Online Democracy Black Still Enslaves American:

Von Selma bis Ferguson - Rasse und Rassismus in den USA Michael Butter, Astrid Franke, Horst Tonn, 2016-09-15

Was ist aus Martin Luther Kings Vision von einem Amerika der Gleichheit Gerechtigkeit und Selbstbestimmung geworden Fünfzig Jahre später haben die USA einerseits ihren ersten afroamerikanischen Präsidenten gewählt andererseits ist die Alltagserfahrung von Afroamerikanerinnen nach wie vor von Polizei Brutalität Ausgrenzung und Rassismus geprägt Die Beiträgerinnen gehen den Spuren nach welche die Bürgerrechtsbewegung in den USA hinterlassen hat und fragen was Rassismus heute bedeutet Die kultur und sozialwissenschaftlichen Artikel stellen zudem aktuelle Organisationsformen und Strategien von politischer Partizipation Protest und Widerstand vor **Racist, Not Racist, Antiracist** Leland Harper, Jennifer Kling, 2022-10-03 Hey that was kind of racist I'm not a racist I have Black friends This exchange highlights a problem with how people in the United States tend to talk about racially tricky situations As Racist Not Racist Antiracist Language and the Dynamic Disaster of American Racism explores such situations are ordinarily categorized as either racist or not racist or in other cases as antiracist The problem is there are often situations that are racially not good but that we do not want to categorize as racist either However since we don't have the language to describe this in between we are forced to fall back on the racist not racist antiracist trinary which tends to shut down productive discussion This is especially true for white people who tend to take claims of racism be they interpersonal or institutional as a personal attack This is problematic not only because it means that white people never learn about their own racially troubling behaviors but also because such fragility keeps them from being able to engage in productive discussions about systemic racial oppression Leland Harper and Jennifer Kling demonstrate how expanding our racial vocabulary is crucial for the attainment of justice equally enjoyed by all

Race and Space Lisa Leitz, 2022-10-24 Emphasising location specific human experience and incorporating insights from geography *Race and Space*'s careful study of the differences of physical spaces gives rise to more complete explanations for social issues and variances in social movements *The Sociology of African American Patriotism* Yoshito Ishio, 2025-06-27 This book offers a sociological examination of the reasons why African Americans feel love toward their country in spite of continuing to perceive or experience racial prejudice and discrimination against themselves and other African Americans Dr Ishio conducted face to face in depth interviews with college educated African Americans in Texas between 2014 and 2015 The main conclusion of this study is that contradictory trends marked by persistent racism and racial progress combined with the effects of Christian faith practice fostered in the Black Church and the effects of foundational principles of the United States have molded a distinctive form of patriotism among African Americans for whom this country is their homeland This book presents an insightful analysis by a Japanese sociologist Every important finding in this book is supported by interviewees statements making it easy for readers to follow the points being made and to understand African Americans perspectives Numerous interviewees statements are judiciously inserted so that readers can virtually hear interviewees

voices describing their experiences and views A unique study of African Americans and their feelings of patriotism it will appeal to scholars and researchers with interests in the sociology of race and ethnicity Black studies and the sociology of religion

Faith and Struggle in the Lives of Four African Americans Randal Maurice Jelks, 2019-01-10 In 1964 Muhammad Ali said of his decision to join the Nation of Islam I know where I m going and I know the truth and I don t have to be what you want me to be I m free to be what I want to be This sentiment the brash assertion of individual freedom informs and empowers each of the four personalities profiled in this book Randal Maurice Jelks shows that to understand the Black American experience beyond the larger narratives of enslavement emancipation and Black Lives Matter we need to hear the individual stories Drawing on his own experiences growing up as a religious African American he shows that the inner history of Black Americans in the 20th century is a story worthy of telling This book explores the faith stories of four African Americans Ethel Waters Mary Lou Williams Eldridge Cleaver and Muhammad Ali It examines their autobiographical writings interviews speeches letters and memorable performances to understand how each of these figures used religious faith publicly to reconcile deep personal struggles voice their concerns for human dignity and reinvent their public image For them liberation was not simply defined by material or legal wellbeing but by a spiritual search for community and personal wholeness

