Online Oxford Studies Ancient Philosophy 49:

Oxford Studies in Ancient Philosophy, Volume 54 Victor Caston, 2018-06-28 Volume LIV contains an article on the equal sticks argument for Forms in Plato's *Phaedo* an article on why Plato abandoned the Socratic method and another on the cognition of the world soul in the *Timaeus* two articles on Aristotle's *Posterior Analytics* one on the prohibition against kind crossing the other on the requirements for a middle term's being an explanatory cause an article on the mixture of elemental qualities in Aristotle's *On Generation and Corruption* 2.7 and another on First Philosophy in *Metaphysics* Lambda and an article on Alexander of Aphrodisias use of dialectical method in his treatises *On Fate* and *On Providence* [Oxford Studies in Ancient Philosophy](#) Brad Inwood, 2015 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy The articles may be of substantial length and include critical notices of major books [Oxford Studies in Ancient Philosophy, Volume 58](#) Victor Caston, 2020-09-10 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy The articles may be of substantial length and include critical notices of major books OSAP is now published twice yearly in both hardback and paperback Have you seen the latest OSAP is what scholars of ancient philosophy say to each other when they meet in corridors or on coffee breaks Whether you work on Plato or Aristotle on Presocratics or sophists on Stoics Epicureans or Sceptics on Roman philosophers or Greek Neoplatonists you are liable to find OSAP articles now dominant in the bibliography of much serious published work in your particular subject not safe to miss Malcolm Schofield Cambridge University OSAP was founded to provide a place for long pieces on major issues in ancient philosophy In the years since it has fulfilled this role with great success over and over again publishing groundbreaking papers on what seemed to be familiar topics and others surveying new ground to break It represents brilliantly the vigour and the increasingly broad scope of scholarship in ancient philosophy and shows us all how the subject should flourish M M McCabe King's College London **Praxis - Handeln und Handelnde in antiker Philosophie** Friedemann Buddensiek, Sebastian Odzuck, 2022-12-19 Die antike Philosophie bietet eine differenzierte Diskussion zu Akteuren und handlungstheoretischen Fragen Die deutschen und englischen Beiträge des Bandes geben einen Einblick in die Reichhaltigkeit dieser Diskussion vom 5. Jahrhundert vor unserer Zeit bis zur Spätantike mit einem Schwerpunkt auf Aristoteles Diskutiert werden zum einen Fragen zu den rationalen und arationalen seelischen Faktoren die antiken Philosophen zufolge dem Handeln zugrunde liegen Diskutiert werden zum anderen Fragen zum Verhältnis von Handelnden Handlungen und Handlungszielen Zwei antike Überlegungen werden hier besonders in den Blick genommen Handlungen sind Ausdruck dessen was sich den Handelnden in ihrer seelischen Verfasstheit als zu erstrebendes Gut darstellt Zugleich gibt es objektive Maßstäbe für das Gut Sein des Ziels und die Angemessenheit der Mittel die es für ethisch richtiges Handeln auch angesichts von Unwägbarkeiten der Handlungsumstände richtig zu erfassen gilt Diskutiert werden schließlich Fragen zur handlungsrelevanten Rationalität und zum Handeln in der Gemeinschaft Die Band leistet einen Beitrag zur anhaltenden

Forschungsdiskussion zu handlungs und akteurstheoretischen Fragen in der antiken Philosophie **The Routledge Handbook of Hellenistic Philosophy** Kelly Arenson, 2020-06-09 Hellenistic philosophy concerns the thought of the Epicureans Stoics and Skeptics the most influential philosophical groups in the era between the death of Alexander the Great 323 BCE and the defeat of the last Greek stronghold in the ancient world 31 BCE The Routledge Handbook of Hellenistic Philosophy provides accessible yet rigorous introductions to the theories of knowledge ethics and physics belonging to each of the three schools explores the fascinating ways in which interschool rivalries shaped the philosophies of the era and offers unique insight into the relevance of Hellenistic views to issues today such as environmental ethics consumerism and bioethics Eleven countries are represented among the Handbook's 35 authors whose chapters were written specifically for this volume and are organized thematically into six sections The people history and methods of Epicureanism Stoicism and Skepticism Earlier philosophical influences on Hellenistic thought such as Aristotle Socrates and Presocratics The soul perception and knowledge God fate and the primary principles of nature and the universe Ethics political theory society and community Hellenistic philosophy's relevance to contemporary life Spanning from the ancient past to the present this Handbook aims to show that Hellenistic philosophy has much to offer all thinking people of the twenty first century

