Alternative Food Networks for Sustainable, Just, Resilient and Productive Food Systems José Luis Vicente-Vicente, Lukas Egli, Felix Zoll, Simona Zollet,2024-10-01 There is growing evidence that the current globalised agri food system is neither sustainable nor resilient It is responsible for around one third of the global GHG emissions and is a major driver of biodiversity loss Furthermore its structure and distribution mode do not provide food security for all and foster socio economic inequalities between different parts of the planet Consequently an increasing number of scientists and members of the civil society are demanding a radical transformation of agri food systems The creation of alternative food networks AFNs represent a possible first step towards agri food system transformation AFNs can incorporate local indigenous and innovative
