Hitler's American Gamble Brendan Simms, Charlie Laderman, 2021-10-28 History at its scintillating best hard hitting revelatory and superbly researched Andrew Roberts author of Churchill Walking with Destiny A rare achievement sure to become an instant classic John Lewis Gaddis Yale University This gripping book dramatizes the extraordinarily compressed and terrifying period between the surprise Japanese attack on Pearl Harbor and Hitler s declaration of war on the United States These five days transformed much of the world and have shaped our own experience ever since Simms and Laderman s aim in the book is to show how this agonizing period had no inevitability about it and that innumerable outcomes were possible Key leaders

around the world were taking decisions with often poor and confused information under overwhelming pressure and knowing that they could be facing personal and national disaster And yet there were also long standing assumptions that shaped these decisions both consciously and unconsciously Hitler s American Gamble is a superb work of history both as an explanation for the course taken by the Second World War and as a study in statecraft and political choices **Orphan's Choice** Dondi Schwartz,2025-08-03 The inevitable interaction between Orphan Braque and IDF Unit 1234 5678 newly developed by Commander ABCD Marshall begins a snowball of bloody sensitive guilt ridden events that will impact the main characters as well as potentially all mankind Orphan s beginnings as a computer game fanatic led to the more improbable role he finds himself in as a skilled hacker who is a danger to the security of Israel He has no social life with limited family life and is a poor student but he finds companionship with other game players and hackers calling them friends His father who is very worried about his son will be quite surprised by what his son achieves by the end of this fictional story based on subjects that may or may not exist in real life Orphan s love of games and computers is a double edged sword which both Orphan and ABCD hold on to Their complex relationship may lead both of them to glory each in their own way Philosophical questions of whether the human race is doomed to destruction or if we are meant to save one another from harm might find possibly realistic answers between the lines of Orphan s Choice some of which the main character will have to deal with in his own life all of this found within a fascinating book combining sharp tongued humor with a variety of expressions of love Jaime Alvarez,2009-07-01 **Routledge Library Editions: History of Money, Banking and Finance** Various,2021-07-09 This 14 volume set collects together a series of key titles that provide a wide ranging analysis of money A Survey of Primitive Money banking Bank Behavior Regulation and Economic Development and finance The Money Market Other titles expand on these topics giving both a wider overview and a more detailed snapshot of the subjects covered *Weekly Compilation of Presidential Documents* ,2001 Brothers Down Walter R.