Oxford Studies in Ancient Philosophy, Volume 44 Brad Inwood, 2013-06-27 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy The articles may be of substantial length and include critical notices of major books OSAP is now published twice yearly in both hardback and paperback The serial Oxford Studies in Ancient Philosophy OSAP is fairly regarded as the leading venue for publication in ancient philosophy It is where one looks to find the state of the art That the serial which presents itself more as an anthology than as a journal has traditionally allowed space for lengthier studies has tended only to add to its prestige it is as if OSAP thus declares that since it allows as much space as the merits of the subject require it can be more entirely devoted to the best and most serious scholarship Michael Pakaluk Bryn Mawr Classical Review *Platonism* Herbert Hrachovec, Jakub Mácha, 2024-07-01 The clean separation between manifold phenomena and a systematic order that prevails in them is a basic feature of the rational scientific orientation system The first authoritative formulation of this premise is found in Plato His discussion of constitutive forms of world events has initiated a broad development in the history of philosophy which is also effective today in the preference for reason guided analyses of often confusing circumstances The authors of this volume address the lasting relevance of this idea within two interrelated areas of research namely Plato scholarship and contemporary Platonism Of particular interest is the relationship between Plato and Wittgenstein Following this overall idea this volume is divided into three sections Plato scholarship Platonism and Plato and Wittgenstein As the contributions show Platonism proves to be not only a purely historical exegetical field of research but rather a fruitful stimulus for contemporary discussions on logical linguistic and social topics **Web 2.0 for Schools** Julia Alison Davies, 2009 In the last five years Web 2.0 applications vast virtual worlds

multiplayer online games social networking and file sharing among them have inspired new notions of what it might mean to be literate in the twenty first century While previous scholarship on Web 2 0 has focused on its social and recreational uses this book explores its ability to enrich and transform the educational experience of children and young people It discusses the opportunities and risks presented by this large scale shift in popular engagement with new media and uses illustrative vignettes to document the work of innovative educators who construct new ways of thinking and being around Web 2 0

Deleuze and Ancient Greek Physics Michael James Bennett, 2017-07-27 In 1988 the philosopher Gilles Deleuze remarked that throughout his career he had always been circling around a concept of nature Providing critical analysis of his highly original readings of Stoicism Aristotle and Epicurus this book shows that it is Deleuze s interpretations of ancient Greek physics that provide the key to understanding his conception of nature Using the works of Aristotle Plato Chrysippus and Epicurus Michael Bennett traces the development of Deleuze s key concepts of event difference and problem Arguing that it is difficult if not impossible to fully understand these ideas without an appreciation of Deleuze s Hellenistic influences *Deleuze and Ancient Greek Physics* situates his commentaries in the context of contemporary scholarship on ancient Greek philosophy Delving into the original Greek and Latin texts this book shows that Deleuze s readings are more complex and controversial than they first appear simultaneously advancing Deleuze as a new voice in interpretations of ancient Greek philosophy Generating both new critical analyses of Deleuze and a new appreciation for his classical erudition *Deleuze and Ancient Greek Physics* will be a valuable resource for anyone interested in ancient Greek philosophy Deleuze s philosophical project or his unique methodology in the history of philosophy

Authority and Authoritative Texts in the Epicurean

Tradition Michael Erler, Jan Erik Heßler, Petrucci Federico M., 2023-10-09 Schwabe Epicurea Herausgegeben von Michael Erler und Wolfgang Rother In dieser Reihe erscheinen Texte Kommentare und Studien zu Epikur und zur epikureischen Tradition bis zur Neuzeit Dem wissenschaftlichen Beirat gehören an Graziano Arrighetti Pisa Jürgen Hammerstaedt K In Carlos Levy Paris Anthony A Long University of California Berkeley Francesca Longo Auricchio Napoli Antony McKenna Saint-tienne Günther Mensching Hannover Martin Mulsow Erfurt Dirk Obbink Oxford Gianni Paganini Vercelli David Sedley Christ's College Cambridge Edoardo Tortarolo Vercelli Die Reihe ist offen für die internationale Forschung Die Bücher können in

