One True God Historical Consequences Of Monotheism:

One True God Rodney Stark, 2018-06-05 Western history would be unrecognizable had it not been for people who believed in One True God There would have been wars but no religious wars There would have been moral codes but no Commandments Had the Jews been polytheists they would today be only another barely remembered people less important but just as extinct as the Babylonians Had Christians presented Jesus to the Greco Roman world as another God their faith would long since have gone the way of Mithraism And surely Islam would never have made it out of the desert had Muhammad not removed Allah from the context of Arab paganism and proclaimed him as the only God The three great monotheisms changed everything With his customary clarity and vigor Rodney Stark explains how and why monotheism has such immense power both to unite and to divide Why and how did Jews Christians and Muslims missionize and when and why did their efforts falter Why did both Christianity and Islam suddenly become less tolerant of Jews late in the eleventh century prompting outbursts of mass murder Why were the Jewish massacres by Christians concentrated in the cities along the Rhine River and why did the pogroms by Muslims take place mainly in Granada How could the Jews persist so long as a minority faith able to withstand intense pressures to convert Why did they sometimes assimilate In the final chapter Stark also examines the American experience to show that it is possible for committed monotheists to sustain norms of civility toward one another A sweeping social history of religion One True God shows how the great monotheisms shaped the past and created the modern world

Dynamics of Monotheism in Late Antiquity Guy G.

Stroumsa, 2025-07-08 From early Christianity to the emergence of Islam the long late antiquity denotes a truly revolutionary period in the history of religions. In many ways religious ritual patterns and theological worldviews were then radically transformed throughout the Near East and the Mediterranean. In particular the traditional polytheistic systems collapsed giving way to various forms of monotheism and dualism. In *Dynamics of Monotheism in Late Antiquity* Guy G. Stroumsa seeks to analyze this multifaceted revolution as a whole rather than focusing as is usually the case on distinct religious communities and traditions such as Judaism, Zoroastrianism, Gnosticism, Christianity, Manichaeism and earliest Islam. Many of the elements of religious change in our period can be perceived as a *praeparatio coranica* as it were as they set the scene for the advent of Islam. The thrust of the book is to identify the key dynamics through which religious change happened in the kaleidoscope of religious conceptions. The analysis emphasizes the dialectics between monotheist and dualist perceptions and systems. It will also seek to identify the core elements of the Abrahamic religions in the making. **Religion und**

Gesellschaft im frühen Christentum Hans-Josef Klauck, 2003 English summary This is a collection of articles by Hans Josef Klauck from the years 1995-2002 expanded by a substantial new contribution on monotheism and polytheism in Graeco-Roman Jewish and Christian writings mainly of the first two centuries CE. Most of the articles are characterized by an approach from the history of religions point of view enriched by aspects of social history. German description Die Sammlung von Aufsätzen aus den Jahren 1995 bis 2002 wird von einem umfangreichen Originalbeitrag eröffnet der auf die neuere Diskussion um Monotheismus und Polytheismus eingeht. Hans Josef Klauck bedient sich mehrheitlich der religionsgeschichtlichen und der sozialgeschichtlichen Methodik. Für den Vergleich mit dem Urchristentum erschliesst er Beichtinschriften aus Kleinasien, Formen ekstatisch inspirierter Rede von Cassandra bis zu den Zauberpapyri und Ehrendekrete für Junia Theodora in Korinth. Einen weiteren Schwerpunkt bilden Beobachtungen zu Herrscherkritik und Kaiserkult im Neuen Testament. Die letzten drei Beiträge widmen sich dem Verhältnis von Exegese und Kirche. Für den Neudruck wurden alle Aufsätze durchgesehen sowie teilweise ergänzt und der Band wurde mit drei Registern versehen.

