One Cosmos Under God The Unification Of Matter Life Mind And Spirit:

One Cosmos under God: The Unification of Matter, Life, Mind and Spirit Robert Godwin, 2004-11-30 One Cosmos under God is an extraordinary book that takes the reader on an intellectual and spiritual journey through the whole of creation It dares to venture where language cannot go into the mind of God prior to the creation through to the mind of the saint who transcends the culturally conditioned ego escapes history and merges with the divine mind This book is intended to be both serious and entertaining like an intellectual amusement park ride through the whole of creation It operates under the premise that if God exists He has a very sophisticated sense of humor and the book makes many important points in an ironic or punning way including in the opening creation story and the closing Cosmobliteration of language into mystical oneness

Consciousness Don Salmon, Jan Maslow, 2007-09 From the perspective of yoga psychology the view from infinity even our basest instincts our most mundane acts and our greatest follies can be understood as the limited or distorted expressions of a purposeful compassionate and infinite intelligence Yoga Psychology is based on the writings of Sri Aurobindo the revolutionary poet and philosopher who founded the independence movement in India later led by Mahatma Gandhi

A. Meijer, 1992 Amazing as it may be to this day few commentaries on the treatises of Plotinus Enneads are written The classic ninth treatise VI 9 in Porphyrius order for example has hardly been studied This treatise however is of vital importance because it is in this work that for the first time in the Enneads the One in its superform emerges and Plotinus dwells on the remarkable phenomenon of a mystical union of the soul with the One A thorough analysis of the argument and its development next to philosophical and philo logical support will be welcome to any reader of this intriguing but difficult treatise These aims are pursued in the main part of Meijer's work the commentary The first part of the book preceding the commentary examines the philosophical history of the concept of the One and its status in the first eight treatises This new approach to the problem of the One leads to striking conclusions It appears that while Plotinus was writing these first eight treatises the concept of the One developed from that of a Supreme Entity of a Mesoplatonian character viz the upper part of the mind to One of a Superone above mind This casts an entirely new light on the position of the One in Plotinus and that of the ninth treatise itself The third part not only examines the mystical union as pictured in the ninth treatise but also provides a full scale discussion of Plotinus descriptions of this union in his entire work The degree of unification viz the question whether a part of the mystic self remains intact during the unification is a matter of vigorous scholarly debate Meijer shows that in spite of some inconsistencies in his doctrine about the union one must accept that Plotinus basically considered the union as a complete absorption of the soul into the Supreme Entity The Monist Paul Carus, 1920 Vols 2 and 5 include appendices Come Along Jacinta Respondowska, 2010-02-02 Quest for Confirmation the second volume of the series Come Along We Are Truth Bound is a cross examination of the concepts derived in Volume One A Dialogue and Dialectic Bridging the Great Epistemic Divides The cross examination is conducted by means of a dialogue with a representative thinker from each of the related bodies of knowledge The study reveals reality to be an intricate harmoniously integrated whole and

terminates in An Epistemological Atlas that depicts the major processes of human knowledge in their application to different disciplines The process itself exposes the latter to be the stepping stones of our mind s ascent to the ultimate truth In light of this understanding the unresolved controversies in philosophy gain a new degree of clarity and reveal their relevance to human life This volume a work in epistemology that encompasses human knowledge in general lends itself to different courses but is of special significance to philosophy theology and physics The Voice of Jerusalem Israel Zangwill,1921
