John Macnicol

Neoliberalising Old Age John Macnicol:

Neoliberalising Old Age John Macnicol, 2015-09-29 Governments are encouraging later life working and state pension ages are being raised There is also a growing debate on intergenerational equity and on ageism age discrimination John Macnicol one of Europe's leading academic analysts of old age and ageing examines the effect of neoliberalism on the recent ageing and social policy agenda in the UK and the USA He argues that the demographic and economic impulses behind recent policy changes are in fact less important than the effect of neoliberalism as an ideology which has caused certain key problems to be defined in a particular way The book outlines past theories of old age and examines pensions reform the debate on life expectancy gains the causes of retirement the idea of intergenerational equity the current debate on ageism age discrimination and the likely human consequences of raising state pension ages *Aging, Duration, and the English Novel* Jacob Jewusiak, 2019-12-05 The rapid onset of dementia after an illness the development of gray hair after a traumatic loss the sudden appearance of a wrinkle in the brow of a spurned lover The realist novel uses these conventions to accelerate the process of aging into a descriptive moment writing the passage of years on the body all at once Aging Duration and the English Novel argues that the formal disappearance of aging from the novel parallels the ideological pressure to identify as being young by repressing the process of growing old The construction of aging as a shameful event that should be hidden to improve one's chances on the job market or secure a successful marriage corresponds to the rise of the long novel which draws upon the temporality of the body to map progress and decline onto the plots of nineteenth century British modernity

Transfer State Peter Sloman, 2019-10-24 The idea of a guaranteed minimum income has been central to British social policy debates for more than a century Since the First World War a variety of market economists radical activists and social reformers have emphasized the possibility of tackling poverty through direct cash transfers between the state and its citizens As manufacturing employment has declined and wage inequality has grown since the 1970s cash benefits and tax credits have become an important source of income for millions of working age households including many low paid workers with children The nature and purpose of these transfer payments however remain highly contested Conservative and New Labour governments have used in work benefits and conditionality requirements to activate the unemployed and reinforce the incentives to take low paid work an approach which has reached its apogee in Universal Credit By contrast a growing number of campaigners have argued that the challenge of providing economic security in an age of automation would be better met by paying a Universal Basic Income to all citizens *Transfer State* provides the first detailed history of guaranteed income proposals in modern Britain which brings together intellectual history and archival research to show how the pursuit of an integrated tax and benefit system has shaped UK public policy since 1918 The result is a major new analysis of the role of cash transfers in the British welfare state which sets Universal Credit in a historical perspective and examines the cultural and political barriers to a Universal Basic Income Challenges of Aging C. Torp, 2015-06-15 Population ageing is among

the most important developments of our time This book explores the profound challenges faced by an aging world Leading experts from diverse disciplines describe the fundamental impact demographic aging has on pension systems on the concepts of retirement and old age and on the balance of generational justice American Idle Annette Nierobisz,Dana Sawchuk,Dana Sawchuk,Annette Marie Nierobisz,2025-05-13 In American Idle sociologists Annette Nierobisz and Dana Sawchuk report their findings from interviews with sixty two mostly white collar workers who experienced late career job loss in the wake of the Great Recession Without the benefits of planned retirement or time horizons favorable to recouping their losses these employees experience an array of outcomes from hard falls to soft landings Notably the authors find that when reflecting on the effects of job loss fruitless job searches and the overall experience of unemployment participants regularly called on the frameworks instilled by neoliberalism Invoking neoliberal rhetoric these older Americans deferred to businesses need to prioritize bottom lines accepted the shift toward precarious employment or highlighted the importance of taking initiative and maintaining a positive mindset in the face of structural obstacles Even so participants also recognized the incompatibility between neoliberalism s one size fits all solutions and their own situations this disconnect led them to consider their experiences through competing frameworks and to voice resistance to aspects of neoliberal capitalism Employing a life course sociology perspective to explore older workers precarity in an age of rising economic insecurity Nierobisz and Sawchuk shed light on a new wrinkle in American aging **Aspects of Ageing** Michael Bury,John Macnicol,1990
