Online Book Aquinas Nicomachean Ethics Professor Hoffmann

Stephen J. Pope

Online Book Aquinas Nicomachean Ethics Professor Hoffmann:

Aquinas and the Nicomachean Ethics Tobias Hoffmann, 2013-07-25 This book discusses Aquinas's reception of Aristotle's work exploring how Aquinas adopts, corrects or transforms key themes from Aristotle's ethics *Thomism And Aristotelianism* Harry V. Jaffa, 2011-07 **Aquinas's Moral Theory** Scott MacDonald, Eleonore Stump, 2018-09-05 Aquinas's discussions of moral issues are extensive and range well beyond the narrowly defined set of issues in the modern tradition of moral philosophy This volume explores the ethical dimensions of a wide selection of philosophical and theological topics in Aquinas's texts It covers topics central to ethics such as happiness, moral virtue and natural law as well as related topics pertaining to the metaphysical basis of Aquinas's account of goodness, the ramifications of his ethical concerns for his philosophy of language and the significance of his philosophical psychology for his ethics The volume is divided into three sections focusing respectively on issues concerning moral theory and moral theology, moral psychology and practical reason and moral theory in philosophy of language and metaphysics The authors distinguished scholars of medieval philosophy bring to these issues a variety of approaches and viewpoints By creatively sampling the breadth of Aquinas's reflections on ethical issues and exploring some of the significant connections that tie his moral thought to other parts of his philosophical and theological system, they display the richness and depth of Aquinas's moral thinking *Commentary on Thomas Aquinas's Virtue Ethics* J. Budziszewski, 2017-05-04 Although St Thomas Aquinas famously claimed that his *Summa Theologiae* was written for beginners, contemporary readers find it unusually difficult Now amid a surge of interest in virtue ethics J Budziszewski clarifies and analyzes the text's challenging arguments about the moral, intellectual and spiritual virtues with a spotlight on the virtue of justice In what might be the first contemporary commentary on Aquinas' virtue ethics, he juxtaposes the original text with paraphrase and detailed discussion, guiding us through its complex arguments and classical rhetorical figures Keeping an eye on contemporary philosophical issues, he contextualizes one of the greatest virtue theorists in history and brings Aquinas into the interdisciplinary debates of today His brisk and clear style illuminates the most crucial of Aquinas' writings on moral character and guides us through the labyrinth of this difficult but pivotal work **The Collected Works of St. Thomas Aquinas. Commentary on the Nicomachean Ethics** Saint Thomas (Aquinas), Aristotle, 1993 **Aquinas's Ethics** Thomas M. Osborne Jr., 2020-05-07 This Element provides an account of Thomas Aquinas's moral philosophy that emphasizes the intrinsic connection between happiness and the human good, human virtue and the precepts of practical reason Human beings by nature have an end to which they are directed and concerning which they do not deliberate, namely happiness Humans achieve this end by performing good human acts which are produced by the intellect and the will and perfected by the relevant virtues These virtuous acts require that the agent grasps the relevant moral principles and uses them in particular cases *The Specification of Human Actions in St Thomas Aquinas* Joseph Pilsner, 2006-04-27 Thomas Aquinas believed that human actions have species such as theft or almsgiving A problem arises

however concerning his teaching on how such moral kinds are determined Aquinas uses five different terms and object matter circumstance and motive to identify what gives species to human actions Although similarities in meaning can be discerned between certain of these terms apparent differences between others make it difficult to grasp how all five could refer to what specifies human actions Joseph Pilsner examines and compares Aquinas's understanding of these five terms to see if a consistent account of his teaching on specification can be proposed

Aquinas and Modern Law James Bernard Murphy, 2017-07-05 This volume collects some of the best recent writings on St Thomas's philosophy of law and includes a critical examination of Aquinas's theory of the relation between law and morality his natural law theory as well as the modern reformulation of his approach to natural rights The volume shows how Aquinas understood the importance of positive law and demonstrates the modern relevance of his writings by including Thomistic critiques of modern jurisprudence and examples of applications of Thomistic jurisprudence to specific modern legal problems such as federalism environmental policy abortion and euthanasia The volume also features an introduction which places Aquinas's writings in the context of modern jurisprudence as well as an extensive bibliography The volume is suited to the needs of jurisprudence scholars teachers and students and is an essential resource for all law libraries

Justice as a Virtue Porter, 2016 Aquinas says Jean Porter gets justice right In this book she shows that Aquinas offers us a cogent and illuminating account of justice as a personal virtue rather than a virtue of social institutions For Aquinas justice is more about interpersonal morality than civic or social obligations and Porter masterfully draws out the contemporary significance of Aquinas's perspective back of book

Aquinas, Aristotle, and the Promise of the Common Good Mary M. Keys, 2006-09-18 Aquinas Aristotle and the Promise of the Common Good first published in 2006 claims that contemporary theory and practice have much to gain from engaging Aquinas's normative concept of the common good and his way of reconciling religion philosophy and politics Examining the relationship between personal and common goods and the relation of virtue and law to both Mary M Keys shows why Aquinas should be read in addition to Aristotle on these perennial questions She focuses on Aquinas's Commentaries as mediating statements between Aristotle's Nicomachean Ethics and Politics and Aquinas's own Summa Theologiae showing how this serves as the missing link for grasping Aquinas's understanding of Aristotle's thought Keys argues provocatively that Aquinas's Christian faith opens up new panoramas and possibilities for philosophical inquiry and insights into ethics and politics Her book shows how religious faith can assist sound philosophical inquiry into the foundation and proper purposes of society and politics