Insurrections Henry A. Giroux, 2023-01-26 With this book Henry A Giroux argues that insurrection has become a dominant motif for the USA and other countries torn between the promises and ideals of democracy and an emergent authoritarianism He argues that education is central to the idea of insurrection showing how on the one hand it contributes to an insurrectional authoritarianism wedded to a fascist legacy that calls for racial purity militarism ultra nationalism and state terrorism On the other hand he presents the idea of insurrectional democracy which has a long legacy in the battle for racial justice economic equality and a politics of inclusion The book explores how both positions are motivated by specific visions values and particular understandings of education and agency He also shows how powerful images social media and the internet are in merging political education power and cultural politics Giroux makes an impassioned call for an insurrectional democracy that makes education central to politics and produces an anti capitalist consciousness as the basis for developing a mass movement in defence of a radical democracy

The Oxford Handbook of W. E. B. Du Bois Aldon D. Morris, Michael Schwartz, Cheryl Johnson-Odim, Walter R Allen, Marcus Anthony Hunter, Karida L Brown, Dan S Green, 2024 The wide ranging work of W E B Du Bois critical to understanding the role that race has played in creating the modern world we find around us mostly has been ignored or hidden from sociological researchers until after the civil rights movement in the U S As a result one of the key goals of The Oxford Handbook of W E B Du Bois is to reclaim Du Bois from those efforts to marginalize his thought The chapters of this volume explore in a comprehensive manner all aspects of Du Boisian sociology It is organized into ten thematic sections Social Theory Change and Agency Sociology Social Science Humanities Public Intellectual Women and Gender Studies Methodologies and Archival Resources Black Interiority and Whiteness Color Line

Empire Marxism and War Talented Tenth and Black Colleges and Universities Black Community Religion Crime and Wealth Internationalism Pan Africanism and Anti Colonialism Gratuitous Angst in White America Deena A. Isom, 2023-12-19

Gratuitous Angst in White America presents a new criminological theory that explains the racialized experiences of white people Unlike orthodox traditions that assume whiteness as normative or progressive traditions that center the experiences of the marginalized and oppressed the theory of whiteness and crime flips those perspectives and turns a lens toward white people s lived experiences and the ideologies of whiteness The theory of whiteness and crime answers two overarching questions How does being white impact one s likelihood of engaging in deviant criminal and or violent behaviors And why are white people treated differently than other racial and ethnic groups by the criminal legal system Through the application of a critical whiteness perspective to criminology the theory of whiteness and crime is an intersectional and integrated framework that explains within and between group differences in negative behaviors and entanglements with the criminal legal system This book examines the racialized history of America to contextualize the current racial strife in society and inform a more nuanced theoretical approach to explaining disparities The reader will gain a socio historical understanding of the depths of the current divides and insight into how such are perpetuated and potentially dismantled Students will see connections between various theoretical traditions and an application of theory to current social conditions Researchers will acquire a new theoretical foundation and propositions to ground empirical work that will fill extensive gaps in the criminological literature And policy makers will see how oversights in understanding the depths of historical significance perpetuate and increase disparities and disadvantages which are counter to a pursuit of justice Written in a compelling and direct way this book will appeal to those in criminology sociology race and ethnic studies gender and sexuality studies political science cultural studies psychology criminal justice law and beyond Gratuitous Angst in White America is essential for those seeking a more complete understanding of the associations between race and crime and those who want to remedy those disparities In the end it is more than a new theory of crime it is a call to action for all willing to hear African Diaspora Literacy

