Online Generation Radical Educational Change Stories:

Negotiating Neoliberalism Tim Rudd, Ivor F. Goodson, 2017-01-28 Following the financial crises in 2007 we have seen the intensification of neoliberal policies in education with radical and potentially irrevocable shifts in the educational landscape promoted under the auspices of austerity This book highlights the central features of neoliberal education policies their origins recent developments and also their inherent weaknesses and flaws It provides insights into the day to day realities and negative impacts of recent policies on the professional practice and work of educators demonstrating how the changing conditions have led to de professionalisation alienation and a loss of professional autonomy and identity The book also provides a set of accounts that detail the new realities emerging as a result of austerity policies and questions the degree to which austerity has actually been developed as an ideological cover story for the further monetisation and privatisation of public services The various chapters challenge the common assumption that the neoliberal project is a monolithic orthodoxy by highlighting its complexities variations and contradictions in the ways policies are refracted through action and practice in different contexts The book also challenges the common assumption that there are no viable alternatives to neoliberal education policies and does so by presenting a range of different examples theoretical perspectives discourses and alternative practices It is argued that such alternatives not only highlight the range of different approaches choices and possibilities but also provide the seedbed for a reimagined educational future The authors offer a range of conceptual and theoretical insights and analyses that highlight the weaknesses and limitations inherent within the neoliberal education project and also illustrate the dangers in following the prevailing hegemonic discourse and trajectories It is postulated that alternative educational approaches warrant greater and urgent attention because history suggests that rather than having weathered the recent economic crisis we may well be witnessing the long tail of decline for the neoliberal project This book will be useful for educators researchers students and policy makers interested in the detrimental effects of neoliberal education the range of viable alternatives and the routes to resistance and ways of reimagining alternative educational futures

Developing the Expertise of Primary and Elementary Classroom Teachers Tony

Eaude, 2018-01-25 Developing the Expertise of Primary and Elementary Classroom Teachers challenges many current assumptions about primary education Tony Eaude uses international research and the experiences of teachers at different career phases to indicate that primary classroom teachers with a high level of expertise adopt a wide repertoire of strategies and a flexible reciprocal and intuitive approach to planning assessment and teaching He explores why a deep understanding of how young children learn the ability to create an inclusive environment relationships of care and trust and teachers who are attuned to children are essential Eaude argues that to develop qualities such as confidence and resilience to exercise informed intuition and to create a robust professional identity many constraints on manifesting expertise some of which are emotional some more structural must be overcome Drawing on the research on professional learning Eaude shows that these

abilities and qualities are learned over time through regular sustained contextualised opportunities relating theory and practice with the years soon after qualification particularly significant He highlights that the professional knowledge and judgement required in complex changing situations is acquired and refined mainly through guided practice and experience backed by reflection and engagement with research The need for supportive professional learning communities and for policy which encourages primary classroom teachers enthusiasm creativity and willingness to innovate is emphasised and an enriched apprenticeship model using a variety of processes including observation of other teachers practice mentoring case studies and discussion is advocated *Engaging Teens with Story* Janice M. Del Negro, Melanie A. Kimball, 2017-06-28

Based on proven theory and real life experience this guidebook provides a one stop resource for educators librarians and storytellers looking to introduce storytelling programs for young adults Storytelling is often associated with storytime and library services to young children but effective storytelling speaks to all ages including teens *Engaging Teens with Story How to Inspire and Educate Youth with Storytelling* offers an in depth look at storytelling for young adults that explains the benefits of storytelling with this audience what current practices are and storytelling opportunities to explore with youth It provides a unique source of expert guidance that youth services librarians professional storytellers and middle and high school teachers will appreciate Readers will learn how to find stories for teens apply proven techniques for successful telling of tales to teens use traditional literature as a basis for creative writing and establish a teen storytelling club or troupe The guide also covers how teens can create their own stories with digital media the connections between traditional folk and fairy tales and today s film television books and online media and how storytelling can be successfully used with at risk youth

Books in the Digital Age John B. Thompson, 2013-10-21 The book publishing industry is going through a period of profound and turbulent change brought about in part by the digital revolution What is the role of the book in an age preoccupied with computers and the internet How has the book publishing industry been transformed by the economic and technological upheavals of recent years and how is it likely to change in the future This is the first major study of the book publishing industry in Britain and the United States for more than two decades Thompson focuses on academic and higher education publishing and analyses the evolution of these sectors from 1980 to the present He shows that each sector is characterized by its own distinctive logic or dynamic of change and that by reconstructing this logic we can understand the problems challenges and opportunities faced by publishing firms today He also shows that the digital revolution has had and continues to have a profound impact on the book publishing business although the real impact of this revolution has little to do with the ebook scenarios imagined by many commentators Books in the Digital Age will become a standard work on the publishing industry at the beginning of the 21st century It will be of great interest to students taking courses in the sociology of culture media and cultural studies and publishing It will also be of great value to professionals in the publishing industry educators and policy makers and to anyone interested in books and their future

Teaching Social Studies in an Era of Divisiveness Wayne Journell, 2016-09-14 Teaching controversial social issues can be a daunting and oftentimes terrifying prospect for social studies teachers In many ways this fear is warranted given the politically polarized nature of American society in the 21st century However effective social studies instruction requires that students begin to grapple with difficult

issues in tolerant ways The chapters in this book many of which are written by leading scholars within the field of social studies education cover a range of 21st century social issues including politically volatile issues such as gun control marriage equality the Black Lives Matter movement and immigration This book offers both a theoretical justification for engaging students with controversial social issues and practical suggestions for how to successfully implement discussions of these types of issues in K 12 classroom settings The Facilitating University Adrianus Hendrikus Wilhelmus van der Zanden,2009 *Society Online* Philip N. Howard,Steve Jones,2004 These editors have the respect visibility and track record to make this volume a contribution to the field of Internet studies It will be adopted as an upper division text and can also serve as a valuable reference work for doctoral students Given its broad mix of qualitative and quantitative approaches this work should have wide appeal across the Social Sciences and Information Studies Sandra J Ball Rokeach Annenberg School for Communication University of Southern California Within the developed world much of society experiences political economic and cultural life through a set of communication technologies barely older than many citizens Society Online The Internet in Context examines how new media technologies have not simply diffused across society but how they have rapidly and deeply become embedded in our organizations and institutions Society Online is not exclusively devoted to a particular technology or specifically the Internet but to a range of technologies and technological possibilities labeled new media Rather than trying to cover every possible topic relating to new communication technologies this unique text is organized by how these new technologies mediate the community political economic personal and global spheres of our social lives Editors Philip N Howard and Steve Jones explore the multiple research methods that are required to understand the embeddedness of new media Society Online discusses the findings of the Pew Internet and American Life Project and is the first book to bring together leading social scientists to provide the most comprehensive and far reaching Internet research data sets and to contextualize Internet use in modern life The book features contributions by leading scholars from across the social sciences using a range of research techniques including systematic content analysis comparative methods quasi experimental methods probit ordinary least squares and logistic regression analysis small focus groups historical archival and survey methods ethnographic and auto ethnographic work and comparative analyses of policy traditions to probe analyze and understand the Internet in the context of everyday life Society Online is designed for undergraduate and graduate students taking media studies courses in the areas of Communication Sociology Political Science Anthropology Cultural Studies Information Sciences and American Studies For more information about Society Online please visit www.societyonline.net