Deutsch Englisch Französisch oder Italienisch abgefasst werden *Atomism in Philosophy* Ugo Zilioli, 2020-11-12 The nature of matter and the idea of indivisible parts has fascinated philosophers historians scientists and physicists from antiquity to the present day This collection covers the richness of its history starting with how the Ancient Greeks came to assume the existence of atoms and concluding with contemporary metaphysical debates about structure time and reality Focusing on important moments in the history of human thought when the debate about atomism was particularly flourishing and transformative for the scientific and philosophical spirit of the time this collection covers The discovery of atomism in ancient philosophy Ancient non Western Arabic and late Medieval thought The Renaissance when along with the re discovery of

ancient thought atomism became once again an important doctrine to be fully debated Logical atomism in early analytic philosophy with Russell and Wittgenstein Atomism in Liberalism and Marxism Atomism and the philosophy of time Atomism in contemporary metaphysics Atomism and the sciences Featuring 28 chapters by leading and younger scholars this valuable collection reveals the development of one of philosophy's central doctrines across 2 500 years and within a broad range of philosophical traditions

Plato's Cratylus, 2021-11-29 The present volume offers a collection of papers on one of Plato's most intriguing dialogues Although not a running commentary the book covers the majority of difficult questions raised by the dialogue in which the subjects of language and ontology are tied closely together It shows why Plato's Cratylus has been highly regarded among readers interested in ancient philosophy and those concerned with modern semantics and theory of language This collection also presents original views on the position of the dialogue in the whole Plato's oeuvre and in the context of Plato's contemporaries and successors

The Problem of Evil in the Ancient World Mark Edwards, 2023-06-22 The aim of this book is to ascertain how ancient Greek and Latin authors both pagan and Christian formulated and answered what is now called the problem of evil The survey ranges chronologically from the classical and Hellenistic eras through the Roman era to the end of the pagan world Six of the twelve chapters are devoted to Christianity including Manichaeism as one thesis of the book is that the problem of evil takes an acute form only for Christians since no other philosophy of antiquity posits a personal God exercising providence over individuals without having to overcome countervailing forces None the less it will also be shown that Greek philosophies Platonism in particular come close to the Christian formulation Being conscious of the affinity between Greek thought and their own early Christians respond to the problem of evil in the same way as the philosophers by questioning the existence of evil rather than of the divine

Uncertainty in Medicine Paul K. J. Han, 2021 Introduction The Challenge of Uncertainty in Medicine The Nature and Etiology of Uncertainty The Anatomy of Uncertainty The Natural History of Uncertainty The Management of Uncertainty A Way Forward Systematizing Uncertainty Tolerance

Trials of Reason David Wolfsdorf, 2008-01-22 The study focuses on a set of fourteen so called early dialogues beginning with a methodological framework that explains how to integrate the argumentation and the drama in these texts Unlike most canonical philosophical works the early dialogues do not merely express the results of the practice of philosophy Rather they dramatize philosophy as a kind of motivation the desire for knowledge of goodness They dramatize philosophy as a discursive practice motivated by this desire and ideally governed by reason And they dramatize the trials to which desire and reason are subject that is the difficulties of realizing philosophy as a form of motivation a practice and an epistemic achievement In short Trials of Reason argues that Plato's early dialogues are as much works of meta philosophy as philosophy itself

Explorations in Ancient and Modern Philosophy: Volume 4 Myles Burnyeat, 2022-03-31 Myles Burnyeat 1939 2019 was a major figure in the study of ancient Greek philosophy during the last decades of the twentieth century and the first of this After teaching positions in London and Cambridge where he

became Laurence Professor in 1996 he took up a Senior Research Fellowship at All Souls College Oxford from which he retired in 2006 In 2012 he published two volumes collecting essays dating from before the move to Oxford Two new posthumously published volumes bring together essays from his years at All Souls and his retirement The essays in Volume 4 are addressed principally to scholars engaging first with fundamental issues in Platonic and Aristotelian metaphysics and epistemology and in Aristotle's philosophical psychology Then follow studies tackling problems in interpreting the approaches to physics and cosmology taken by Plato and Aristotle and in assessing the evidence for early Greek exercises in optics

