Choosing and Using a New CAT Rod Mollise, 2009-02-28. Choosing and Using the New CAT will supersede the author's successful *Choosing and Using a Schmidt Cassegrain Telescope* which has enjoyed enthusiastic support from the amateur astronomy community for the past seven years. Since the first book was published a lot has changed in the technology of amateur astronomy. The sophistication and variety of the telescopes available to amateurs has increased dramatically. Computerized SCTs, Maksutov Cassegrains and most recently Meade's new and acclaimed Ritchey-Chrétien's have come to dominate the market. That means that all amateurs considering the purchase of a new telescope, not only a SCT and not just beginners, will benefit from this detailed guide. Choosing the right telescope for particular kinds of observation or even for general work is far from easy, but Rod Mollise gives invaluable advice and guidance. **The Boy's Own Annual**, 1901

Galloglass Scarlett Thomas, 2019-05-21. Effie Wolf, Raven and Max are faced with their most challenging adventure yet in the third installment of the magical *Worldquake* series which Kirkus Reviews calls tailor-made for Harry Potter's fans. Effie Truelove and her school friends Lexy Wolf, Maximilian and Raven must put their magical skills to the test. The Diberi, a corrupt organization intent on destroying the world, has returned and has something sinister planned at Midwinter. But during a visit to the Otherworld, Effie is mistaken and imprisoned for being a galloglass, a dangerous, selfish islander. Meanwhile, Lexy is threatened by the vile professor Jupiter Peacock, and Wolf embarks on a perilous journey to find his missing sister. And back at school, Neptune the cat is bored. He's used to lording over the other stray cats, but they've all mysteriously vanished. Where could they be, and how will he find them? Can Effie and her friends reunite before their universe ceases to exist? *Murder on a Moon Trek: Fly Me to the Moon* Diane Vallere, 2018-08-14. Set phasers to cozy in this humorous outer space series. Starter readers are calling: Veronica Mars meets Star Trek. Or is it Judy Jetson meets Stephanie Plum? You decide. Sylvia Stryker has no business being on the next Moon Unit Cruise Line unless you count aspirations and dreams. The career that once felt within her reach, Intergalactic Cruise Ship Security, disappeared the day her dad was arrested for collusion with space pirates. Since then, she's begrudgingly been running the ice mine for her aging mother, the two of them social pariahs amongst their fellow Plunians. Everything changes when the uniform lieutenant position on Moon Unit 6 opens up days before departure. Sylvia immediately puts her hacking skills to use, uploading bogus credentials onto the crew manifest. Now to just lay low, do her job, and impress the new boss. Her plan goes off without a hitch until a non-celestial body falls from the uniform inventory closet after departure. Reporting it means drawing attention, the very opposite of laying low. When the head of security shows

