Test zur Erfassung der phonologischen Bewusstheit und der Benennungsgeschwindigkeit (TEPHOBE) Andreas Mayer, 2020-05-07 Mit TEPHOBE liegt ein standardisiertes und normiertes Verfahren vor das mit der phonologischen Bewusstheit und der Benennungsgeschwindigkeit zwei der wichtigsten Prädiktoren der Leserechtschreibkompetenz berprft. Eine zuverlässige Erfassung von Risikokindern vom Vorschulalter bis zur 2. Klasse für die Ausbildung von LRS wird damit ebenso möglich wie die Ableitung spezifischer Förderbedürfnisse. Das Manual beinhaltet Hintergrundinformationen, Hinweise zur praktischen Durchführung der Tests und zur Auswertung sowie Materialien für den Einzeltest zur

Benennungsgeschwindigkeit. Eine Audio-CD unterstützt bei der Testdurchführung. **Neurobehavior of Language and Cognition** Lisa Tabor Connor, Loraine K. Obler, 2007-05-08. This volume has been composed as an appreciation of Martin L. Albert in the year of his 60th birthday. At least one contributor to each paper in this volume has been touched by Marty in some way: he has mentored some, been a fellow student with some, and been a colleague to most. These contributors, as well as many others, view Marty as a gifted scientist and a wonderful human being. The breadth of his interests and intellectual pursuits is truly impressive; this breadth is reflected only in part by the diversity of the papers in this volume. His interests have ranged from psychopharmacology to cross-cultural understanding of dementia, through the aphasia to the history of the fields that touch on behavioral neurology, especially neurology per se, cognitive psychology, speech language pathology, and linguistics. Throughout his scholarly work, Martha Taylor Sarno notes, Marty never loses the human perspective, e.g., the powerfully disabling effect on the individual person with aphasia or other neurological disorder. For those readers who only know a portion of his work, we thought that we should describe him here. Many of the people whom Marty has influenced have been able to contribute to this volume. We have invited some others who were unable to contribute to express their appreciation for him, as well. **Neurobehavior of Language and Cognition** Martin L. Albert, Lisa Tabor Connor, Loraine K. Obler, 2000-07-31. The intersection of neurolinguistics and neuropsychology lies at the core of the cognitive neurosciences. Recent advances in our understanding of how language and other cognitive abilities relate to each other and to the brain have complemented the prior research on frank brain damage in the aphasia. The editors have invited senior scholars in the field to present a state-of-the-art volume on a range of language and non-language cognitive phenomena in normals and in brain damage from the perspective of neurobehavior, including neurochemistry. This volume should appeal to neuropsychologists, speech language pathologists, behavioral neurologists, and neuropsychiatrists. **Neuropsychological**

An Empty Curriculum Sandra Stotsky, 2015-02-19 Teachers cannot teach what they do not know This country has tolerated a weak licensing system for prospective teachers for decades This weak system has been accompanied by an increasingly emptier curriculum for most students depriving them of the knowledge and skills needed for self government An Empty Curriculum How Teacher Licensure Tests Lead to Empty Student Minds makes the case that the complete revision of the licensing system for prospective and veteran teachers in Massachusetts in 2000 and the construction of new or more demanding teacher licensing tests contributed significantly to the Massachusetts education miracle That miracle consisted of enduring gains in achievement for students in all demographic groups and in all regional vocational technical high schools since 2005 gains confirmed by tests independent of Massachusetts policy makers The immediate purpose of this book is to explain what Massachusetts did in 2000 to strengthen its teacher licensing and re licensing system to ensure that all teachers could teach to relatively strong K 12 standards Its larger purpose is to suggest that development of strong academic standards in all major subjects should be followed by complete revision of a state s teacher licensing system not as has been the case for several decades the development of K 12 student tests if this country wants to strengthen public education