Enchantment Patrick Curry, 2019-10-17 Enchantment is a profound human experience. When we encounter wonder, awe or amazement that is enchantment. Enchantment can reveal profound truths, lead to deep values and become central to a life well lived. This unique book explores how enchantment plays out in a wide range of contexts in love, art, religion and learning in food and drink and perhaps most significantly in our relationship with the natural world. Patrick Curry argues that modernist attempts to undermine or dismiss enchantment as a delusion are not only misguided but dangerous, potentially leading to a disengagement with our world that could have disastrous consequences for our future on this planet. Jesus and the Chaos of History James G. Crossley, 2015 In *Jesus and the Chaos of History* James Crossley looks at the way the earliest traditions about Jesus interacted with a context of social upheaval and the ways in which this historical chaos of the

early first century led to a range of ideas which were taken up modified ignored and reinterpreted in the movement that followed Crossley examines how the earliest Palestinian tradition intersected with social upheaval and historical change and how accidental purposeful discontinuous contradictory and implicit meanings in the developments of ideas appeared in the movement that followed He considers the ways seemingly egalitarian and countercultural ideas co exist with ideas of dominance and power and how human reactions to socio economic inequalities can end up mimicking dominant power In this case the book analyzes how a Galilean protest movement laid the foundations for its own brand of imperial rule This evaluation is carried out in detailed studies on the kingdom of God and Christology sinners and purity and gender and revolution

Today many in Hollywood and the media have declared open warfare on the family education and Christianity in general Intellectuals have labeled religion particularly Christianity as mere wish fulfillment or a virus of the mind something to be eradicated at all costs In *Christianity's Dangerous Idea* Jonas Alexis picks up where he left off in his previous books and continues to examine the ideological fallacies that have been fabricated in order to attack Christianity and the people who promote those fallacies This latest book is a tour de force of rigorous logic and testable evidence for the Christian worldview from history science experience common sense and final destiny More importantly Alexis subjects the rivals of Christianity to the same rigorous testing *Christianity's Dangerous Idea* clearly demonstrates the destructive nature of popular atheistic and anti Christian philosophies spread throughout Western culture by such famous people as Friedrich Nietzsche Sigmund Freud Carl Jung David Cronenberg Steven Spielberg Alan Moore William S Burroughs Philip K Dick Bruce Lee Ayn Rand Bart D Ehrman Richard Dawkins and many more In a scholarly yet readable fashion Alexis shows that what the ancient Greeks often referred to as the cult of Dionysus has become mainstream in our modern age *For the Glory of God* Rodney Stark,2015-01-27

Rodney Stark's provocative new book argues that whether we like it or not people acting for the glory of God have formed our modern culture Continuing his project of identifying the widespread consequences of monotheism Stark shows that the Christian conception of God resulted almost inevitably and for the same reasons in the Protestant Reformation the rise of modern science the European witch hunts and the Western abolition of slavery In the process he explains why Christian and Islamic images of God yielded such different cultural results leading Christians but not Muslims to foster science burn witches and denounce slavery With his usual clarity and skepticism toward the received wisdom Stark finds the origins of these disparate phenomena within monotheistic religious organizations Endemic in such organizations are pressures to maintain religious intensity which lead to intense conflicts and schisms that have far reaching social results Along the way Stark debunks many commonly accepted ideas He interprets the sixteenth century flowering of science not as a sudden revolution that burst religious barriers but as the normal gradual and direct outgrowth of medieval theology He also shows that the very ideas about God that sustained the rise of science led also to intense witch hunting by otherwise clear headed Europeans including some celebrated scientists This conception of God likewise yielded the Christian denunciation of slavery as an abomination and some of the fiercest witch hunters were devoted participants in successful abolitionist movements on both sides of the Atlantic *For the Glory of God* is an engrossing narrative that accounts for the very different histories of the Christian and Muslim worlds It fundamentally changes our understanding of religion's role in history and the forces behind much of what we point to as secular progress **History and the Study of Religion** Stanley Stowers,2024

