How digital technology is upending the traditional creative industries and why that might be a good thing The digital revolution poses a mortal threat to the major creative industries music publishing television and the movies The ease with which digital files can be copied and distributed has unleashed a wave of piracy with disastrous effects on revenue Cheap easy self publishing is eroding the position of these gatekeepers and guardians of culture Does this revolution herald the collapse of culture as some commentators claim Far from it In Digital Renaissance Joel Waldfoegel argues that digital technology is enabling a new golden age of popular culture a veritable digital renaissance By reducing the costs of production distribution and promotion digital technology is democratizing access to the cultural marketplace More books

songs television shows and movies are being produced than ever before Nor does this mean a tidal wave of derivative poorly produced kitsch analyzing decades of production and sales data as well as bestseller and best of lists Waldfogel finds that the new digital model is just as successful at producing high quality successful work as the old industry model and in many cases more so The vaunted gatekeeper role of the creative industries proves to have been largely mythical The high costs of production have stifled creativity in industries that require ever bigger blockbusters to cover the losses on ever more expensive failures Are we drowning in a tide of cultural silt or living in a golden age for culture The answers in Digital Renaissance may surprise you *Follow the Way* Lars Coburn,2020-04-03 Follow the Way is about how the virtues of humility gratitude and simplicity impact prayer and a relationship with God We learn these virtues from the life of Jesus Like the dust Jesus kicked up stuck to the sweaty disciples as they followed close behind our habits and practices of listening being and seeing stick on those following us Humility teaches us to listen A relationship cannot be a one sided conversation humility reminds us to quiet our own voice enough to recognize the voice of God in our lives Gratitude teaches us to be present A relationship cannot be based solely on the past or the future we need to recognize God in the present in ordinary moments of life Simplicity teaches us to see A relationship cannot have clarity without each understanding the other we need to clear out the noise and interference in order to recognize God s will and plan for our life Humility gratitude and simplicity empower us to pray intimately and experience an intimate relationship where we truly know God not just stuff about God
