Taxation of Human Capital and Wage Inequality Fatih Guvenen, 2010-10 Wage inequality has been significantly higher in the U.S. than in continental European countries since the 1970s. This report studies the role of labor income tax policies (LITP) for understanding these facts. Countries with more progressive LITP have significantly lower before-tax wage inequality at different points in time. Progressivity is also negatively correlated with the rise in wage inequality during this period. Wage inequality arises from differences across individuals in their ability to learn new skills as well as from idiosyncratic shocks. Progressive taxation compresses the after-tax wage structure, thereby distorting the incentives to accumulate human capital, in turn reducing the cross-sectional dispersion of before-tax wages. Noon The Rise to Power , Ungleichheit Anthony B. Atkinson, 2016-08-13 Soziale Ungleichheit ist das Grundproblem unserer Zeit. Zwischen Superreich und Bettelarm klafft heute weltweit ein Abgrund, der tiefer und breiter ist, denn je. Was sollten wir tun? Amaglobeli, Mr. Valerio Crispolti, Ms. Era Dabla-Norris, Pooja Karnane, Florian Misch, 2018-05-11 This paper describes a new comprehensive database of tax policy measures in 23 advanced and emerging market economies over the last four decades. We extract this information from more than 900 OECD Economic Surveys and 37 000 tax related news from the International Bureau of Fiscal Documentation using text mining techniques. The innovation of this dataset lies in its granularity: changes in the rates and bases of personal and corporate income taxes, value added and sale taxes, social security contributions, excise and property taxes are systematically documented. In addition, the database provides information on the announcement and implementation dates, whether the measures represent major changes, are part of a broader tax package and phased in over several years. The paper also presents a range of stylized facts suggesting that information from this database is useful to deepen the analysis of tax policy changes for research and policy purposes.