[The Light That Binds](#) Rev. Stephen L. Brock, 2020-03-30 If there is any one author in the history of moral thought who has come to be associated with the idea of natural law it is Saint Thomas Aquinas Many things have been written about Aquinas's natural law teaching and from many different perspectives The aim of this book is to help see it from his own perspective That is why the focus is metaphysical Aquinas's whole moral doctrine is laden with metaphysics and his natural law teaching especially so because it is all about first principles The book centers on how Aquinas thinks the first principles

of practical reason which for him are what make up natural law function as laws It is a controversial question and the book engages a variety of readers of Aquinas including Francisco Suarez Jacques Maritain prominent analytical philosophers Straussians and the initiators of the New Natural Law theory Among the issues addressed are the relation between natural law and natural inclination how far natural law depends on knowledge of human nature what its obligatory force consists in and above all how it is related to what for Aquinas is the first principle of all being the divine will A study of the Commentary by Thomas Aquinas on the Nicomachean Ethics Harry Victor Jaffa, 1952 *Action and Conduct* Stephen L. Brock, 2021-05-07 Both Thomistic scholars and analytic philosophers interested in theories of human action and accountability will find this book a welcome addition to their libraries Truly a substantive addition to both Thomistic scholarship and the ongoing analytic investigation into human action and responsible agency American Catholic Philosophical Quarterly A first rate book Brock's lucid and illuminating analysis offers much of value to both intellectual historians and theologians as well as philosophers Theological Studies Brock's treatment of Aquinas's account of action exhibits a rare combination of rigor and learning It is no doubt the best we have The Thomist *Thomas Aquinas on Moral Wrongdoing* Colleen McCluskey, 2017 A comprehensive examination of the moral psychology of wrongdoing from a major historical figure Thomas Aquinas **Aquinas on Emotion's Participation in Reason** Nicholas Kahm, 2019-01-09 Aquinas on Emotion's Participation in Reason aims to present Aquinas's answer to the perennial and now popular question In what way can the emotions be rational For Aquinas the starting point of this inquiry is Aristotle's claim EN I 13 that there are three parts to the soul 1 the rational part 2 the non rational part which can participate in reason and 3 the non rational part that does not participate in reason It is the extent to which the second part the sense appetites the seat of the emotions participates in reason that the emotions can become rational However immediately after Aristotle introduces his tripartite division of the soul he warns that one need not delve into the details of the division or the participation Aquinas however ignores Aristotle and uses his precise metaphysics of participation within in his sophisticated anthropology to great effect in his ethics Unlike Aristotle to fully understand Aquinas's thinking on how the emotions can become rational we simply must delve into the kinds of precisions that Aristotle thinks are misplaced When Aquinas's views emerge from these precisions he has a surprisingly level headed and commonsense view of how the emotions can become rational On this point he is more pessimistic than Aristotle and more optimistic than Kant he is certainly not as is he is often thought to be the faithful follower of Aristotle and the polar opposite of Kant Nicholas Kahm argue that Aquinas has a realistic and plausible view of how far reason can go in shaping our emotions Furthermore his plausible views can accommodate the serious current challenge raised against virtue ethics from social psychology The method has mainly been a careful reading of primary texts but unlike the rest of the scholarship on Aquinas's ethics Kahm is particularly sensitive to Aquinas's historical and philosophical development *Disputed Questions on Virtue* Saint Thomas Aquinas, Jeffrey Hause, Claudia Eisen Murphy, 2010-03-12

Introduction and Commentary by Jeffrey Hause The third volume of The Hackett Aquinas a series of central philosophical treatises of Aquinas in new state of the art translations accompanied by a thorough commentary on the text *Thomas Aquinas: Basic Philosophical Writing* Thomas Aquinas, 2018-10-30 This volume contains new translations of the essential philosophical writings of Thomas Aquinas from the Summa Theologiae and The Principles of Nature The included texts represent the breadth of Aquinas's thought addressing causality the fundamental principles of nature the existence of God how God can be known how language can be used to describe God human nature including the nature of the soul free will and epistemology happiness ethics and natural law The goal of these translations is twofold to allow Aquinas to speak for himself but also to make his thought accessible to the contemporary reader without the burden of unnecessary adherence to convention A thorough introduction to Aquinas and his ideas is included as is a series of useful appendices connecting Aquinas's arguments to those of Anselm Scotus Ockham and others *The Ethics of Aquinas* Stephen J. Pope, 2002 In this comprehensive anthology twenty seven outstanding scholars from North America and Europe address every major aspect of Thomas Aquinas's understanding of morality and comment on his remarkable legacy While there has been a revival of interest in recent years in the ethics of St Thomas no single work has yet fully examined the basic moral arguments and content of Aquinas major moral work the Second Part of the Summa Theologiae This work fills that lacuna The first chapters of *The Ethics of Aquinas* introduce readers to the sources methods and major themes of Aquinas's ethics The second part of the book provides an extended discussion of ideas in the Second Part of the Summa Theologiae in which contributors present cogent interpretations of the structure major arguments and themes of each of the treatises The third and final part examines aspects of Thomistic ethics in the twentieth century and beyond These essays reflect a diverse group of scholars representing a variety of intellectual perspectives Contributors span numerous fields of study including intellectual history medieval studies moral philosophy religious ethics and moral theology This remarkable variety underscores how interpretations of Thomas's ethics continue to develop and evolve and stimulate fervent discussion within the academy and the church This volume is aimed at scholars students clergy and all those who continue to find Aquinas a rich source of moral insight **Commentary on Thomas Aquinas' Treatise on Law** J. Budziszewski, 2014-09-22 An unparalleled commentary on Thomas Aquinas's *Treatise on Law* providing a go to text for one of the foundations of laws ethics and morality **Nicomachean Ethics of Aristotle** Daniel Charles Cummins, 1998