How does one understand religion Can one explain religion How does one understand the craft and discipline

of the historian How can one best bring together the study of religion with the craft and discipline of the historian I am a historian who works in the study of religion and believe that the present intellectual moment offers enormous in some ways unprecedented opportunities both in the study of religion and historiography But at the same time difficulties and dangers loom together with the opportunities My specialty and prime set of examples lie in the study of ancient Mediterranean religion if indeed there is something that can rightly be called Mediterranean religion or even called religion Many specialists in the study of religion and also many of those who study ancient cultures doubt or even reject outright religion as a cross historical category on the one hand and on the other anything common about religion across the ancient Mediterranean And some cognitive scientists who against religion specialists have argued for the centrality of gods to religion then agree with the skeptics that religion is not a coherent social object a social kind I will argue that long discredited forms of anti realism and untenable anthropocentrism haunt both groups Among other areas I work in Christianity and Judaism Do they belong to Mediterranean religion One can easily see how coming to an understanding of what religion is and what Mediterranean religion is form key questions I will argue that religion is a robust realistic entity a social kind and that ancient Mediterranean religion even with all of its great diversity operated with some key common principles It is no secret that Christianity and Judaism have presented themselves as unique and essentially untouched by an inferior and degenerate religiosity that characterized everyone else in the Mediterranean History looks different when one dispenses with such normatively heavy freight and situates the two within rather than outside of Mediterranean religion

Transcendence and Violence John D'Arcy May, 2003-06-19 The first two parts of this book present four detailed historical studies filled with Geertzian thick description of the encounters of Christianity and Buddhism universal religions with a high quotient of transcendence with various primal religious traditions biocosmic or immanentist of the Asian Pacific region namely Aboriginal Australia and Melanesia Christianity and Sri Lanka and Japan Buddhism In each case the encounters represented a failure of the great traditions In the third constructive and theological part of the book the author shows how an acknowledgment of these failures may provide a back door to dialogue

Systematic Atheology John R. Shook, 2017-12-01 Atheology is the intellectual effort to understand atheism defend the reasonableness of unbelief and support nonbelievers in their encounters with religion This book presents a historical overview of the development of atheology from ancient thought to the present

day It offers in depth examinations of four distinctive schools of atheological thought rationalist atheology scientific atheology moral atheology and civic atheology John R Shook shows how a familiarity with atheology s complex histories forms and strategies illuminates the contentious features of today s atheist and secularist movements which are just as capable of contesting each other as opposing religion The result is a book that provides a disciplined and philosophically rigorous examination of atheism s intellectual strategies for reasoning with theology Systematic Atheology is an important contribution to the philosophy of religion religious studies secular studies and the sociology and psychology of nonreligion

The Evangelical Dictionary of World Religions H. Wayne House,2019-02-19 With all of the different religions sects denominations and belief systems out there it can be difficult to separate the facts from mere opinion especially if one is relying solely on online sources which may or may not be vetted and which often have an ideological or political slant to them How can we truly understand if we cannot even be sure we are getting the facts straight In this comprehensive resource more than 75 evangelical scholars offer a thoroughly researched guide to Christianity other world religions and alternative religious views including entries on movements theological terms and major historical figures Perfect for pastors students and anyone who wants ready access to information on today s religious landscape **Christianity and Rabbinic Judaism**

Jonas E. Alexis,2011-12 The simple step of a courageous individual is not to take part in the lie One word of truth outweighs the world Alexander Solzhenitsyn In this penetrating and provocative work Jonas E Alexis challenges common assumptions about the relationship between Christianity and Rabbinic Judaism and provides compelling evidence from history and theology that demonstrates the extent to which modern Judaism has been defined by the Pharisaic and Rabbinic schools of thought As Alexis meticulously documents there has been a constant struggle between Christianity and Rabbinic Judaism since the time of Christ a struggle that will define the destiny of the West Islam according to Christianity is a historically and theologically false religion since it denies both Jesus s deity and His work of salvation at the Cross But Rabbinic Judaism Alexis argues is equally false and in many respects more dangerous to Christianity and the West than Islam since at its root Rabbinic Judaism wages war against the Logos the system of order in the world embodied by Christ In this painstakingly scholarly yet readable work Alexis maintains that Rabbinic Judaism defined by the Pharisaic teachings now codified in the Talmud that Jesus sought to correct is a categorical and metaphysical rejection of Christianity a rejection that has had and will continue to have severe implications for Western culture intellectual history and theological exegesis *The Incarnate Christ and His Critics* Robert M. Bowman Jr.,J. Ed Komoszewski ,2024-11-12 A current comprehensive and clear defense of the deity of Christ The central theological claim of Christianity that Jesus is God incarnate finds eager detractors across a wide spectrum from scholars who interpret Jesus as a prophet angel or guru to adherents of progressive Christianity and non Christian religions and philosophies Yet thorough biblical scholarship strongly supports the historic Christian teaching on the deity of Christ Authors Robert M Bowman Jr and J Ed Komoszewski follow the approach of their landmark 2007 study on the

