Human Rights and Sustainability Gerhard Bos, Marcus Düwell, 2016-02-26 The history of human rights suggests that individuals should be empowered in their natural political social and economic vulnerabilities States within the international arena hold each other responsible for doing just that and support or interfere where necessary States are to protect these essential human vulnerabilities even when this is not a matter of self interest This function of human rights is recognized in contexts of intervention genocide humanitarian aid and development This book develops the idea of environmental obligations as long term responsibilities in the context of human rights It proposes that human rights require recognition that in the face of unsustainable conduct future human persons are exposed and vulnerable It explores the obstacles for long term responsibilities that human rights law provides at the level of international and national law and challenges the question of whether lifestyle restrictions are enforceable in view of liberties and levels of wellbeing typically seen as protected by human rights The book will be of interest to postgraduates studying Human Rights Sustainability Law and Philosophy

Transcultural Bodies Ylva Hernlund, Bettina Shell-Duncan, 2007-06-07 Female circumcision or more precisely female genital cutting FGC remains an important cultural practice in many African countries often serving as a coming of age ritual It is also a practice that has generated international dispute and continues to be at the center of debates over women's rights the limits of cultural pluralism the balance of power between local cultures international human rights and feminist activism In our increasingly globalized world these practices have also begun immigrating to other nations where transnational complexities vex debates about how to resolve the issue Bringing together thirteen essays Transcultural Bodies provides an ethnographically rich exploration of FGC among African diasporas in the United Kingdom Europe and Australia Contributors analyze changes in ideologies of gender and sexuality in immigrant communities the frequent

marginalization of African women's voices in debates over FGC and controversies over legislation restricting the practice in immigrant populations

Neuropsychology of Childhood Epilepsy Isabelle

Jambaqué, Maryse Lassonde, Olivier Dulac, 2006-04-11 This book is devoted to the neuropsychological description of childhood epilepsy a neurological condition that constitutes one of the most prevalent forms of chronic and disabling childhood illnesses Indeed one child out of 20 experiences one or more seizures before the age of 5 and one in a hundred develops epilepsy as a chronic disorder Approximately half of these children with epilepsy display academic difficulties and/or behavioral disorders Moreover it is now believed that a sizable proportion of children with learning disability suffer from undiagnosed epilepsy While a great number of textbooks have been devoted to various medical aspects of childhood epilepsy diagnosis genetics etiology drug and surgical treatment etc there have been no comprehensive accounts of the cognitive consequences of this condition Advance of medical knowledge has shown that childhood epilepsy should not be considered as a single disorder but encompasses a whole range of different conditions that exhibit specific clinical EEG and outcome characteristics It is not becoming apparent that these various clinical entities have different cognitive expression that yet need to be specified The purpose of this book is to provide a complete up to date analysis of this multi-faceted pathology

Country Reports on Human Rights Practices ,2002
Code of Federal Regulations ,1999 **Human Rights in Europe** Thomas Hammarberg,Council of Europe.

Commissioner for Human Rights, 2011-01-01 Political rhetoric on human rights in Europe is different from daily reality. Almost every politician is on record as favouring the protection of freedom and justice. Standards on human rights have been agreed at European and international level; many have been integrated into national law but they are not consistently enforced. There is an implementation gap; it is this implementation gap that this book seeks to address. It is built on a compilation of separate viewpoints or articles which Thomas Hammarberg has written and later updated since beginning his mandate as Council of Europe Commissioner for Human Rights in April 2006. He has now visited almost all of the 47 member states of the Council of Europe. On each visit he has met victims of violations of human rights and their families, leading politicians, prosecutors, judges, ombudsmen, religious leaders, journalists and civil society representatives as well as inmates of prisons and other institutions, law enforcement personnel and others. The viewpoints written on the basis of these many visits summarise his reflections, conclusions and recommendations.

Cases Decided in the Court of Session, Teind Court, Court of Exchequer and House of Lords Scotland. Court of Session, 1862 Women's rights and China's new family planning law United States. Congressional-Executive Commission on China, 2002 **Parliamentary Debates** New Zealand. Parliament, 1958 **Congressional Record** United States. Congress, 1996 Handbook of Family Policies Across the Globe Mihaela Robila, 2013-06-19 Family policy holds a particular status in the quest for a more equitable world as it intersects the rights of women, children and workers. But despite local and global efforts and initiatives the state of family policy in different areas of the world varies widely. Through a cross section of countries on six continents *Family Policies Across the Globe* offers the current state of the laws concerning family life structure and services, providing historical, cultural and socioeconomic context. Lucidly written chapters analyze key aspects of family definition, marriage, child well being, work, family balance and family assistance, reviewing underlying social issues and controversies as they exist in each country. Details of challenges to implementation and methods of evaluating policy outcomes bring practical realities into sharp focus and each chapter concludes with recommendations for improvement at the research service and governmental levels. The result is an important comparative look at how governments support families and how societies perceive themselves as they evolve. Among the issues covered: Sierra Leone toward sustainable family policies; Russia folkways versus state ways; Japan policy responses to a declining population; Australia reform, revolutions and lingering effects; Canada a patchwork policy; Colombia a focus on policies for vulnerable families. Researchers, professors and graduate students in the fields of social policy, child and family studies, psychology, sociology and social work will find in *Family Policies Across the Globe* a reference that will grow in importance as world events continue to develop.
