Proceedings of the XV International Scientific Conference on Industrial Systems (IS'11) , *Mobile Telecommunications in a High-Speed World* Peter Curwen, Jason Whalley,2016-07-22 Mobile Telecommunications in a High Speed World tells the story of 3G and higher speed mobile communication technologies Over ten years have passed since the first third generation 3G licences were awarded following debates about the merits of auctions versus beauty contests then nothing much happened More licences were issued a few roll outs commenced and everyone began to think it had all been a horribly expensive mistake That may still turn out to be the case but in the meantime there have been massive developments in terms of the number of licences and launches worldwide in the range of services that can be accessed in the range of devices that can be used to access them in operator strategies etc Even the technology has improved considerably with 4G now under discussion Much of this story has been chronicled largely on the Internet but the information is in tens of thousands of bits and pieces and a large part of it is either misleading or just plain wrong Here Peter Curwen and Jason

Whalley introduce the outcomes of research that has involved the compilation of a unique database which details every licence and launch worldwide involving 3G The authors discuss the structure of the industry and the strategic behaviour of operators as well as the social consequences of the spread of 3G They examine the role of new entry upon competition and present analysis of the main operators involved the development of handsets and especially smartphones A number of country case studies are included This comprehensive and up to date volume includes a number of country studies and is written by two of the world s foremost researchers on this industry Mobile Telecommunications in a High Speed World will serve the needs of students academics and those involved or contemplating involvement with the telecoms industry Why pay thousands of dollars to consultancies to separate the wheat from the chaff with respect to 3G when you can read this book

Biometrics in a Data Driven World Sinjini Mitra,Mikhail Gofman,2016-12-01 Biometrics in a Data Driven World Trends Technologies and Challenges aims to inform readers about the modern applications of biometrics in the context of a data driven society to familiarize them with the rich history of biometrics and to provide them with a glimpse into the future of biometrics The first section of the book discusses the fundamentals of biometrics and provides an overview of common biometric modalities namely face fingerprints iris and voice It also discusses the history of the field and provides an overview of emerging trends and opportunities The second section of the book introduces readers to a wide range of biometric applications The next part of the book is dedicated to the discussion of case studies of biometric modalities currently used on mobile applications As smartphones and tablet computers are rapidly becoming the dominant consumer computer platforms biometrics based authentication is emerging as an integral part of protecting mobile devices against unauthorized access while enabling new and highly popular applications such as secure online payment authorization The book concludes with a discussion of future trends and opportunities in the field of biometrics which will pave the way for advancing research in the area of biometrics and for the deployment of biometric technologies in real world applications The book is designed for individuals interested in exploring the contemporary applications of biometrics from students to researchers and practitioners working in this field Both undergraduate and graduate students enrolled in college level security courses will also find this book to be an especially useful companion
