People's History of Tottenham Hotspur Martin Cloake, 2016-08-15 A People's History of Tottenham Hotspur is the story of how fans helped create the identity of a world famous club and tells a story from a perspective rarely acknowledged Drawing on social history contemporary press reports and first hand interviews with the fans themselves authors Martin Cloake and Alan Fisher trace the club's development from being the team of the suburbs and the rising south through the glory years and the arrival of mass popular culture and into the modern era of the game It is not a tale of trophies won and lost of players bought and sold Instead it is the story of how one of the game's oldest and most famous teams was formed and established by its fans and how its identity was created by them It evaluates how the fans relationship with the club has evolved as the game has changed from those bygone days when a club was at the heart of a local community to the modern era where the world's leading football clubs have to compete as multinational brands appealing to fans on a global scale stretching much further and wider than the north London footprint than the club's founders would have ever imagined *Focus On: 100 Most Popular Real Madrid C.F. Multiculturalism, Globalization, and Antisemitism Efraim Sicher, 2009 Discusses multiculturalism as involving the redefinition of a nation and a search for national identity but notes that multiculturalism is not necessarily the cause of the recent upsurge in antisemitism in Britain Stresses the persistence of cultural stereotypes e.g. Shylock Fagin and Svengali in the media including in reporting on sports events British Jews are caught between two hostile forces a coalition of militant Islamists and leftist anti Western anti imperialists who demonize Israel and a general British resentment of foreigners which sometimes encompasses Jews Anti Zionist propaganda and anti Israel boycotts are espoused by Muslims and leftists including on the campuses Anti Zionism often slips into anti Judaism by targeting British Jews The British media tend to be anti Israel to such an extent that this stance is unassailable Concludes that the open society has encouraged a resurgence of older racial anti Jewish discourse and that there is little new about the new antisemitism which spreads conspiracy theories about Jews in regard to recent events such as 9/11
