Boyd, 2022-08-17 Baker Standish knows his world time his reality the culmination of his history is at a crossroads He also knows he is destined to play a pivotal role in choosing the right road His experience tells him that meddling with realities can do more harm than good but from his vantage point meddling is the only reasonable choice Traitors within Lineal Chronology are hell bent on controlling the quantum elevator and the secrets that surround it Whoever controls the elevator controls reality With no one to trust Baker must discover the identities of the traitors That single task proves daunting because the traitors are not inclined to be stopped Professor Bill Jamison set Baker on his journey From all indications the journey cannot be denied Once a path is chosen small events compound to reshape the present and the future Baker must move forward as rapidly as possible even though time is seemingly on his side The risks are real and the stakes are high Failure is not an option because a reshaped reality will eliminate those closest to him

Timekeeper Gary B. Boyd, 2022-02-14 Baker Standish would rather do anything than stand in front of a history classroom full of disinterested teenagers He chose a career outside of academia His mentor Professor Bill Jamison suggested Lineal Chronology as the ideal career choice for a US History major Baker Standish was overwhelmed by his new responsibilities A Timekeeper s duties were far reaching farther than he could have ever imagined One of the hazards of the job was something HR Manager Kara Leflar called Timekeeper confusion Between the confusion and his persistent earworm Baker wondered if his career choice was a good one Against a backdrop of his own reality Baker engages in mission after mission to set the links in the chain of events that create reality in the proper order Someone is messing with the clock and it s a constant struggle to reset it

Humanity's Vessel Gary B. Boyd, 2020-10-12 Humanity One was built for one reason and maneuverability was not it The vessel was a massive biosphere that plowed its way through space guided by values established by humans long dead Captain Cesar s paradigms were rocked by the fact that the Innovators did not anticipate the possibility of an alien encounter Added to the Captain s burden was the fact that fifteen year old Maddie and her Generation 4 Group engaged in heresy that could spell failure for future generations and Humanity One s Mission Torn between the teachings of the Innovators and the radical behaviors of the Gen 4 teenagers the aging Captain struggled to find solutions to the dual dangers to humankind Either an attack by the aliens or the assault on tradition by the teens could lead to the extinction of humans and the Innovators offered no guidance to successfully resolve either danger

Boyd,2017-02-15 A serial killer by circumstance he moves across the country to escape his demons only to find new ones in each city He desperately tries to avoid repeating his crime but the deaths keep coming He is convinced the deaths are a punishment meted out by the hand of God Detective Sarah James is relentless and eventually finds the right clues to connect the various murders he has committed She follows him doggedly in her effort to see that justice is served The killers name is never spoken but it is revealed to the attentive reader in one laughable clue Lifetime of Fear Gary B.

Boyd,2021-08-26 Space Train Engineers are a contrary lot The most contrary of all is Adin Bartlett Joint Commander Kevin Masters personally selects Adin and his Bountiful Express crew Conductor Bella Bok and Space Miner Shendo Spook Khofer for a historic assignment to mine microbes on a distant planet in Home's solar system The microbes are needed to replenish surface life on Home a planet whose loss of atmosphere has forced humans to burrow into tunnels for survival The adventure is fitting of true Home Heroes Only Spook a Technologist with unnatural intuitive abilities has reservations about the assignment Adin's only complaint is that the desk Engineers thrive on theories that don't fit and ignore realities Bella is the balance for the combination of the aggressive and tentative natures of her crewmates as the space train encounters the unknown with minimal information The adventure opens the crew's minds to unbridled fears fears that far exceed their experiences as asteroid miners and exposes them to dangers outside of human understanding The crew's complementary abilities are the only things that can bring their assignment to a safe conclusion if their assignment can be completed at all

Better Times - Facet I Gary B. Boyd,2014-05-05 Spavin Lawson enjoyed his quiet life as the leader of a team of theoretical physicist who worked for the U S Government's Temporal Ministry The quiet dedicated scientist was content with his life in Wilkes Barre Pennsylvania Together with his wife Clarissa he had a nice home and two teenaged daughters Sasha and Stephanie The experienced the epitome of the American dream Unfortunately three centuries of abuse had finally caught up with the planet The warned climate change that had been pooh poohed for more than one hundred years came crashing ashore With new sea levels and relentless hurricanes assaulting the coasts hordes of survivors were forced inland only to find

