African Migration, Human Rights and Literature

Fareda Banda, 2020-12-24 This innovative book looks at the topic of migration through the prism of law and literature The author uses a rich mix of novels short stories literary realism human rights and comparative literature to explore the experiences of African migrants and asylum seekers The book is divided into two Part one is conceptual and focuses on art activism and the myriad ways in which people have sought to write justice Using Mazrui's diasporas of slavery and colonialism it then considers histories of migration across the centuries before honing in on the recent anti migration policies of western states Achiume is used to show how these histories of imposition and exploitation create a bond which

bestows on Africans a status as co sovereigns of the First World through citizenship The many fictional examples of the schemes used to gain entry are set against the formal legal processes Attention is paid to life post arrival which for asylum seekers may include periods in detention The impact of the increased hostility of receiving states is examined in light of their human rights obligations Consideration is paid to how Africans navigate their post migration lives which includes reconciling themselves to status fracture taking on jobs for which they are over qualified while simultaneously dealing with the resentment borne of status threat on the part of the citizenry Part two moves from the general to consider the intersections of gender and status focusing on women LGBTI individuals and children Focusing on their human rights and the fictional literature chapter four looks at women who have been trafficked as well as domestic workers and hotel maids while chapter five is on LGBTI people whose legal and literary stories are only now being told The final substantive chapter considers the experiences of children who may arrive as unaccompanied minors Using a mixture of poetry and first person accounts the chapter examines the post arrival lives of children some of whom may be citizens but who are continually made to feel like outsiders The conclusion follows starting with two stories about walls by Hadero and Lanchester which are used to illustrate the themes discussed in the book Few African lawyers write about literature and few books and articles in Western law and literature look at books by or about Africans so a book that engages with both is long overdue This book provides fascinating reading for academics students of law literature gender and migration studies and indeed the general public

Geography and the Political Imaginary in the Novels of Toni Morrison Herman Beavers, 2018-02-06 This book examines Toni Morrison's fiction as a sustained effort to challenge the dominant narratives produced in the white supremacist political imaginary and conceptualize a more inclusive political imaginary in which black bodies are valued Herman Beavers closely examines politics of scale and contentious politics in order to discern Morrison's larger intent of revealing the deep structure of power

relations in black communities that will enable them to fashion counterhegemonic projects The volume explores how Morrison stages her ruminations on the political imaginary in neighborhoods or small towns rooms houses or streets Beavers argues that these spatial and domestic geographies are sites where the management of traumatic injury is integral to establishing a sense of place proposing these tight spaces as sites where narratives are produced and contested sites of inscription and erasure utterance and silence *The Best American Essays 2015* Ariel Levy, 2020-12-15 22 contributors explore a wide range of experiences in this illuminating invaluable anthology edited by the author of *Female Chauvinist Pigs* Publishers Weekly Writing an essay is like catching a wave posits guest editor Ariel Levy To catch a wave you need skill and nerve not just moving water The writers featured in this volume are certainly full of nerve and have crafted a wide range of pieces awash in a diversity of moods voices and stances Leaving an abusive marriage parting with a younger self losing your sanity to Fitbit and even saying goodbye to a beloved pair of pants are just some of the experience probed by essays that are unified in the daring of their creation As Levy notes Writing around an idea you think is worthwhile an idea you suspect is an insight requires real audacity *The Best American Essays 2015* includes entries by Hilton Als Roger Angell Justin Cronin Meghan Daum Anthony Doerr Margo Jefferson David Sedaris Zadie Smith Rebecca Solnit and others **Die Klarheit. demonstrating that there's always another solution from the acclaimed writer and philosophy professor based on his viral essay *I'm Still Here*. A deep meditation that searches through Martin's past looking for answers about why he is the way he is while also examining the role suicide has played in our culture for centuries how it has evolved and how philosophers have examined it. *Esquire*: A rock for people who've been troubled by suicidal ideation or have someone in their lives who is. *The New York Times*: If you're going to write a book about suicide you have to be willing to say the true things the scary things the humiliating things. Because everybody who is being honest with themselves knows at least a little bit about the subject. If you lie or if you fudge the reader will know. The last time Clancy Martin tried to kill himself was in his basement with a dog leash. It was one of over ten attempts throughout the course of his life. But he didn't die and like many who consider taking their own lives he hid the attempt from his wife family coworkers and students slipping back into his daily life with a hoarse voice a raw neck and series of vague explanations. In *How Not to Kill Yourself* Martin chronicles his multiple suicide attempts in an intimate depiction of the mindset of someone obsessed with self-destruction. He argues that for the vast majority of suicides an attempt does not just come out of the blue nor is it merely a violent reaction to a particular crisis or failure but is the culmination of a host of long-standing issues. He also looks at the thinking of a number of great writers who have attempted suicide and detailed their experiences such as David Foster Wallace Yiyun Li Akutagawa Nelly Arcan and others at what the history of philosophy has to say both for and against suicide and at the experiences of those who have reached out to him across the years to share their own struggles. The result combines memoir with critical inquiry to powerfully give voice to what for many has long been incomprehensible while showing those presently grappling with suicidal thoughts that they are not alone and that the desire to kill oneself like other self-destructive desires is almost always temporary and avoidable.

