he has to settle for a woman who is only almost perfect The heroine of Change at the Fortune Cookie Factory inherits the family business and enhances both divisions dough and fortunes far beyond what her parents had accomplished In the last two stories we move into a more altered realm The Other Real World begins when a woman gives birth to twins one of which is a bear cub Raising the twins carries her into a realm of possibility other than city government and shopping malls And the narrator of Melanchthon and the Process Server tries to save her numerous babies from disappearing from a house with sixty five people living in it I can believe that there are already sixty five only by counting them as they leave each morning to forage for their contributions to the daily soup It is not possible I compared the area of the house with the area of a person lying down multiplied by sixty five it is not possible But there they go out the door with their foraging implements knives hooks nets ropes a Bible a can of Dog Away by which we snatch choice bones and a ragged five dollar bill Sixty three sixty four sixty five These stories deal with life's tough issues but always the humor rescues them from heavy solemnity **The Micronutrient Miracle** Jayson Calton, PhD, Mira Calton, CN, 2015-08-11 Our poor health and growing waistlines can be traced back to the hidden crisis of a micronutrient deficiency More than 90 percent of all Americans are deficient in at least one of these health

promoting vitamins and minerals and don't even know it. According to nutritionists Jayson and Mira Calton, micronutrients (vitamins and minerals) essential for optimum health are being stripped from our diet and depleted by our lifestyle habits. And these deficiencies cause today's most common illnesses. Mira herself developed advanced osteoporosis at the age of 30. But with Jayson's help, she reversed her disease through micronutrient therapy. The Caltons created *The Micronutrient Miracle*, an incredible cure-all program to help you lose weight and prevent and reverse common disorders including obesity, heart disease, and diabetes. *The Micronutrient Miracle* explains the truth about what you're really eating and how your habits may be depleting essential micronutrients. It also provides an easy-to-follow 28-day plan to reverse these effects by restoring your depleted micronutrients. And the best part: This book is tailor-made to work with your lifestyle, including gluten-free, low-carb, low-fat, vegan, and Paleo recipes.

Crazy Like a Fox S. J. Perelman, 2024-04-23 A beloved classic returns. S. J. Perelman's own selection of the very best of his hilarious stories and sketches. Pulitzer Prize-winning author Joshua Cohen reintroduces America's zaniest humorist to a new generation of readers. When asked about himself, the writer Sidney Joseph Perelman once quipped, "Before they made him, they broke the mold." Nowhere is S. J. Perelman's one-of-a-kind madcap sensibility, his gift for wordplay, witticism, spoofery, and sheer nonsense on better display than in his classic collection *Crazy Like a Fox*, here restored to print for the first time in decades. In a playful, loving tribute to the funny man, novelist Joshua Cohen, also an erudite wordsmith and punster, introduces Perelman's sui generis comic pieces to a new generation of readers certain to fall in love with the writer whom *The New York Times* once noted for his ability to transform the common cliché or figure of speech into an exploding cigar. Included here are such beloved classics as the Joycean virtuoso performance

Scenario A Farewell to Omsk Perelman s hilarious homage to Dostoevsky and Farewell My Lovely Appetizer his side splitting send up of the hardboiled detective fiction of Raymond Chandler Here is Perelman s own selection of the very best of his inimitable humor restored to print for the first time in decades *Isandro* Elle Klass,2019-04-22 The hidden journals are those found by Alistair in Opal s home in St Augustine Each story is unique Pressured by two bullies at school Isandro takes them into his father s study in search of something he saw something that he hopes will make the teasing stop It s there they find a secret room and the voice begins It calls Isandro pulls him into its clutches and he discovers what the secret room really houses It isn t the only nightmare he faces His parents have kept secrets from him that may cost him his very lifeblood

Fat Robert Pool,2001-02-15 When the leptin gene was discovered in 1994 news articles predicted that there might soon be an easy pharmaceutical solution to the growing public health crisis of obesity Yet this scientific breakthrough merely proved once again how difficult the fight against fat really is Despite the many appetite suppressants diet pills and weight loss programs available today approximately 30 percent of Americans are obese And that number is expanding rapidly *Fat* is the engaging story of the scientific quest to understand and control body weight Covering the entire twentieth century Robert Pool chronicles the evolving blame game for fat from being a result of undisciplined behavior to subconscious conflicts physiological disease and environmental excess Readers in today s weight conscious society will be surprised to learn that being overweight was actually encouraged by doctors and popular health magazines up until the 1930s when the health risks associated with being overweight were publicly recognized Thus began decades of research and experiments that subsequently explained appetite metabolism and the development of fat cells Pool effectively reanimates the colorful characters curious experiments brilliant insights and wrong turns that led to contemporary scientific understanding of America s epidemic While he acknowledges the advances in the pharmacological fight against flab he underscores that the real problem of obesity is not losing the weight but keeping it off Drugs offer a quick fix but they aren t the ultimate answer American society must remedy the unhealthy daily environments of its cities and towns and those who have struggled with their weight and have experienced the yo yo cycle of dieting must understand the underlying science of body weight that makes their struggle more than a question of willpower Human Motives Peter Carruthers,2023-12-27 Motivational hedonism often called psychological hedonism claims that everything we do is done in pursuit of pleasure in the widest sense and to avoid pain and displeasure again in the widest sense Although perennially attractive many philosophers and experimental psychologists have claimed to refute it *Human Motives* shows how decision science and the recent science of affect can be used to construct a form of motivational hedonism that evades all previous critiques On this view we take decisions by anticipating and responding affectively to the alternatives with the pleasure displeasure component of affect constituting the common currency of decision making But we do not have to believe that the alternatives will bring us pleasure or displeasure in the future Rather those feelings get bound into and become parts of the future directed

representation of the options rendering the latter attractive or repulsive Much then depends on what pleasure and displeasure really are If they are intrinsically good or bad properties of experience for example then motivational hedonism results Carruthers argues in contrast that the best account is a representational one pleasure represents its object nonconceptually in a perception like manner as good and displeasure represents it nonconceptually as bad The result is pluralism about human motivation making room for both genuine altruism and intrinsic motives of duty Clearly written and deeply scientifically informed Human Motives has implications for many areas of philosophy and cognitive science and will be of interest to anyone wanting to understand the foundations of human motivation **One Kiss Led to Another** Harris