Lamar L. Johnson, Gloria Boutte, Gwenda Greene, Dywanna Smith, 2018-11-28 This book demonstrates the application of African Diaspora Literacy in K 12 schools and teacher education programs The book emerged from a four week Fulbright Hays Group Abroad project to Cameroon West Africa which was focused on African Diaspora Literacy The project was guided by the African principle of Ubuntu I am because we are The 15 member team was comprised of eight faculty members representing five universities Benedict College Michigan State University South Carolina State University South University and the University of South Carolina one community member two K 12 administrators and four K 12 teachers from high need schools The inclusion of such a diverse group of participants in the Kamtok project e g professors K 12 teachers community members lent itself to producing rich data that captured both the intellectual scholarship and layperson s experience with equilateral consideration The purpose of the project was to gain firsthand knowledge artifacts documents experiences and

resources to be used in the development implementation and dissemination of curricula to be used in K 12 schools and university classrooms to more effectively prepare educators to teach African American students Focusing specifically on the language history politics economics religion and cultural traditions of people in the African Diaspora e g U S Africa Caribbean the Americas Europe Asia this book illuminates critical information typically missing from K 12 schools and teacher education and English curricula Chapters are written by scholars from Cameroons as well as those from the U S The book represents a lovely compilation of application theory and research The book explores how African Diaspora Literacy can be used to heal the endemic physical symbolic linguistic curricula pedagogical and system violence that African American children and youth experience in schools and in society Radical Empathy Terri E. Givens, 2022-02-14 Renowned political scientist Terri Givens calls for radical empathy in bridging racial divides to understand the origins of our biases including internalized oppression Deftly weaving together her own experiences with the political she offers practical steps to call out racism and bring about radical social change **The Sociology of W. E. B. Du Bois** José Itzigsohn, Karida L. Brown, 2020-03-24 The first comprehensive understanding of Du Bois for social scientists The Sociology of W E B Du Bois provides a comprehensive introduction to the founding father of American sociological thought Du Bois is now recognized as a pioneer of American scientific sociology and as someone who made foundational contributions to the sociology of race and to urban and community sociology However in this authoritative volume noted scholars Jos Itzigsohn and Karida L Brown provide a groundbreaking account of Du Bois s theoretical contribution to sociology or what they call the analysis of racialized modernity Further they examine the implications of developing a Du Boisian sociology for the practice of the discipline today The full canon of Du Bois s sociological works spans a lifetime of over ninety years in which his ideas evolved over much of the twentieth century This broader and more systematic account of Du Bois s contribution to sociology explores how his theories changed evolved and even developed to contradict earlier ideas Careful parsing of seminal works provides a much needed overview for students and scholars looking to gain a better grasp of the ideas of Du Bois in particular his understanding of racialized subjectivity racialized social systems and his scientific sociology Further the authors show that a Du Boisian sociology provides a robust analytical framework for the multilevel examination of individual level processes such as the formation of the self and macro processes such as group formation and mobilization or the structures of modernity key concepts for a basic understanding of sociology *Democratic Anarchy* Matthew Scully, 2024-07-02 A dramatic and necessary rethinking of the meaning of Democracy Democratic Anarchy grapples with an uncomfortable but obvious truth inimical to democracy both aesthetics and politics depend on the structuring antagonism of inclusion and exclusion Yet in Democratic Anarchy Matthew Scully asks how can the people be represented in a way that acknowledges what remains unrepresentable What would it mean to face up to the constitutive exclusions that haunt U S democracy and its anxious fantasies of equality Synthesizing a broad range of theoretical traditions and interlocutors including Lacan Ranci re Edelman

and Hartman Democratic Anarchy polemically declares that there has never been nor can there ever be a realized democracy in the U S because democracy always depends on the hierarchical institution of a formal order by one part of the population over another Engaging with an expansive corpus of American literature and art Harriet Jacobs Nathaniel Hawthorne Louis Zukofsky Thomas Pynchon Toni Morrison Theresa Hak Kyung Cha Nari Ward Ocean Vuong and Safiya Sinclair Democratic Anarchy argues that many liberal concepts and institutions are in fact structurally opposed to democratic equality because they depend on regulating what can appear and in what form By focusing on works that disrupt this regulatory impulse Scully shows how rhetorical strategies of interruption excess and disorder figure the anarchic equality that inegalitarian fantasies of democracy disavow Democratic Anarchy develops a rigorous theory of equality that refuses to repeat the inequalities against which it positions itself and it does so by turning to moments of resistance both aesthetic and political inaugurated by the equality that inheres in and antagonizes the order of things *W.E.B. Du Bois* Elvira