Looking for Miss America Margot Mifflin, 2021-08-03 Winner of the Popular Culture Association's Emily Toth Best Book in Women's Studies Award. From an author praised for writing delicious social history Dwight Garner *The New York Times* comes a lively account of memorable Miss America contestants protests and scandals and how the pageant now in its one hundredth year serves as an unintended indicator of feminist progress. *Looking for Miss America* is a fast-paced narrative history of a curious and contradictory institution. From its start in 1921 as an Atlantic City tourist draw to its current incarnation as a scholarship competition the pageant has indexed women's status during periods of social change the post-suffrage 1920s the Eisenhower 1950s the MeToo era. This ever-changing institution has been shaped by war evangelism the rise of television and reality TV and significantly by contestants who confounded expectations. Spotlighting individuals from Yolande Betbeze whose refusal to pose in swimsuits led an angry sponsor to launch the rival Miss USA contest to the first black winner Vanessa Williams who received death threats and was protected by sharpshooters in her hometown parade Margot Mifflin shows how women made hard bargains even as they used the pageant for economic advancement. The pageant's history includes crucially those it excluded the notorious Rule Seven which required contestants to be of the white

race was retired in the 1950s but no women of color were crowned until the 1980s In rigorously researched vibrant chapters that unpack each decade of the pageant Looking for Miss America examines the heady blend of capitalism patriotism class anxiety and cultural mythology that has fueled this American ritual Languages of Truth Salman Rushdie,2021-05-27 From Best of the Booker winner Salman Rushdie an incisive and inspiring collection of non fiction essays criticism and speeches that takes readers on a thrilling journey through the evolution of language and culture One of the greatest writers of our age Neil Gaiman Across a wide variety of subjects Rushdie delves into the nature of storytelling as a deeply human need and what emerges is a love letter to literature itself Throughout he shares his personal encounters on the page and in person with storytellers from Shakespeare to Toni Morrison and revels in the creative lines that can join art and life Rushdie considers too the nature of truth and looks afresh at migration multiculturalism and censorship Essential reading Powerful Financial Times Rushdie is vital expansive the critic as storyteller championing his subjects with gusto TLS Anxious Men Clive Baldwin,2020-03-02 Focusing on a complex and contentious period that was formative in shaping American society and culture in the twentieth century this book sheds new light on the ways in which fiction engaged with contemporary notions of masculinity The Black Utopians Aaron Robertson,2025-02-06 How do the disillusioned the forgotten and the persecuted not merely hold on to life but expand its possibilities and preserve its beauty What in other words does utopia look like in black These questions animate Aaron Robertson s exploration of Black Americans efforts to remake the conditions of their lives Writing in the tradition of Saidiya Hartman and Ta Nehisi Coates Robertson makes his way from his ancestral hometown of Promise Land Tennessee to Detroit the city where he was born and where one of the country s most remarkable Black utopian experiments got its start Founded by the brilliant preacher Albert Cleage Jr the Shrine of the Black Madonna combined Afrocentric Christian practice with radical social projects Central to this endeavour was the Shrine s chancel mural of a Black Virgin and child the icon of a nationwide liberation movement that would come to be known as Black Christian Nationalism Alongside the Shrine s story Robertson reflects on a diverse array of Black utopian visions from the Reconstruction era through the countercultural fervour of the 1960s and 1970s and into the present day By doing so Robertson showcases the enduring quest of collectives and individuals for a world beyond the constraints of systemic racism The Black Utopians offers a nuanced portrait of the struggle for spaces both ideological and physical where Black dignity protection and nourishment are paramount This book is the story of a movement and of a world still in the making one that points the way toward radical alternatives for the future A TIME Book of the Year A New York Times Book of the Year