that droughts had decimated the breadbasket of the world Spavin knew that the United States of the 22nd Century was not survivable His idyllic lifestyle came to an abrupt end With his family Spavin embarked upon a journey to seek better times The Lawsons journey was unlike any journey in the annals of Man **Life'S a Bitch** Gary B. Boyd,2017-10-18 Trey Managuas and Polly Anne Dodgems dreams were not the same but they were compatible Trey was unemployed at the age of sixty the victim of a factory closure He was too young to retire and too old to attract an employer His dream was to work until he was sixty six and retire with a comfortable nest egg for his golden years Polly Anne was an innovator and entrepreneur After years of research she had finally developed a process by which she could regenerate usable cotton fiber from textile scraps By regenerating the fiber from scraps her black box process would easily reduce the use of landfill space used for untold tons of textile waste More importantly her use of regenerated fiber would reduce the number of acres of land required to grow cotton which in turn would reduce the volume of chemicals and amount of water used to make that cotton grow Her dream was to make a difference in peoples lives She only needed a manufacturing facility and skilled workers to commercialize her process Treys recently shuttered nonwovens factory offered the opportunity for Polly Anne to engage in manufacturing products using her regenerated cotton fiber It was a match made in heaven Praise the Lord **The Fence** Gary B. Boyd,2018-10-31 Ephraim Calvert wanted one thing freedom from his past Without the constraints of his past looming over him like a dark cloud he could enjoy the life he deserved The Texas frontier offered the opportunity to start anew and to rid himself of his past Ephraim learned that everyone has a past and everyone has secrets Secrets define people To guard their secrets people build fences Before his struggle to build a good future on the wreckage of the past could be successful he had to understand the secrets and accept the fences Texas was worth the fight no matter the cost **House Divided** Gary B. Boyd,2016-10-28 Brett Stamos loved his job he loved his country but most all he loved his wife When he allowed his curiosity to override his good sense he lost all three Brett found out that written history does not always match up with real history Unwittingly he uncovered that a monumental hoax had been perpetrated on the American people He discovered original history books that debunked six decades of misinformation that kept President Makluas government in power Slated for termination on charges of sedition Bretts sure death is averted when he is rescued by people that he once disavowed as invaders and trespassers The simple Forester becomes the face of an underground Liberty Movement whose mission is to return the United States to its former glory as a beacon of freedom in a dangerous world *American Dionysia* Steven Johnston,2015-05-12 American Dionysia reveals that classic and contemporary resources of tragedy can counter the violence inherent in democracy **When Ethnicity Did Not Matter in the Balkans** John V. A. Fine, Jr.,2010-02-05 This is history as it should be written In When Ethnicity Did Not Matter in the Balkans a logical advancement on his earlier studies Fine has successfully tackled a fascinating historical question one having broad political implications for our own times Fine s approach is to demonstrate how ideas of identity and self identity were invented and evolved in medieval and early modern

times At the same time this book can be read as a critique of twentieth century historiography and this makes Fine s contribution even more valuable This book is an original much needed contribution to the field of Balkan studies Steve Rapp Associate Professor of Caucasian Byzantine and Eurasian History and Director Program in World History and Cultures Department of History Georgia State University Atlanta When Ethnicity Did Not Matter in the Balkans is a study of the people who lived in what is now Croatia during the Middle Ages roughly 600 1500 and the early modern period 1500 1800 and how they identified themselves and were identified by others John V A Fine Jr advances the discussion of identity by asking such questions as Did most some or any of the population of that territory see itself as Croatian If some did not to what other communities did they consider themselves to belong Were the labels attached to a given person or population fixed or could they change And were some people members of several different communities at a given moment And if there were competing identities which identities held sway in which particular regions In When Ethnicity Did Not Matter in the Balkans Fine investigates the identity labels and their meaning employed by and about the medieval and early modern population of the lands that make up present day Croatia Religion local residence and narrow family or broader clan all played important parts in past and present identities Fine however concentrates chiefly on broader secular names that reflect attachment to a city region tribe or clan a labeled people or state The result is a magisterial analysis showing us the complexity of pre national identity in Croatia Dalmatia and Slavonia There can be no question that the medieval and early modern periods were pre national times but Fine has taken a further step by demonstrating that the medieval and early modern eras in this region were also pre ethnic so far as local identities are concerned The back projection of twentieth century forms of identity into the pre modern past by patriotic and nationalist historians has been brought to light Though this back projection is not always misleading it can be Fine is fully cognizant of the danger and has risen to the occasion to combat it while frequently remarking in the text that his findings for the Balkans have parallels elsewhere John V A Fine Jr is Professor of History at the University of Michigan
