Online Collins Big Arabic Have Nothing:

Arab Spring and Peripheries Daniela Huber, Lorenzo Kamel, 2018-10-11 The emerging literature on the so called Arab Spring has largely focused on the evolution of the uprisings in cities and power centres In order to reach a more diversified and inner understanding of the Arab Spring this edited book examines how peripheries have reacted and contributed to the historical dynamics at work in the Middle East and North Africa It rejects the idea that the Arab Spring is a unitary process and shows that it consists of diverse Springs which differed in terms of opportunity structure strategies of a variance of actors and outcomes This book looks at geographical religious gender and ethnical peripheries conceptualizing periphery as a dynamic structure which can expand and contract It shows that the seeds for changing the face of politics and polities are within peripheries themselves Focusing on the voices of peripheries can therefore be a powerful tool to de simplify the reading of the Arab Spring and to reshape the paradigmatic schemes through which to look at this part of the world This book was published as a special issue of Mediterranean Politics

Usurping Suicide Professor Suman Gupta, Milena Katsarska, Theodoros A. Spyros, Mike Hajimichael, 2017-08-15 Can an individual act of suicide be socially significant or does it present too many imponderable features This book examines suicide like no other Unconcerned with the individual dispositions that lead a person to commit such an act Usurping Suicide focuses on the reception suicides have produced their political social and cultural implications How does a particular act of suicide enable a collective significance to be attached to it And what contextual circumstances predispose a politicised public response From Mohamed Bouazizi s self immolation during regime change in Tunisia to Dimitris Christoulas s public shooting at a time of increased political upheaval in Greece and beyond this remarkable work examines how the individuality of the act of suicide poses a disturbing symbolic conundrum for the dominant liberal order

Dalits Anand Teltumbde, 2016-08-19 This book is a comprehensive introduction to dalits in India who comprise over one sixth of the country's population from the origins of caste system to the present day Despite a plethora of provisions for affirmative action in the Indian Constitution dalits are largely excluded from the mainstream except for a minuscule section The book traces the multifarious changes that befell them during the colonial period and their development thereafter under the leadership of Babasaheb Ambedkar in the centre of political arena It looks at hitherto unexplored aspects of the degeneration of the dalit movement during the post Ambedkar period as well as salient contemporary issues such as the rise of the Bahujan Samaj Party dalit capitalism the occupation of

dalit discourse by NGOs neoliberalism and its impact and the various implicit or explicit emancipation schemas thrown up by them The work also discusses ideology strategy and tactics of the dalit movement touches upon one of the most contentious issues of increasing divergence between the dalit and Marxist movements and delineates the role of the state both colonial and post colonial in shaping dalit politics in particular ways A tour de force this book brings to the fore many key contemporary concerns and will be of great interest to students scholars and teachers of politics and political economy sociology history social exclusion studies and the general reader **The British Printer** ,1909 **The Listener** ,1956

Globalization Development and Social Justice Ann El Khoury,2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology anthropology and development studies **Peninsular Methodist** ,1891
