The Changing Legal Orders in Hong Kong and Mainland China: Essays on "One Country, Two Systems" Albert H.Y. Chen, 2021. This collection of selected works by Professor Albert H.Y. Chen shows the contours of the author's scholarship as it developed over 35 years of his academic career from 1984 to the present. The essays are divided into three sections which cover the three major domains of Professor Chen's research. Part I covers the legal developments and controversies of One Country Two Systems since the Hong Kong interpretation on the right of abode in 1999 to the anti-extradition movement of 2019. Part II shifts to focus on tradition and modernity in Chinese Law including China's Confucian and Legalist traditions and how the socialist legal system in China evolved and modernized in the era of reform and opening. Part III examines the transplantation of Western thinking and constitutionalism to East Asia in modern times and discusses the achievements and failures of these efforts. In conjunction with an introductory chapter that sets out the basic orientation and paradigm of these legal and constitutional studies and an epilogue that reflects on the main themes, this collection exemplifies the author's important contributions to the field and provides insight into how the legal orders in Hong Kong and mainland China have changed over the course of Professor Chen's academic career.

The First Decade Yue-man Yeung, 2007. Many people have doubts about the return of sovereignty over Hong Kong to China in 1997. They were not optimistic about the one country two systems formula. How should Hong Kong be judged as a Special Administrative Region within China in the first decade of its existence? This book has set out to answer this question. Renowned scholars from outside Hong Kong, largely from countries with close links to Hong Kong's handover, or other links, have addressed this question from their perspectives. These views are supplemented by introspective reviews by Hong Kong academics who examine different sectors that have undergone important changes during this period. It is a major contribution to the study of Hong Kong after its return to the motherland.

Chinese Ideology Shiping Hua, 2021-08-16 This book traces ideological trends in China through a range of historical and comparative perspectives spanning the ancient belief systems of Confucianism Legalism and Taoism to political ideologies of the present day Chapters in this edited volume are divided into four parts traditional Chinese ideology ideology of the Republic Maoism as an ideology and post Mao ideology zoning in on

specific historical periods from the Qing and Republic periods to the reform era as well as the period after the founding of the PRC through which Mao Zedong's political thought is notably discussed from the perspective of epistemology and the global impact of Maoism. Key topics include Sun Yat-sen as the Father of the Republic, Li Dazhao the early Marxist theoretician, Chiang Kai-shek and his nationalist Fascism, Liang Qichao's emotional appeals through liberal political discourse, Jiang Zemin's theory of Three Represents de-emphasising the Marxist concept of class, Hu Jintao's theory of Harmonious Society and Xi Jinping's political thought. Contributions from world leading scholars take both comparative and critical approaches examining not only how studies of ideology are relevant but how Chinese ideologies have retained their own characteristics distinct to the West. Europe and China Roland Vogt, 2012-03-01 This edited volume analyzes the changing nature of the relationship between China and Europe. This relationship has been subject to significant shifts and transformations not least because of the enormity of China's social and economic development since 1978 and the political consequences this has brought about in international politics. The global financial crisis of 2008-09 and the subsequent sovereign debt emergency in Europe have also altered the nature of the interactions between the two regions. China has become a more assertive, confident and active player on the global stage. Its economic development is now a major pillar of the global economy and its growth has been conducive for a fragile economic recovery to take place in Europe and beyond.

Taiwanese Identity in the 21st Century Gunter Schubert, Jens Damm, 2012-01-30 As we look to enter the second decade of the 21st century, Taiwan's quest for identity remains the most contentious issue in the domestic arena of Taiwanese politics. From here it spills over into the cross-strait relationship and impacts on regional and global security. Whether Taiwan is a nation-state or whether Taiwan has any claim to be a nation-state and how Taiwan should relate to China are issues which have long been hotly debated on the island, although it seems that much of this debate is now more focused on finding an adequate strategy to deal with the Beijing government than on the legitimacy of Taiwan's claim to sovereignty as the Republic of China. The collection of chapters in this book sheds light on very different aspects of Taiwan's current state of identity formation from historical, political, social and economic perspectives both domestically and globally. As such, it will be invaluable reading for students and scholars of Taiwan studies, politics, history and society as well as those interested in cross-strait relations, Chinese politics and Chinese international relations.