Basevich,2020-10-22 W E B Du Bois spent many decades fighting to ensure that African Americans could claim their place as full citizens and thereby fulfill the deeply compromised ideals of American democracy Yet he died in Africa having apparently given up on the United States In this tour de force Elvira Basevich examines this paradox by tracing the development of his life and thought and the relevance of his legacy to our troubled age She adroitly analyses the main concepts that inform Du Bois s critique of American democracy such as the color line and double consciousness before examining how these concepts might inform our understanding of contemporary struggles from Black Lives Matter to the campaign for reparations for slavery She stresses the continuity in Du Bois s thought from his early writings to his later embrace of self segregation and Pan Africanism while not shying away from assessing the challenging implications of his later work This wonderful book vindicates the power of Du Bois s thought to help transform a stubbornly unjust world It is essential reading for racial justice activists as well as students of African American philosophy and political thought *W.E.B. Du Bois and the Critique of the Competitive Society* Andrew J. Douglas,2019 Competition and competitiveness are roundly celebrated as public values and key indicators of a dynamic and forward thinking society But the headlong embrace of competitive market principles increasingly prevalent in our neoliberal age often obscures the enduring divisiveness of a society set up to produce winners and losers In this inspired and thoughtfully argued book Andrew J Douglas turns to the later writings of W E B Du Bois to reevaluate the very terms of the competitive society Situating Du Bois in relation to the Depression era roots of contemporary neoliberal thinking Douglas shows that into the 1930s Du Bois ratcheted up a race conscious indictment of capitalism and liberal democracy and posed unsettling questions about how the compulsory pull of market relations breeds unequal outcomes and underwrites the perpetuation of racial animosities Blending historical analysis with ethical and political theory and casting new light on several aspects of Du Bois s thinking this book makes a compelling case that Du Bois s sweeping disillusionment with Western liberalism is as timely now as ever *A Political Companion to W. E. B. Du Bois* Nick

Bromell,2018-03-16 Literary scholars and historians have long considered W E B Du Bois 1868 1963 an extremely influential writer and a powerful cultural critic The author of more than one hundred books hundreds of published articles and founding editor of the NAACP journal The Crisis Du Bois has been widely studied for his profound insights on the politics of race and class in America An activist as well as a scholar Du Bois proclaimed I stand in utter shamelessness and say that whatever art I have for writing has been used always for propaganda for gaining the right of black folk to love and enjoy In A Political Companion to W E B Du Bois Nick Bromell assembles essays from both new and established scholars from a variety of disciplines to explore Du Bois s contributions to American political thought The contributors establish a conceptual context within which to read the author revealing how richly and variously he engaged with the aesthetic and theological modalities of political thinking and action This volume further reveals how Du Bois s work challenges and revises contemporary political theory providing commentary on the author s strengths and limitations as a theorist for the twenty first century In doing so it helps readers gain an understanding of how Du Bois s work and life continue to stimulate lively and constructive debate about the theory and practice of democracy in America

Pedagogy of Resistance Henry A. Giroux,2022-03-24 Henry A Giroux argues that education holds a crucial role in shaping politics at a time when ignorance lies and fake news have empowered right wing groups and created deep divisions in society Education with its increasingly corporate and conservative based technologies is partly responsible for creating these division It contributes to the pitting of people against each other through the lens of class race and any other differences that don t embrace White nationalism Giroux s analysis ranges from the pandemic and the inequality it has revealed to the rise of Trumpism and its afterlife and to the work of Paulo Freire and how his book Pedagogy of Hope can guide us in these dark times and help us produce critical and informed citizens He argues that underlying the current climate of inequity isolation and social atomization all exacerbated by the pandemic is a crisis of education Out of this comes the need for a pedagogy of resistance that is accessible to everyone built around a vision of hope for an alternative society rooted in the ideals of justice equality and freedom