up to investigate and throws her into the spaceship holding cell her onboard status shifts from staff to prisoner If Sylvia can t expose the killer herself she ll be bunking with her dad at the local space prison National bestselling author Diane Vallere sends you out of this world alongside the uniform lieutenant on an intergalactic cruise with a dead body and plenty of suspects What readers are saying I really enjoyed this mixture of science fiction and cozy mystery I loved how Vallere combined science fiction mystery drama and humor making this book very enjoyable and hard to put down I gave it a try simply because the author was Diane Vallere I m so glad I did Just as you would expect this is a totally FUN murder mystery that doesn t disappoint It s like Sherlock Holmes in space but better I loved this mystery set in space It is a murder mystery It is a spy story It is a futuristic science fiction story It is pure genius and entertaining from start to finish It s as if Star Trek married a cozy very well done Read and enjoy It s not easy being purple especially when you re trapped on a spaceship with people who want to arrest you for a crime you didn t commit and the one who did Murder on a Moon Trek is the quirky first novel featuring uniform lieutenant Sylvia Stryker If you like unique characters delightful plots and cool futuristic fashion you ll love Diane Vallere s entertaining interstellar series Previously published as FLY ME TO THE MOON Is it a cozy mystery set in space or an outer space with a cozy mystery You decide CHAPTER ONE EXCERPT When Moon Unit 5 kicked off its inaugural trip from my home planet of Plunia I expected the uniform closet to be stuffed to capacity I just hadn t expected it to be stuffed with a body But here we were light years from the space station where we d departed and instead of a closet of freshly laundered uniforms I had a dead man No matter how thoroughly I d planned for today I never could have planned for this Maybe he wasn t dead Maybe he was tired Maybe he d had a late night partying before today s departure and crawled into my uniform closet to take a nap As unlikely as that explanation was I wasn t yet willing to accept the more probable reality I knelt next to him and checked for a pulse on the side of his neck His skin was cold to the touch which was either due to his not alive state or the twenty degree difference between earthling temperatures his and Plunian temperatures mine In this case it was both No pulse no breathing A Code Blue Moon Unit Corporation ran a fleet of cruise spaceships whose mission was to provide relaxing getaways to one of our galaxy s moons Ever since I d learned they were reopening after years of inactivity I d fantasized about working for them The fact that I d hacked my records into their system was a minor technicality My job was to manage the uniforms during the moon trek and as long as I did my job and avoided ship security my fantasy would become a reality But this was bigger than managing uniforms Regardless of the risks to me I had to contact the bridge I could send a general message over the staff communication network I stepped away from the pile of spilled uniforms and shifted to the computer that sat above the console in the middle of the room It was standard issue a flat black folio with colorful buttons and a low definition screen Only the top members of the ship and paying passengers were given high def equipment For the rest of us it was the bare minimum Moon Unit Corporation s way of making sure distractions didn t surround us To the right side of the computer was a clear plastic dome that protected a shiny red button that despite

learning about during emergency protocol training I'd hoped never to have to use This was a button message I flipped the dome up and pressed the button Uniform Ward to the bridge Lieutenant Sylvia Stryker reporting There's a situation in my ward What kind of situation asked a female voice It sounded like my immediate supervisor Yeoman D Nar There was no official reason for her to be on the bridge during departure but senior officers of the ship were given an open invitation to witness the launch with Captain Swift D Nar was exactly the type to insert herself where she wasn't wanted I'm pretty sure it's a Code Blue Pretty sure I was completely sure There was no doubt I was looking at a Code Blue Don't be reckless A Code Blue is serious I think you made a mistake I bristled at her accusation but kept my voice in check It's not a mistake I memorized the codes last night I don't think you have a Code Blue Check the BOP and report in as applicable The BOP Book of Protocols was a 237 page manual that outlined the proper method for handling everything from hydrating vacuum packed meals to subordination expectations between low level officers and high ranking ones Every ship in the galaxy had a BOP Crew members were expected to know the rules and regulations of the ship but the BOP existed as a backup when something unexpected happened I picked up a small hand mirror from the nearby uniform alterations station and held it in front of the officer's mouth No condensation Code Blue alright I hadn't been lying about having memorized the list of codes from the BOP I'd bought a used copy of an old Book of Protocols from the black market and studied it from cover to cover No doubt it was outdated The Moon Units 1-3 had had their share of trouble and the problems with the Moon Unit 4 were still classified but I had to start somewhere I flipped through the pages of the Moon Unit 5 BOP looking for an updated list of warning codes Because my knowledge had come from the old BOP I'd created a finding tool a cross reference of everything in the old manual and where to find it in the new one I'd also had a copy of the BOP made and organized it the way I would if I were in charge of ship security Someday I would be When people stopped judging me by what my dad had done before they arrested him and took him away But today wasn't someday and even though the bridge blew off my call I still had a problem that had nothing to do with uniform management I studied the deceased officer Who was he A quick assessment of his uniform indicated his position and rank red shirt two bands circling his cuff standard issue black pants and gravity boots Second navigation officer of Moon Unit 5 There were no visible wounds to indicate how he'd died He wasn't wearing an air purification helmet like I was so I disconnected my inhalation tube from the oxygen tank under my uniform held the tube in front of his mouth and sniffed Cherries and menthol I reconnected the tube and then put my hand under his chin and opened his mouth wide His tongue had a stripe of bright red down the middle like he'd been sucking on a throat lozenge It was common practice among crew members during takeoff because frequent swallowing kept ears from plugging up What are you doing said a voice behind me I turned my head and bumped my protective fiberglass bubble helmet on the closet door My helmet bounced off the surface I blinked a few times and then looked up Uh oh Even if I'd been face to face with the man in the uniform ward he would have towered over me He had a bald head and dark pointed eyebrows that shielded dark eyes

