Futures of Performance Karen Schupp, 2023-08-16 Futures of Performance inspires both current and future artists

academics to reflect on their roles and responsibilities in igniting future forward thinking and practices for the performing arts in higher education The book presents a breadth of new perspectives from the disciplines of music dance theatre and mediated performance and from a range of institutional contexts Chapters from teachers across various contexts of higher education are organized according to the three main areas of responsibilities of performing arts education to academia to society and to the field as a whole With the intention of illuminating the intricacy of how performing arts are situated and function in higher education the book addresses key questions including How are the performing arts valued in higher education How are programs addressing equity What responsibilities do performing arts programs have to stakeholders inside and outside of the academy What are programs ethical obligations to students and how are those met Futures of Performance examines these questions and offers models that can give us some of the potential answers This is a crucial and timely resource for anyone in a decision making position within the university performing arts sector from administrators to educators to those in leadership positions *Sound and Music for the Theatre* Deena Kaye, James LeBrecht, 2015-09-25

Covering every phase of a theatrical production this fourth edition of *Sound and Music for the Theatre* traces the process of sound design from initial concept through implementation in actual performances The book discusses the early evolution of sound design and how it supports the play from researching sources for music and effects to negotiating a contract It shows you how to organize the construction of the sound design elements how the designer functions in a rehearsal and how to set up and train an operator to run sound equipment This instructive information is interspersed with war stores describing real life problems with solutions that you can apply in your own work whether you re a sound designer composer or sound operator *Dynamics of the Singing Voice* Meribeth A. Dayme, 2013-04-17 Every discipline tends to develop its own particular language and ways of communicating This is true also about the various disciplines that talk about and describe the human voice particularly as it relates to singing The aim of this book is to bridge any gaps in communication foster better understanding of the singing voice and encourage collaboration between those involved in performance teaching therapy and medicine Because there is increasing interest in research in all these disciplines creating a common ground for communication about the singing voice is essential for mutual understanding and for effective prevention and treatment of disorders in singers One object for the artistic and scientific professions is to understand each other better by finding a vocabulary and terminology which they can share and use effectively Difficulty in communication often arises when a singer or teacher of singing attempts to describe something sensory in nature by use of imagery and sign language to non singers including the health and medical professions and in the same way the use of obscure and sometimes frightening terminology by those in the medical sciences when offering explanations to singers Teaching and simple language was and is needed from both sides A number of advances are helping to create rapid change in bridging gaps in communication and in adding new information 1 The formation of Associations for Performing Arts Medicine on a national and international scale are bringing

new awareness to those who work with singers and other artists
