

ANDREW HUBERMAN'S MORNING ROUTINE

Wake up early

Waking up early, around 5:00 or 6:00 am helps you feel more energized and focused throughout the day.

Get exposure to natural light

This can help to regulate the body's internal clock and improve overall mood and energy levels.

Hydrate

Adding some lemon juice or apple cider vinegar to the water alkalizes the body and improves gut health.

Meditate

Practice for at least 10 minutes every morning to help reduce stress and improve mental clarity.

Stretch

Spend a few minutes stretching to improve flexibility, reduce muscle tension, and increase blood flow.

Exercise

Engage in some form of physical activity to help improve overall fitness and energy levels.

Fuel up with a healthy breakfast

A healthy breakfast (eggs, avocado, and whole-grain toast...) will provide sustained energy throughout the day.

Cold exposure

Taking a cold shower improves circulation, reduces inflammation, boosts metabolism, and guards your health against cold weather.

Journal

Journaling can help you improve self-awareness and mental clarity.

Set and review daily goals

Review your goals at the end of the day as a way to reflect on progress and identify areas for improvement.

The Feeling Economy Roland T. Rust, Ming-Hui Huang, 2021-01-19 As machines are trained to think many tasks that previously required human intelligence are becoming automated through artificial intelligence However it is more difficult to automate emotional intelligence and this is where the human worker's competitive advantage over machines currently lies This book explores the impact of AI on everyday life looking into workers adaptation to these changes the ways in which managers can change the nature of jobs in light of AI developments and the potential for humans and AI to continue working together The book argues that AI is rapidly assuming a larger share of thinking tasks leaving human intelligence to focus on feeling The result is the Feeling Economy in which both employees and consumers emphasize feeling to an unprecedented extent with thinking tasks largely delegated to AI The book shows both theoretical and empirical evidence that this shift is well underway Further it explores the effect of the Feeling Economy on our everyday lives in the areas such as shopping politics and education Specifically it argues that in this new economy through empathy and people skills women may gain an unprecedented degree of power and influence This book will appeal to readers across disciplines interested in understanding the impact of AI on business and our daily lives It represents a bold potentially controversial attempt to gauge the direction in which society is heading

The Brain, a Galaxy in Your Head David Fortin, 2025-08-29 The human brain is the most complex object known in the universe It is said that there are as many stars in the milky way as there are neurons in the brain Interestingly the parallel between the universe and the brain goes further as the matter density distribution in the universe would resemble that in the brain no less This book summarizes the current knowledge on the brain extending this knowledge into philosophical considerations It first retraces historical milestones in the discovery of the brain followed by a detailed and balanced account on current knowledge on the subject Admittedly the goal here is to summarize intelligibly the knowledge on the subject without going too much into

details The next step in this odyssey is then to consider more philosophical implications on the brain hence we will discuss one of the greatest mysteries of all the consciousness The last chapter will draw the line between the biological brain and AI which we will see have strictly nothing in common Finally we will study the impacts of digital technologies on our brains This is the perfect guide to familiarise yourself with the marvel within your head your brain

Textbook of Pulmonary and Critical Care Medicine Vols 1 and 2 SK Jindal, PS Shankar, Suhail Raoof, Dheeraj Gupta, 2011-03-20 Book includes the basic principles of Pulmonology as well as the recent advances in allied clinical sciences relevant to pulmonology Includes valuable inputs on tuberculosis other pulmonary infections environmental and occupational medicine sleep disorders and general systemic diseases affecting the respiratory system Although critical care is relevant for most of the medical and surgical specialties the pulmonologist have a more vested interest than other specialists Assisted respiration which forms the core of most critical care lies in the primary domain of pulmonologists

Textbook of Pulmonary and Critical Care Medicine Vols 1 and 2 SK Jindal, PS Shankar, Suhail Raoof, Dheeraj Gupta, 2011-01-31 This book published in two volumes Both volume divided in twenty three sections all sections and chapters are most important The Textbook of Pulmonary and Critical Care Medicine also offers a unique exposure to the problems in many parts of the world Tuberculosis the number one treatable condition has been extensively covered and special topics such as multi drug resistance directly observed therapy TB prevention nonpharmacologic approaches and extrapulmonary tuberculosis are particularly relevant Many countries are facing a growing burden of noncommunicable respiratory diseases They have become the second leading cause of death after injuries and their impact on indirect costs such as loss of work and home productivity is enormous These problems are addressed and measures of prevention such as smoking cessation are included Other special challenges including topics such as indoor and outdoor air pollution climate change poisoning with pesticides snakebite toxicity pulmonary manifestations of tropical infections and industrial accidents such as the tragedy seen in Bhopal Madhya Pradesh with methyl isocyanate have been well covered However as globalization flattens the playing field and countries leap to industrialization cultural beliefs natural resources climate and geography have slowed the pace of development in many parts of the world Poverty leads to malnutrition homelessness lack of education and poor access to health care Overcrowded cities and rural underdevelopment are other challenges that impact health in the various parts of the world Moreover epidemics of HIV drug abuse and smoking addiction take a greater toll on the population Yes the world is flat but the terrain is filled with mountains and valleys and local problems demand local solutions And these local problems need to be explored and presented with a scholarly perspective The Textbook of Pulmonary and Critical Care Medicine has successfully incorporated these sociodemographic factors into the subject matter The text is well written and the chapters are carefully referenced with subjects found in all traditional pulmonary and critical care textbooks e g airway diseases interstitial lung disease pleural disease pulmonary neoplasia pulmonary infection sleep and critical care There are several nontraditional sections as well that are practical and

especially helpful to the practicing physician These include a section on the symptom approach to lung disease an overview of the pharmacologic agents used to treat lung disease and a comprehensive review of methods in lung diagnosis from the simple history and physical examination to the latest complex tools of interventional pulmonology The textbook is especially unique because of the abundance of illustrations flow charts and tables There are many radiographic and pathologic reproductions that are especially helpful