Long straight nose and lips that were drawn in a line and turned down on the sides His arms crossed in front of his body and his biceps bulged below the hem of the short sleeves of his dark blue jumpsuit My mind flashed over a series of facts and images I d memorized before my official first day and I reached one conclusion This man was from the maintenance crew My know it all boss must have told him I called in the wrong code and sent him here to clean up whatever mess I d caused I m Sylvia Stryker I spoke with Yeoman D Nar about a Code Blue Did she send you He looked over my shoulder at the body Move he said I stood quickly The action triggered a bout of vertigo I put my hand on my counter just behind where I d left the open Book of Protocols Yikes If this guy saw that I d torn apart and rearranged the protocol manual he d report me to ship security without a second thought I moved a few inches to the left and turned around to block his view of the counter They must have notified you You re with maintenance right His expression didn t change I haven t heard anything about a Code Blue Oh I looked over my shoulder to where I d moved the body Maybe the bridge was busy with takeoff Unlike my uniform the muscular man s didn t have the Moon Unit insignia a silver number 5 surrounded by circles on their axis like the rings around Saturn all contained in an orange patch edged in black thread It was the same insignia on my ID card and woven into the carpet in the employee lounge and on the cover of the BOP and every single uniform in the inventory closet But it wasn t on him Still the deceased officer deserved to be in a more honorable location than the inventory closet and I needed help moving him But since there was the tiniest chance that ship security would uncover the fact that I hadn t indeed been hired through proper channels and might be viewed as a stowaway on board the ship I d planned to lay low until we d cleared the breakaway point in our moon trek Maybe Yeoman D Nar s lack of urgency was a blessing in disguise He s dead I said How I don t know He was inside the uniform closet when I got here I checked for a pulse but couldn t find it You need to notify the bridge Well duh I said I probably know the ship protocols better than you do I contacted the bridge and told Yeoman D Nar I had a Code Blue but she didn t believe me I looked at the body over the large man s shoulder Can you help me move him I have to prep for departure and I can t do that while he s blocking my inventory The man s back was to me but he turned his head to the side so I could see his profile His eyebrow raised again He slipped his arms under the officer s neck and knees and then stood up and lifted him like he was lifting a bag of potatoes Plunia was filled with potato farms and when I wasn t working in the ice mines with my mom I d often played in the potato fields I was pretty sure Plunian potatoes weighed a lot less than the second nav officer The maintenance man set the body on the reclining bench alongside the inside wall of the uniform ward He draped a dressing gown over him covering his face and red shirt The dressing gown was only so long though so the officer s bottom half still showed Your ward is off limits the maintenance man said No I said I mean this is my job on the ship I expect today to be slow because everybody is probably wearing their best uniform but still if I don t open the uniform ward the crew will ask questions Do you have something to hide he asked I crossed my arms over my magenta uniform You ask a lot of questions for a janitor He seemed surprised and then his lips pressed together and the corners of his

mouth turned up Why do you think I m the janitor I don t recognize your uniform and I know all the different ones on the ship The only people on the ship wearing uniforms that don t come from my ward are the janitorial crew The cabin doors swished open and a man in gray walked in Neptune Captain Swift is waiting for you in engineering He says the crack isn t sealed Neptune I asked I looked back and forth between the new guy and the one who d been asking all the questions I thought Neptune was the head of Moon Unit security division I am the original man said Oh no I d heard about Neptune He was the one person I d been hoping to avoid For fans of Star Trek Star Wars Dune UFO The Orville Galaxy Quest Lost in Space and The Jetsons who also like Hallmark Mysteries Diane Fans describe her vintage Vallere goodness and say she is a great storyteller with a way with creating strong female characters and intrigue who is a superb and very humorous writer Her gift of creating spunky sleuths in fun settings take readers to Dallas Palm Springs Los Angeles Pennsylvania and outer space