How Elites Ate the Social Justice Movement Fredrik deBoer,2024-09-03 In How Elites Ate the Social Justice Movement Fredrik deBoer explores why these passionate movements failed and how they could succeed in the future In the digital age social movements flare up but then lose steam through a lack of tangible goals the inherent moderating effects of our established institutions and political parties and the lack of any real grassroots movement in contemporary America

Hidden beneath the rhetoric of the oppressed and the symbolism of the downtrodden lies the inconvenient fact that those doing the organizing messaging protesting and campaigning are predominantly drawn from this country's more upwardly mobile educated classes. Poses are more important than policies. DeBoer lays out an alternative vision for how society's winners can contribute to social justice movements without taking them over and how activists and their organizations can become more resistant to the influence of elites, nonprofits, corporations, and political parties.

Same Family, Different Colors Lori L. Tharps, 2017-10-03 Weaving together personal stories, history, and analysis, Same Family, Different Colors explores the myriad ways skin color politics affect family dynamics in the United States. Colorism and color bias, the preference for or presumed superiority of people based on the color of their skin, is a pervasive and damaging but rarely openly discussed phenomenon. In this unprecedented book, Lori L. Tharps explores the issue in African American, Latino, Asian American, and mixed race families and communities by weaving together personal stories, history, and analysis. The result is a compelling portrait of the myriad ways skin color politics affect family dynamics in the United States. Tharps, the mother of three mixed race children with three distinct skin colors, uses her own family as a starting point to investigate how skin color difference is dealt with. Her journey takes her across the country and into the lives of dozens of diverse individuals, all of whom have grappled with skin color politics and speak candidly about experiences that sometimes scarred them. From a Latina woman who was told she couldn't be in her best friend's wedding photos because her dark skin would spoil the pictures to a light-skinned African American man who spent his entire childhood trying to be Black, Tharps illuminates the complex and multifaceted ways that colorism affects our self-esteem and shapes our lives and relationships. Along with intimate and revealing stories, Tharps adds a historical overview and a contemporary cultural critique to contextualize how various communities and individuals navigate skin color politics. Groundbreaking and urgent, Same Family, Different Colors is a solution-seeking journey to the heart of identity politics so that this more subtle cousin to racism, in the author's words, will be exposed and confronted.

Black Bourgeois Candice M. Jenkins, 2019-10-15 Exploring the forces that keep black people vulnerable even amid economically privileged lives At a moment in U S history with repeated reminders of the vulnerability of African Americans to state and extralegal violence Black Bourgeois is the first book to consider the contradiction of privileged presumably protected black bodies that nonetheless remain racially vulnerable Examining disruptions around race and class status in literary texts Candice M Jenkins reminds us that the conflicted relation of the black subject to privilege is not solely a recent phenomenon Focusing on works by Toni Morrison Spike Lee Danzy Senna Rebecca Walker Reginald McKnight Percival Everett Colson Whitehead and Michael Thomas Jenkins shows that the seemingly abrupt discursive shift from post Civil Rights to Black Lives Matter from an emphasis on privilege and progress to an emphasis on vulnerability and precariousness suggests a pendulum swing between two interrelated positions still in tension By analyzing how these narratives stage the fraught interaction between the black and the bourgeois Jenkins offers renewed attention to class as a framework for the study of black life a necessary shift in an age of rapidly increasing income inequality and societal stratification Black Bourgeois thus challenges the assumed link between blackness and poverty that has become so ingrained in the United States reminding us that privileged subjects too are classed This book offers finally a rigorous and nuanced grasp of how African Americans live within complex intersecting identities
