Diagnostic and Behavioral Assessment in Children and Adolescents Bryce D. McLeod, Amanda Jensen Doss, Thomas H. Ollendick, 2013-07-19 This comprehensive volume shows how to use both diagnostic and behavioral assessment knowledgeably and effectively throughout the process of treatment The two traditions have developed along separate paths each with its own conceptual underpinnings and psychometric strengths Used together they can produce a complete picture of a child s or adolescent s needs and strengths The expert editors and contributors describe the full range of evidence based assessment tools and illustrate their application with two intake to termination case examples both based on DSM 5 Reproducible tools include a behavioral recording form and a multipage case conceptualization worksheet that can be downloaded and printed in a convenient 8 1 2 x 11 size **Family Life in Adolescence** Patricia Noller, Sharon Atkin, 2014-01-01 Many parents fear the time when their beautiful happy children will become unmanageable adolescents continually engaging in risky or destructive behaviour Unfortunately this view of adolescents is the focus of the media even though it relates to just a small proportion of young people As the large amount of research we report shows most adolescents are responsible young people who care about their families and crave the support of their parents It is also true however as much research indicates that the quality of the relationship parents have with their adolescents is crucial to the wellbeing of those young people We discuss the need for parents to set reasonable limits on their adolescents and to expect appropriate behavior We also show on the basis of research that children who have experienced positive caring relationships with their parents are more likely than other adolescents to behave responsibly In other words behavior in adolescence does not come out of nowhere but builds on earlier experiences in the family Because of the large amount of research reported in this volume we expect that it will be useful to practitioners from a range of professions that are likely to focus on adolescents social workers youth leaders welfare workers religious leaders psychologists and psychiatrists and contribute to a better understanding of young people and their development and the importance of families to that development