A Reference Guide for English Studies Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner's Literary Research Guide Modern Language Assn of America 1989 larger academic libraries will want Marcuse's volume Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal

Encyclopedia of Humor Studies Salvatore Attardo, 2014-02-25 The Encyclopedia of Humor Studies explores the concept of humor in history and modern society in the United States and internationally This work's scope encompasses the humor of children adults and even nonhuman primates throughout the ages from crude jokes and simple slapstick to sophisticated word play and ironic parody and satire As an academic social history it includes the perspectives of a wide range of disciplines including sociology child development social psychology life style history communication and entertainment media Readers will develop an understanding of the importance of humor as it has developed globally throughout history and appreciate its effects on child and adult development especially in the areas of health creativity social development and imagination This two volume set is available in both print and electronic formats Features Benefits The General Editor also serves as Editor in Chief of HUMOR International Journal of Humor Research for The International Society for Humor Studies The book's 335 articles are organized in A to Z fashion in two volumes approximately 1 000 pages This work is enhanced by an introduction by the General Editor a Foreword a list of the articles and contributors and a Reader's Guide that groups related entries thematically A Chronology of Humor a Resource Guide and a detailed Index are included Each entry concludes with References Further Readings and cross references to related entries The Index Reader's Guide themes and cross references between and among related entries combine to provide robust search and browse features in the electronic version This two volume A to Z set provides a general non technical resource for students and researchers in such diverse fields as communication and media studies sociology and anthropology social and

Benovsky,2018-09-03 In *Eliminativism Objects and Persons* Jiri Benovsky defends the view that he doesn't exist In this book he also defends the view that this book itself doesn't exist But this did not prevent him to write the book and although in Benovsky's view you don't exist either this does not prevent you to read it Benovsky defends a brand of non exceptionalist eliminativism Some eliminativists typically focusing on ordinary material objects such as chairs and hammers make exceptions for instance for blue whales that is living beings or for persons that is conscious organisms Benovsky takes one by one all types of allegedly existing objects like chairs whales and persons and shows that from the metaphysical point of view they are more trouble than they are worth we are much better off without them He thus defends an eliminativist view about ordinary objects as well as the no Self view where he explores connections between metaphysics phenomenology and Buddhist thought He then also considers the case of aesthetic objects focusing on musical works and photographs and shows that the claim of their non existence solves the many problems that arise when one tries to find an appropriate ontological category for them and that such an eliminativist view is more natural than what we might have thought The arguments provided here are always topic specific each type of entity is given its own type of treatment thus proving a varied and solid foundation for a generalized non exceptionalist full blown eliminativist worldview **The Company Democracy Model**

Evangelos Markopoulos,Hannu Vanharanta,2022-03-14 Company democracy is often misunderstood in the business context as democracy is usually related to politics In this book the authors present a different dimension They focus first on democracy from an organizational culture perspective and then offer employees opportunities to understand and apply democracy from the company floor level The Company Democracy Model CDM is an industry wide practical methodology for knowledge management utilization under applied philosophical thinking The model progresses through a framework in which an organizational evolutionary spiral method empowers the creation of knowledge based democratic cultures for wise and effective strategic management and leadership This new innovative methodology supported with techniques and processes can gain create many ideas insights innovations new products and services that can benefit a company One purpose of using the model is to create a robust conceptual framework as a theoretical basis for a business strategy that promotes sustainable continuous and democratic development Another purpose is to emphasize the importance of intellectual capital and compare

capital related and human related business issues in shaping a company s competitiveness profitability productivity performance and shared value A third purpose is to use its symbolic infrastructure that builds solid democratic systems for viable business development and management Finally the described purposes give the reader new ideas to change and improve the design of business activities in a collective and modern democratic way

Decoding **Online Oxford Studies Ancient Philosophy 49**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Online Oxford Studies Ancient Philosophy 49**," a mesmerizing literary creation penned by a celebrated wordsmith, readers attempt an enlightening odyssey, unraveling the intricate significance of language and its enduring affect our lives. In this appraisal, we shall explore the book is central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