same topic Putting Jesus in His Place They focus on five pillars of New Testament teaching using the acronym HANDS and demonstrate what both Jesus and the earliest believers recognized namely that Jesus shares in the Honors that are due God Attributes of God Names of God Deeds that God does Seat of God s eternal throne The Incarnate Christ and His Critics engages objections to the divine identity of Jesus from Jehovah s Witnesses Mormons progressive Christians Muslims Unitarians and others Bowman and Komoszewski show how biblical scholarship cannot reasonably ignore the enduring wide ranging and positive case for the deity of Christ *Bearing False Witness* Rodney Stark,2017-03-16 The following historical statements all appear in well established textbooks and have become part of our common culture Which of them would you say are true The Catholic Church incited and actively colluded in nearly two millennia of anti Semitic violence and Pope Pius XII is still rightfully known as Hitler s Pope Only recently have we become aware of ancient and remarkably enlightened Christian gospels which narrow minded Catholic authorities tried to suppress Once in power as the official Church of Rome Christians quickly and brutally persecuted paganism out of existence The fall of Rome and the ascendancy of the Church precipitated Europe s decline into a millennium of ignorance and backwardness which lasted until the Renaissance Initiated by the pope the Crusades were but the first bloody chapter in the history of unprovoked and brutal Christian colonialism The Spanish Inquisition tortured and murdered huge numbers of innocent people for imaginary crimes such as witchcraft and blasphemy The Catholic Church persecuted and tried to suppress scientists such as Galileo and the Scientific Revolution therefore occurred mainly in more tolerant Protestant societies Being entirely comfortable with slavery the Catholic Church did nothing to oppose its introduction in the New World or to make it more humane Until very recently Catholicism s hierarchical view of the ideal state has resulted in its bitter resistance to all efforts to establish more liberal governments and its eager support for right wing dictators It was the Protestant Reformation that broke the repressive Catholic grip on progress and ushered in capitalism religious freedom and the modern world In this powerful and persuasive book Rodney Stark subjects these and other widely held beliefs to a rigorous historical assessment He gives a compelling account of how each of them became accepted as the conventional wisdom how egotism and ideology often worked together to create false or highly distorted pictures of people and events and how we need to work hard to recover the truth if we re to undo the cultural damage that centuries of anti Catholic history has done Contents 1 Sins of Anti Semitism 2 The Suppressed Gospels 3 Persecuting the Tolerant Pagans 4 Imposing the Dark Ages 5 Crusading for Land Loot and Converts 6 Monsters of the Inquisition 7 Scientific Heresies 8 Blessed Be Slavery 9 Holy Authoritarianism 10 Protestant Modernity Monotheism and Fundamentalism Rik Peels,2024-05-09 This Element explores the relation between monotheism and fundamentalism It does so from both an empirical perspective and a more theoretical one that combines theological and philosophical insights The empirical part addresses how as a matter of fact particularly quantitatively monotheism and fundamentalism relate to one another The more theoretical part studies the relation between the two by considering the doctrine of God and the issue of

exclusion theories of revelation and ethics Finally the book considers whether monotheism has particular resources that can be employed in mitigating the consequences of or even altogether preventing fundamentalism This title is also available as Open Access on Cambridge Core
