David Lynch Swerves Martha Nochimson, 2013-03-15 Beginning with Lost Highway director David Lynch swerved in a

new direction one in which very disorienting images of the physical world take center stage in his films Seeking to understand this unusual emphasis in his work noted Lynch scholar Martha Nochimson engaged Lynch in a long conversation of unprecedented openness during which he shared his vision of the physical world as an uncertain place that masks important universal realities He described how he derives this vision from the Holy Vedas of the Hindu religion as well as from his layman s fascination with modern physics With this deep insight Nochimson forges a startlingly original template for analyzing Lynch s later films the seemingly unlikely combination of the spiritual landscape envisioned in the Holy Vedas and the material landscape evoked by quantum mechanics and relativity In David Lynch Swerves Nochimson navigates the complexities of *Lost Highway* *The Straight Story* *Mulholland Drive* and *Inland Empire* with uncanny skill shedding light on the beauty of their organic compositions their thematic critiques of the immense dangers of modern materialism and their hopeful conceptions of human potential She concludes with excerpts from the wide ranging interview in which Lynch discussed his vision with her as well as an interview with Columbia University physicist David Albert who was one of Nochimson s principal tutors in the discipline of quantum physics
